Blockchain technology is powering our future. As

the technology behind cryptocurrencies like bitcoin and Facebook's Libra, open software platforms like Ethereum, and disruptive companies like Ripple, it's too important to ignore. In this revelatory book, Don Tapscott, the bestselling author of Wikinomics, and his son, blockchain expert Alex Tapscott, bring us a brilliantly researched, highly readable, and essential book about the technology driving the future of the economy. Blockchain is the ingeniously simple, revolutionary protocol that allows transactions to be simultaneously anonymous and secure by maintaining a tamperproof public ledger of value. Though it's best known as the technology that drives bitcoin and other digital currencies, it also has the potential to go far beyond currency, to record virtually everything of value to humankind, from

birth and death certificates to insurance claims, land titles, and even votes. Blockchain is also essential to understand if you're an artist who wants to make a living off your art, a consumer who wants to know where that hamburger meat really came from, an immigrant who's tired of paying big fees to send money home to your loved ones, or an entrepreneur looking for a new platform to build a business. And those examples are barely the tip of the iceberg. As with major paradigm shifts that preceded it, blockchain technology will create winners and losers. This book shines a light on where it can lead us in the next decade and beyond.

Frail Human Heart: The Name of the Blade, Book Three The Swan Kingdom
This very beautiful and lyrical extended

version of the fairy tale 'The Wild Swans' by Hans Christian Andersen is the much anticipated companion to East of the Sun, West of the Moon. With strong characterization of the heroine and also with more rounded characterisation of the wicked stepmother than in the original version, and with delicate watercolor paintings throughout, this is both a wonderful story and delightful gift.

Beautifully presented in a jacketed edition with foiled title.

In a mythic Scotland, two unlikely heroes must make a dangerous journey to save their people. Agatha is a Hawk, brave and fierce, who protects her

people by patrolling the high walls of their island home. She is proud of her job, though some in her clan whisper that it is meant to keep her out of the way because of the condition she was born with. Jaime, thoughtful and anxious, is an Angler, but he hates the sea. Worse, he 's been chosen for a duty that the clan hasn ' t required for generations: to marry. The elders won ' t say why they have promised him to a girl in a neighboring clan, but there are rumors of approaching danger. When disaster strikes and the clan is kidnapped, it is up to Agatha and Jaime to travel across the haunted mainland of Scotia to Norveg, with help along the way from a clan of nomadic Highland bull riders and the many animals who are drawn to Agatha ' s extraordinary gift of communication. Thrilling and dark yet rich with humor and compassion, this

is the first book in the Shadow Skye trilogy, written by a wonderful new voice in fantasy and introducing a welcome new kind of hero.
