THINK ABOUT HISTORY. NOW MAKE IT WORSE... The Domination of the Draka begins as a British possession in Africa, but soon becomes far more. Absorbing refugees after the American Revolution, and later the Civil War, the Draka become a people bred to rule with an iron fist. They permanently enslave the peoples of Africa, when they do not simply kill them. But this does not slake the Draka thirst for power. Sweeping across the world, the Draka empire engulfs nation after nation, shackling into servitude all who are

not Draka. Europe, Asia, and finally all the Earth and its colonies throughout the Solar System fall before the might of the Draka. But empires are not faceless monoliths; they are made of individuals, complex humans with their own hopes and dreams. And so one might ask: Who are the Draka? What sort of people does the Domination rule? The Draka would have many different answers... ..and this is their story.

The Exodus Towers features all the high-octane action and richly imagined characters of The Darwin

Elevator—but the stakes have never been higher. The sudden appearance of a second space elevator in Brazil only deepens the mystery about the aliens who provided it: the Builders.

Scavenger crew captain Skyler Luiken and brilliant scientist Dr. Tania Sharma have formed a colony around the new Elevator's base, utilizing mobile towers to protect humans from the Builders' plague. But they are soon under attack from a roving band of plague-immune soldiers. Cut off from the colony, Skyler must wage a one-man war

against the new threat as well as the murderous subhumans and thugs from Darwin—all while trying to solve the puzzle of the Builders' master plan . . . before it's too late for the last vestiges of humanity.

Arimnestos is a farm boy when war breaks out between the citizens of his native Plataea and their overbearing neighbours, Thebes. Standing in the battle line for the first time, alongside his father and brother, he shares in a famous and unlikely victory. But after being knocked unconscious in the melee, he awakes not a hero, but a slave. Betrayed by his jealous and

cowardly cousin, the freedom he fought for has now vanished, and he becomes the property of a rich citizen. So begins an epic journey out of slavery that takes the young Arimnestos through a world poised on the brink of an epic confrontation, as the emerging civilization of the Greeks starts to flex its muscles against the established empire of the Persians. As he tries to make his fortune and revenge himself on the man who disinherited him, Arimnestos discovers that he has a talent that pays well in this new, violent world - for like his hero, Achilles, he is 'a killer of men'. Prince of Outcasts Penguin " This new novel

of the Change is quite probably the finest by an author who has been growing in skill and imagination for more than twenty-five years. ” – Booklist (Starred Review) Rudi Mackenzie has journeyed long and far across the land that was once the United States of America, seeking the shore where the sun rises, hoping to find the source of the world-altering event that has come to be known as the Change. His quest ends in Nantucket, an island overrun

with forest, inhabited by a mere two hundred people, who claim to have been transported there from out of time. Only one odd stone house remains standing. Within it, Rudi finds a beautifully made sword seemingly waiting for him. And once he takes it up, nothing for Rudi—or for the world that he knows—will ever be the same... The Sunrise Lands Penguin Marc Vitrac was born in Louisiana in the early 1960's, about the time the first interplanetary

probes delivered the news that Mars and Venus were teeming with life—even human life. At that point, the "Space Race" became the central preoccupation of the great powers of the world. Now, in 1988, Marc has been assigned to Jamestown, the US-Commonwealth base on Venus, near the great Venusian city of Kartahown. Set in a countryside swarming with sabertooths and dinosaurs, Jamestown is home to a small band of American and allied scientist-adventurers. But there are flies in this ointment – and not only the Venusian

dragonflies, with their yard-wide wings. The biologists studying Venus's life are puzzled by the way it not only resembles that on Earth, but is virtually identical to it. The EastBloc has its own base at Cosmograd, in the highlands to the south, and relations are frosty. And attractive young geologist Cynthia Whitlock seems impervious to Marc's Cajun charm. Meanwhile, at the western end of the continent, Teesa of the Cloud Mountain People leads her tribe in a conflict with the Neanderthal-like beastmen who have seized her folk's

sacred caves. Then an EastBloc shuttle crashes nearby, and the beastmen acquire new knowledge... and AK47's. Jamestown sends its long-range blimp to rescue the downed EastBloc cosmonauts, little suspecting that the answer to the jungle planet's mysteries may lie there, among tribal conflicts and traces of a power that made Earth's vaunted science seem as primitive as the tribesfolk's blowguns. As if that weren't enough, there's an enemy agent on board the airship... Extravagant and effervescent, The Sky People is

alternate-history SF adventure at its best. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. The Given Sacrifice ROC Hardcover Fans of The Martian will enjoy this extraordinary new thriller of the future from #1 New York Times bestselling and Pulitzer Prize – winning author John Sandford and internationally known photo-artist and science fiction aficionado Ctein. In 2066, a Caltech intern notices an anomaly from a space telescope—so

nothing is approaching Saturn, and decelerating. Space objects don't decelerate. Spaceships do... A flurry of top-level government meetings produce the inescapable conclusion: Whatever built the ship is at least one hundred years ahead of our technology, and whoever can get their hands on it will have an advantage so large, no other nation can compete. The race is on, and a remarkable adventure begins. Soon a hastily thrown-together crew finds its strength and wits tested against adversaries of this

earth and beyond. So buckle up, because two perfectly matched storytellers are about to take you for a ride... Dies the Fire Penguin First in a new trilogy, this book continues the successful alternate history saga of "A Meeting at Corvallis, The Protectors War," and "Dies the Fire," all of which have been selections of the Science Fiction Book Club. Theater of Spies Penguin Rudi Mackenize, now Artos the First, High King of Montival, and his allies have won several key battles against the Church Universal and Triumphant. But

still the war rages on, taking countless lives, ravaging the land once known as the United States of America. Artos and his Queen, Mathilda, must unite the realms into a single kingdom to ensure a lasting peace. If the leaders of the Changed world are to accept Artos as their ruler, he will need to undertake a quest to the Lake at the Heart of the Mountains, and take part in a crowning ceremony—a ceremony binding him to his people, his ancestors, and his land. Then, once he has secured his place and allegiances, Artos can go forward, and

lead his forces to the heart of the enemy ' s territory....
