A nurse with her heart in her work and her eye on a doctor . . . A Jedi Padawan on a healing mission without her Master . . . These are the core members of a tiny med unit serving the jungle world of Drongar, where battle is waged over the control of a priceless native plant, and an endless line of medlifters brings in the wounded and dying—mostly clone troopers, but also soldiers of all species. The Swarm War: Star Wars Legends (Dark Nest, Book III) Random House
At long last, the New York Times bestselling series that launched the Star Wars saga into the next generation and into thrilling new territory reaches its spectacular finale. Side by side, Luke Skywalker, Han Solo, Leia Organa Solo, their children, and their comrades in the Galactic Alliance rally for their last stand against the enemy that threatens not only the galaxy, but the Force itself. The Galactic Alliance's hard-won success in countering the Yuuzhan Vong onslaught has proven all too brief—and the tide has turned once more to the invaders' advantage. Having overcome the sabotage strategies of the Jedi and their allies, the marauding aliens

have pushed deeper into the galaxy and subjugated more worlds in their ruthless quest for domination. Coruscant has been remade into a Yuuzhan Vong stronghold. The remnants of the resistance are struggling to form a united front. Luke, Mara, and Jacen are missing in action. Clearly the stage is set for endgame. Now, as Han and Leia receive the chilling news that hundreds of high-ranking Galactic Alliance prisoners face slaughter in a sacrifice to the enemy's bloodthirsty gods, Luke and his team try desperately to convince the living world of Zonama Sekot to join the Jedi's final campaign against the Yuuzhan Vong. Yet even as they speak, a lone space station is all that stands between Alliance headquarters on Mon Calamari . . . and wave after wave of ferocious enemy forces waging their most decisive assault. At the same time, the Jedi's alliances throughout the galaxy are being tested—and the chances of victory jeopardized—by rogue factions determined to deploy the lethal weapon that will exterminate the Yuuzhan Vong . . . and perhaps countless other species. And among the Yuuzhan Vong themselves, the threat of revolt has reached a boiling point—as the oppressed underclass and powerful officials alike fear their Supreme Overlord's mad actions will provoke the wrath of the gods. Ultimately, for both the forces of invasion and resistance, too much has been sacrificed—and too much is at stake—to ever turn back. And now, nothing can stand in the way of seizing victory . . . or facing annihilation. No war can last forever. Now, in the long and punishing battle between the defiant champions of the New Jedi Order and the juggernaut that is the Galactic Alliance, the endgame is finally at hand. With so much lost—and nothing less than the course of the future still at stake—there can be no turning back. No matter the consequences. The rebel cause is losing ground under the twin blows of Admiral Gilad Pellaeon's assassination and the death of Mara Jade Skywalker. Tormented and torn between the call of duty and the thirst for vengeance, Luke has searched the Force and beheld an unspeakable vision of the galaxy enslaved under tyranny more monstrous than even Palpatine's. Now it seems that the last, best hope lies in mobilizing the scattered Jedi for one decisive search-and-destroy mission. The objective: eliminate Darth Caedus. It's a plan that will be as difficult and dangerous to execute as it is daring. For Caedus is a scion of both the Skywalker and Solo bloodlines whose command of the

Force surpasses even that of his grandfather Darth Vader. Battle Surgeons: Star Wars Legends (Medstar, Book I) The Swarm War: Star Wars Legends (Dark Nest, Book III)

In the battle for the streets of Mosul in Iraq, drones in the hands of ISIS terrorists made life hell for the Iraq army and civilians. Today, defense companies are racing to develop the lasers, microwave weapons, and technology necessary for confronting the next drone threat. Seth J. Frantzman takes the reader from the midnight exercises with Israel's elite drone warriors, to the CIA headquarters where new drone technology was once adopted in the 1990s to hunt Osama bin Laden. This rapidly expanding technology could be used to target nuclear power plants and pose a threat to civilian airports. In the Middle East, the US used a drone to kill Iranian arch-terrorist Qasem Soleimani, a key Iranian commander. Drones are transforming the battlefield from Syria to Libya and Yemen. For militaries and security agencies—the main users of expensive drones—the UAV market is expanding as well; there were more than 20,000 military drones in use by 2020. Once the province of only a few militaries, drones now being built in Turkey, China, Russia, and smaller countries like Taiwan may be joining the military drone market. It's big business, too—\$100 billion will be spent over the next decade on drones. Militaries may soon be spending more on drones than tanks, much as navies transitioned away from giant vulnerable battleships to more agile ships. The future wars will be fought with drones and won by whoever has the most sophisticated technology.
