Flynn "lays out [the reasons he believes] why we have failed to stop terrorist groups from growing, and what we must do to stop them. The core message is that if you understand your enemies, it's a lot easier to defeat them--but because our government has concealed the actions of terrorists like bin Laden and groups like ISIS, and the role of Iran in the rise of radical Islam, we don't fully understand the enormity of the threat they pose against us"--Amazon.com.

From John Della Volpe, the director of polling at the Harvard Institute of Politics, *Fight* is an exploration of Gen Z, the issues that matter most to them, and how they will shape the future. 9/11. The war on terror. Hurricane Katrina. The 2008 financial crisis. The housing crisis. The opioid epidemic. Mass school shootings. Global warming. The Trump presidency. COVID-19. Since they were born, Generation Z (also known as "zoomers")—those born from the late 1990s to early 2000s—have been faced with an onslaught of turmoil, destruction and instability unprecedented in modern history. And it shows: they are more stressed, anxious, and depressed than previous generations, a phenomenon John Della Volpe has documented heavily through decades of meeting with groups of young Americans across the country. But Gen Z has not buckled under this tremendous weight. On the contrary, they have organized around issues from gun control to racial and environmental justice to economic equity, becoming more politically engaged than their elders, and showing a unique willingness to disrupt the status quo. In *Fight: How Gen Z Is Channeling Their Passion and Fear to Save America*, Della Volpe draws on his vast experience to show the largest forces shaping zoomers' lives, the issues they care most about, and how they are—despite older Americans' efforts to label

Gen Z as overly sensitive, lazy, and entitled—rising to the unprecedented challenges of their time to take control of their country and our future.

In a rousing account of one of the critical turning points in American history, *Through the Perilous Fight* tells the gripping story of the burning of Washington and the improbable last stand at Baltimore that helped save the nation and inspired its National Anthem. In the summer of 1814, the United States of America teetered on the brink of disaster. The war it had declared against Great Britain two years earlier appeared headed toward inglorious American defeat. The young nation's most implacable nemesis, the ruthless British Admiral George Cockburn, launched an invasion of Washington in a daring attempt to decapitate the government and crush the American spirit. The British succeeded spectacularly, burning down most of the city's landmarks—including the White House and the Capitol—and driving President James Madison from the area. As looters ransacked federal buildings and panic gripped the citizens of Washington, beleaguered American forces were forced to regroup for a last-ditch defense of Baltimore. The outcome of that "perilous fight" would help change the outcome of the war—and with it, the fate of the fledgling American republic. In a fast-paced, character-driven narrative, Steve Vogel tells the story of this titanic struggle from the perspective of both sides. Like an epic novel, *Through the Perilous Fight* abounds with heroes, villains, and astounding feats of derring-do. The vindictive Cockburn emerges from these pages as a pioneer in the art of total warfare, ordering his men to "knock down, burn, and destroy" everything in their path. While President Madison dithers on how to protect the capital, Secretary of State James Monroe personally organizes the American defenses, with disastrous results. Meanwhile, a prominent Washington lawyer named Francis Scott Key embarks on a mission of mercy to negotiate the release of an American prisoner. His journey will place him with the British fleet during the climactic Battle for Baltimore, and culminate in the creation of one of the most enduring compositions in the annals of patriotic

song: “ The Star-Spangled Banner. ” Like Pearl Harbor or 9/11, the burning of Washington was a devastating national tragedy that ultimately united America and renewed its sense of purpose. Through the Perilous Fight combines bravura storytelling with brilliantly rendered character sketches to recreate the thrilling six-week period when Americans rallied from the ashes to overcome their oldest adversary—and win themselves a new birth of freedom. Praise for Through the Perilous Fight “ Very fine storytelling, impeccably researched . . . brings to life the fraught events of 1814 with compelling and convincing vigor. ” —Rick Atkinson, Pulitzer Prize – winning author of *An Army at Dawn* “ Probably the best piece of military history that I have read or reviewed in the past five years. . . . This well-researched and superbly written history has all the trappings of a good novel. . . . No one who hears the national anthem at a ballgame will ever think of it the same way after reading this book. ” —Gary Anderson, *The Washington Times* “ [Steve] Vogel does a superb job. . . . [A] fast-paced narrative with lively vignettes. ” —Joyce Appleby, *The Washington Post* “ Before 9/11 was 1814, the year the enemy burned the nation ’ s capital. . . . A splendid account of the uncertainty, the peril, and the valor of those days. ” —Richard Brookhiser, author of *James Madison* “ A swift, vibrant account of the accidents, intricacies and insanities of war. ” —Kirkus Reviews

