Introduction to Leadership John Wiley & Sons

Uncover the extraordinary leader in you with

straightforward exercises and advice from two of the world's foremost leadership experts From the bestselling authors of The Leadership Challenge and over a dozen award-winning leadership books comes a new book that examines a question of fundamental importance: How do people learn to become leaders? Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader is a comprehensive guide to unleashing the inner leader in us all and to building a solid foundation for a lifetime of leadership growth and mastery. The book offers a concrete framework to help individuals of all levels, functions, and backgrounds take charge of their own leadership development and become the best leaders they can be. Arguing that all individuals are born with the capacity to lead, bestselling authors Kouzes and Posner provide readers with

a practical series of actions and specific coaching tips for harnessing that capacity and creating a context in which they can excel. Supported by over 30 years of research, from over seventy countries, and with examples from real-world leaders, *Learning Leadership* is a clarion call to unleash the leadership potential that is already present in society today. *Learning Leadership* provides readers with evidence-based strategies to ignite the habit of continuous improvement and the mindset of becoming the best leaders they can be. Emerging leaders, as well as leadership developers, internal and external coaches and trainers, and other human resource professionals will learn from first-hand stories and practical examples so that they can deeply understand and apply the fundamentals for becoming the best leaders they can be. *Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader* is divided into digestible bite-sized chapters that encourage daily actions to becoming a better leader. Key takeaways from the book include:

Believe in Yourself. Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they can't achieve mastery until and unless they truly decide that inside them there is a person who can make and difference and learn to be a better leader than they are right now. **Aspire to Excel.** To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. **Challenge Yourself.** Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. **Engage Support.** One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. **Practice Deliberately.** No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily

habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. Learning Leadership challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.

An easy-to-read, interactive approach helps you to identify the characteristics of leaders and followers and illustrates not only how, but also when to use the qualities associated with each to achieve professional and personal success.

The Leadership Challenge John Wiley & Sons
From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you

may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Develop and expand your innate leadership abilities through daily exercises and challenges designed to help you grow into the leader you want to be and prepare you or the job you were made to have. A recent Harvard Business Review article outlining a study of over 17,000 leaders found that although, on average, people begin to supervise others at age 30, most do not start to receive formal leadership training until their forties. Don't wait for training that doesn't come until it's too late. The Five-Week Leadership Challenge is an invaluable guide to help any aspiring leader begin a daily practice of exercises and challenges designed to develop and expand your innate leadership ability as quickly as possible. Patrick Leddin has served as a U.S. Army airborne, infantry, and ranger-qualified officer, founded and ran successful businesses, and trained thousands of leaders. In The Five-Week Leadership Challenge, Leddin shows you how to quickly build standout leadership skills so that when the next opportunity comes along, you're the only person for the job. The Five-Week Leadership Challenge: Includes 35 daily challenges designed to quickly develop standout leadership skills. Outlines the leadership habits you can practice regularly that get you noticed—and promoted, based on Leddin's experience training and consulting thousands of leaders all over the world. Encourages you to share your completion of the leadership challenge on social media to exponentially expand your networking opportunities and receive bonus content and access to additional author tools.

Christian Reflections on The Leadership Challenge Pfeiffer In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.”

“Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In

Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll.

“Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among Grit’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).

THE MOST TRUSTED SOURCE ON
BECOMING A BETTER LEADER

Leadership Matters Leadership is not a fad. It's a fact. It's not here today, gone tomorrow. It's here today, and here forever. Leadership makes a difference. Try naming one significant movement that wandered leaderless into the history books. And leadership matters most in times of uncertainty. The study of leadership is the study of how men and women guide us through adversity,

uncertainty, hardship, disruption, transformation, transition, recovery, and new beginnings. Challenge is the opportunity for greatness. Given the daunting challenges we face today, the potential for greatness is phenomenal. People matter. Even in today's wired world, it's not the web of technology but the web of people that matters most. Leaders can't do it alone. Success in any project, organization, enterprise and in life has been, is now, and will continue to be a function of how well people work and engage with each other. Success in leadership depends on your capacity to build and sustain collaborative human relationships. You matter. People who become leaders don't always seek the challenges they face. Challenges also seek leaders. It's not so important whether you find the challenges or they find you. What is important are the choices you make when stuff happens. The next time you say to yourself, "Why don't they do something about this?" look in the mirror. Ask the person you see, "Why don't I do something about this?" The legacy that you leave will be the life that you lead. The Student Leadership Challenge Reminder Card John Wiley & Sons Designed to be used with the The Student Leadership Challenge or the Student Leadership Practices Inventory, this workbook will help students go deeper into the actual practice of leadership, guiding them in better understanding and embodying The Five Practices of Exemplary Leadership in a meaningful and relevant way. It includes activities and worksheets; a unit on taking, digesting, and understanding the Student Leadership Practices Inventory; and a section that helps students commit to and work on their leadership development in an ongoing way.
