The "Teen Woman's Guide to Life, Love and Career Success" (TWG) is an interactive, age appropriate, inspirational, self-development book for young adult women who want to "live their best lives and make their dreams come true". The "Teen Woman's Guide" accomplishes this mission by offering "Success Principles" and "Success Exercises" that help each teen unlock the key to her success. The ten "Success Principles" help teen women identify their strengths, talents, resources, goals and desires and the "Success Exercises" show them how to implement the Principles into their daily lives. The "Success Exercises" also help young

women set goals and take specific actions that will get them from where they are now, to where they truly want to be in a month, next year and 5 years from now. The "Success Exercises" are the key to helping teen women actualize their goals and they're also what separate this "how to succeed" book from other "how to succeed books" for teens or adults. Teen women incorporate the Success Principles into their daily lives by completing the "Success Exercises".

There are a few people who are truly successful and many others who work hard all of their lives attempting to be successful. As a result, the average person believes that success is hard to obtain and that those who do achieve it are either lucky or extremely brilliant. Most people are so busy attempting to make ends meet that they never take the time to really study the highly successful people. Every person who has made such a study has arrived at the same shocking conclusion: success is merely a decision. You must decide what you want and then begin moving toward it. You decide where you are, and you begin with whatever you have. That 's it. "The only limits in our life are those that we impose on ourselves."

Principles for Teens
In 1952, W. Clement Stone and Napoleon Hill joined forces and philosophies. Stone added his Positive Mental Attitude (PMA) concept to Hill's principles, resulting in the classic book, *Success Through a Positive Mental Attitude*. The two men spent the next ten years writing and lecturing about achieving success through PMA. Their formula was to become the foundation for virtually all modern motivational writing. *Believe and Achieve* is not the last word on creating success; that story will continue to evolve as long as the human race endures. Instead, the Napoleon Hill Foundation hopes that it will be nothing more than the first words in the next chapter of your life: the first of many chapters in which success is the theme.