“Probably the most eloquent call to arms we’re likely to hear about the politics of water” (*The Globe and Mail*, Toronto). In this “chilling, in-depth examination of a rapidly emerging global crisis,” Maude Barlow and Tony Clarke, two of the most active opponents to the privatization of water show how, contrary to received wisdom, water mainly flows uphill to the wealthy (In *These Times*). Our most basic resource may one day be limited: Our consumption doubles every twenty years—twice the rate of population increase. At the same time, increasingly transnational corporations are plotting to control the world’s dwindling water supply. In England and France, where water has already been

privatized, rates have soared, and water shortages have been severe. The major bottled-water producers—Perrier, Evian, Naya, and now Coca-Cola and PepsiCo—are part of one of the fastest-growing and least-regulated industries, buying up freshwater rights and drying up crucial supplies. A truly shocking exposé, *Blue Gold* shows in frightening detail why, as the vice president of the World Bank has pronounced, “The wars of the next century will be about water.” “Maude Barlow and Tony Clarke combine visionary intellect with muckraking research and a concrete plan for action.” —Naomi Klein, author of *The Battle for Paradise* “A sobering, in-depth look at the growing scarcity of fresh water and the increasing privatization and corporate control of this nonrenewable resource.” —*Library Journal* “An angry and persuasive account.” —*Bloomberg Businessweek* “The dire scenarios laid out in this comprehensive book are truly frightening.” —*The San Diego Union-Tribune*

gay man from the South as he fights to carve out a place for himself, within his family, within his country, within his own hopes, desires, and fears. Through a series of vignettes that chart a course across the American landscape, Jones draws readers into his boyhood and adolescence—into tumultuous relationships with his family, into passing flings with lovers, friends, and strangers. Each piece builds into a larger examination of race and queerness, power and vulnerability, love and grief: a portrait of what we all do for one another—and to one another—as we fight to become ourselves. An award-winning poet, Jones has developed a style that's as beautiful as it is powerful—a voice that's by turns a river, a blues, and a nightscape set ablaze. *How We Fight for Our Lives* is a one-of-a-kind memoir and a book that cements Saeed Jones as an essential writer for our time.

In his penetrating analysis of past, present, and future wars, Rose suggests how to break this cycle.

Drawing on his global experiences from Africa to Iraq, author Ralph Peters attacks today's crucial issues of our time head-on, with the clear eye and blunt voice that has won him a devoted following: Is Iraq worth it? What's the truth behind the politics? Are our defense dollars buying a strong military—or the wrong military? Are we missing great opportunities elsewhere while hypnotized by the Middle East? Must we accept that Islam itself is the problem? Will we face a war with China? What would such a war mean? Can Washington learn from its mistakes? These are just a few of the controversial issues Peters takes on in a series of body blows to the status quo. A deafblind writer and professor explores how the misrepresentation of disability in books, movies, and TV harms both the disabled community and everyone else. As a deafblind woman with partial vision in one eye and bilateral hearing aids, Elsa Sjunneson lives at the crossroads of blindness and sight, hearing and deafness—much to the confusion of the world around her. While she cannot see well enough to operate without a guide dog or cane, she can see enough to know when someone is reacting to the visible signs of her blindness and can hear when they're whispering behind her back. And she certainly knows how wrong our one-size-fits-all definitions of disability can be. As a media studies professor, she's also seen the full range of blind and deaf portrayals on film, and here she deconstructs their impact, following common tropes through horror, romance, and everything in between. Part memoir, part cultural criticism, part history of the deafblind experience, *Being Seen* explores how our cultural concept of disability is more myth than fact, and the damage it does to us all.

*Through the Perilous Fight* The Experiment

International tensions around water are rising in many of the world's most volatile regions. The policy recipe pursued by the West, and imposed on governments elsewhere, is to pass control over water to private interests, which simply accelerates the cycle of inequality and deprivation. California, as well as China, South Africa, Mexico and countries on every continent already face a crisis. This book exposes the enormity of the problem, the dangers of the proposed solution and the alternative, which is to recognize access to water as a fundamental human right, not dependent on ability to pay.

stop. Distilling the lessons of two decades of experience in family struggles, labor strikes, and wars, he presents a bold new strategy for stopping fights. He also describes ten practical roles--as managers, teachers, parents, and citizens--that each of us can play every day to prevent destructive conflict. Fighting isn't an inevitable part of human nature, Ury explains, drawing on his training as an anthropologist and his work among primitive tribes and modern corporations. We have a powerful alternative--The Third Side--which can transform our daily battles into creative conflict and cooperation at home, at work, and in the world.

Shannon Watts was a stay-at-home mom folding laundry when news of the tragic shooting at Sandy Hook Elementary flashed across the television screen. In one moment, she went from outraged to engaged and decided to do something about it. What started as a simple Facebook group to connect with other frustrated parents grew into Moms Demand Action, a national movement with millions of supporters and a powerful grassroots network of local chapters in all 50 states. Shannon has been called "the NRA's worst nightmare"—and her army of moms have bravely gone up against the gun lobby, showing up in their signature red shirts, blocking the hallways of congress with their strollers, electing gun sense candidates and running for office themselves, proving that if the 80 million moms in this country come together, they can put an end to gun violence. *Fight Like a Mother* is the incredible account how one mother's cry for change became the driving force behind gun safety progress. Along with stories of perseverance, courage, and compassion, Watts shines a light on the unique power of women—starting with

what they have, leading with their maternal strengths, and doubling down instead of backing down. While not everyone can be on the front lines lobbying congress, every mom is already a multi-tasking organizer, and Shannon explains how to go from amateur activist to having a real impact in your community and beyond. *Fight Like a Mother* will inspire everyone—mothers and fathers, students and teachers, lawmakers, and anyone motivated to enact change—to get to work transforming hearts and minds, and passing laws that save lives.
