Booker T. Washington has been regarded as the leading figure in African American life, and as the man who brought his people from slavery to unfettered economic, political, and social involvement in the American mainstream. He has also been strongly criticized for advancing the cause of racial accommodation when the political agenda dictated the development of an independent black standpoint in all areas of the industrial structure. This agenda went far beyond educational reform and agrarian participation. Character Building first appeared in 1902. While enormous changes have occurred in all phases of African American rights and responsibilities, Booker T. Washington's broad outlines on building moral character have remained intact. Washington's book can be viewed as a Dale Carnegie volume on *How to Win Friends and Influence People*—black and white—as noted by the very title of the chapters: "Helping Others," "Influencing by Example," "Education that Educates," "The Gospel of Service," etc. For those in search of the ideological roots of black life in post-slavery times, this text will be a reminder of where the American nation has come from and, arguably, where it is going.

One of the first novels to deal honestly with a

The Little Vampire and the School Trip Macmillan
Now in paperback: The New York Times bestselling memoir hailed as "unforgettable" (Publishers Weekly) and "a stunning memoir of cultural trauma and personal identity" (Booklist). At age 38, Jennifer Teege happened to pluck a library book from the shelf—and discovered a horrifying fact: Her grandfather was Amon Goeth, the vicious Nazi commandant depicted in Schindler's List. Reviled as the "butcher of Plaszów," Goeth was executed in 1946. The more Teege learned about him, the more certain she became: If her grandfather had met her—a black woman—he would have killed her. Teege's discovery sends her into a severe depression—and fills her with questions: Why did her birth mother withhold this chilling secret? How could her grandmother have loved a mass murderer? Can evil be inherited? Teege's story is cowritten by Nikola Sellmair, who also adds historical context and insight from Teege's family and friends, in an interwoven narrative. Ultimately, Teege's search for the truth leads her, step by step, to the possibility of her own liberation.

From the New York Times bestselling author of *The House of the Spirits*, Isabelle Allende, comes a passionate tale of one young woman's quest to save her lover set against the chaos of the 1849 California Gold Rush. Orphaned at birth, Eliza Sommers is raised in the British colony of Valparaíso, Chile, by the well-intentioned Victorian spinster Miss Rose and her more rigid brother Jeremy. By 1849, Chileans of every stripe have fallen prey to feverish dreams of wealth. Joaquín takes off for San Francisco to seek his fortune, and Eliza, pregnant with his child, decides to follow him. As Eliza embarks on her perilous journey north in the hold of a ship and arrives in the rough-and-tumble world of San Francisco, she must navigate a society dominated by greedy men. But Eliza soon catches on with the help of her natural spirit and a good friend, the Chinese doctor Tao Chi'en. What began as a search for love ends up as the conquest of personal freedom. A marvel of storytelling, *Daughter of Fortune* confirms once again Isabel Allende's extraordinary gift for fiction and her place as one of the world's leading writers. *Beating about the Bushes* Houghton Mifflin Harcourt

They have been worshipped as fertility goddesses and revered as symbols of peace. Domesticated since the dawn of humankind, they have been crucial to wartime communications for every major historical superpower from ancient Egypt to the United States and are credited with saving thousands of lives. One delivered the results of the first Olympics in 776 BC and another brought the news of Napoleon's defeat at Waterloo more than 2500 years later. Charles Darwin relied heavily upon them to help formulate and support his theory of evolution. Yet today the pigeon is reviled as a rat with wings. How did we come to misunderstand one of humanity's most steadfast companions? In *Pigeons*, Andrew D. Blechman travels across the United States and Europe in a quest to chronicle the bird's transformation from beloved friend to feathered outlaw.

Placer County runs between the Sacramento Valley and the Sierra Nevada mountains, against Sacramento County in the west and 100 miles east to Lake Tahoe. Along the present-day southern border, gold was discovered in 1848 by James Marshall at John Sutter's lumber mill, leading to the California Gold Rush. This relatively narrow county (only 10 to 15 miles across in some spots) has early immigrant trails, wagon roads, railways, and highways all passing through as they head across Donner Summit and across the Sierra Nevadas. Mining, agriculture, transportation, logging, and recreation made Placer County important in the past, and they keep it a thriving place to live now in the 21st century.

"Riveting. . . a testament to a misconceived war, and to the ease with which ordinary men, under certain conditions, can transform into monsters."—New York Times Book Review This is the story of a small group of soldiers from the 101st Airborne Division's fabled 502nd Infantry Regiment—a unit known as "the Black Heart Brigade." Deployed in late 2005 to Iraq's so-called Triangle of Death, a veritable meat grinder just south of Baghdad, the Black Hearts found themselves in arguably the country's most dangerous location at its most dangerous time. Hit by near-daily mortars, gunfire, and roadside bomb attacks, suffering from a particularly heavy death toll, and enduring a chronic breakdown in leadership, members of one Black Heart platoon—1st Platoon, Bravo Company, 1st Battalion—descended, over their year-long tour of duty, into a tailspin of poor discipline, substance abuse, and brutality. Four 1st Platoon soldiers would perpetrate one of the most heinous war crimes U.S. forces have committed during the Iraq War—the rape of a fourteen-year-old Iraqi girl and the cold-blooded execution of her and her family. Three other 1st Platoon soldiers would be overrun at a remote outpost—one killed immediately and two taken from the scene, their mutilated corpses found days later booby-trapped with explosives. *Black Hearts* is an unflinching account of the epic, tragic deployment of 1st Platoon. Drawing on hundreds of hours of in-depth interviews with Black Heart soldiers and first-hand reporting from the Triangle of Death, *Black Hearts* is a timeless story about men in combat and the fragility of character in the savage crucible of warfare. But it is

also a timely warning of new dangers emerging in the way American soldiers are led on the battlefields of the twenty-first century.
