conscious energy exchange, intimacy building, unconditional love, and activating your multi-orgasmic potential Through the Taoist tantric arts, women can experience the full flowering of their sexual energy. Rooted in Chinese energy medicine, Universal Healing Tao practices, and ancient Taoist traditions from the Yellow Emperor and his three female advisors, these practices honor and celebrate each stage of a woman's life and allow women to awaken their genuine feminine sexuality--receptive, soft, sensitive, intuitive, and creative--rather than the masculine approach that focuses on strength, endurance, and control. In this comprehensive guide to Taoist tantric arts for women, author Minke de Vos reveals how to channel natural sexual energy to evolve the Divine within and heal deep-rooted negative emotions and traumas related to sexuality. She explores techniques from the Universal Healing Tao system, such as the Inner Smile and Ovarian Breathing, to cleanse the uterus of negative emotions and fill your creative center

- Reveals how the sexual practices of the White Tigress can preserve and restore a woman's physical youthfulness and mental energy.
- The first modern guide to White Tigress techniques, the only sexual teachings exclusively for women.
- Reveals for the first time in English the hidden teachings of immortal Hsi Wang Mu, a White Tigress from 3,000 years ago.
- Provides Western medical correlations to substantiate White Tigress practices. White Tigress women undertake disciplined sexual and

spiritual practices to maintain their beauty and youthfulness, realize their full feminine potential, and achieve immortality. Revealed here for the first time in English are the secrets of the White Tigress that have all but disappeared from the world. Under the guidance of Madame Lin, the matriarch of a distinguished White Tigress lineage still in existence in Taiwan, Hsi Lai was given the privilege to study these practices and record them from a modern perspective so they will be forever preserved. The vast majority of Taoist texts on alchemy, meditation, and sexuality are directed at male practitioners. The Sexual Teachings of the White Tigress presents traditions that focus on women, traditions that stem from a long line of courtesans and female Taoists. Translations of the ancient teachings from a rare White Tigress manual dating back 3,000 years explain the sexual and spiritual refinement of ching (sexual energy), chi (vital energy), and shen (consciousness)--the Three Treasures of Taoism--the secret to unlocking eternal youthfulness and immortality.

- The first book to reveal in the West the Taoist techniques that enable women to cultivate and enhance their sexual energy

greater sexual power • Teaches the practice of total body orgasm For thousands of years the sexual principles and techniques presented here were taught by Taoist masters in secret only to a small number of people (sworn to silence), in the royal courts and esoteric circles of China. This is the first book to make this ancient knowledge available to the West. The foundation of healing love is the cultivation, transformation, and circulation of sexual energy, known as jing. Jing energy is creative, generative energy that is vital for the development of chi (vital life-force energy) and shen (spiritual energy), which enables higher practices of spiritual development. Jing is produced in the sexual organs, and it is energy women lose continually through menstruation and child bearing. Mantak Chia teaches powerful techniques developed by Taoist masters for the conservation of jing and how it is used to revitalize women's physical, mental, and spiritual well-being. Among the many benefits conferred by these practices are a reduction in the discomfort caused by menstruation and the ability to attain full-body orgasm.

Moves reflexology beyond the realm of foot massage and into the realm of sexuality. • Offers acupressure methods to build intimacy and heighten sexual pleasure. • Helps couples find their sexual energy potential and physical compatibility. • Provides techniques to perform time-tested Taoist sexual-spiritual exercises. • By Mantak Chia, coauthor of *The Multi-Orgasmic Man*. The most powerful reflex points on the body are on the sexual organs. While the practice of reflexology is normally associated with

massage of the feet, in *Sexual Reflexology* Mantak Chia gives applications for using the sexual reflex points in lovemaking, transforming sexual intercourse into a form of ecstatic acupressure. By combining the classic Taoist sexual texts with modern reflexology theory, the author provides a unique opportunity for couples to practice sexual intimacy as an act of healing. Mantak Chia shows how to evaluate a person's sexual energy potential as well as how the size and shape of the sexual organs determine a couple's compatibility. In addition to the specific ecstatic acupressure exercise instructions, he provides thoughtful commentary on ancient Taoist practices that reveal how we can all use our sexual essence to create healthy and loving relationships.

Taoist techniques for replenishing our internal energy with universal cosmic energy • Shows how to transform excess sexual energy (Ching Chi) into self-healing energy • Presents advanced Cosmic Healing Chi Kung practices, which gather the limitless resources of Cosmic Chi for healing • Explains how opening of the three tan tiens to the six directions allows personal consciousness to connect directly to higher sources of energy Taoists consider our sexual energy to be the creative force that we can use to regenerate the body's internal energy, but we must learn how to harness excess sexual energy and transform it into chi, or life-force energy. When we circulate the sexual energy in the Microcosmic Orbit--a continuous energy loop that runs up the spine and down the front of the body--we transform it into self-healing energy that can be stored in the organs and the three tan tiens: energy centers in the brain, the heart center, and the lower

---

abdomen. The Alchemy of Sexual Energy builds upon Microcosmic Orbit practices discussed in Healing Light of the Tao. The more we open the flow of our internal energy the more capable we are of connecting to the cosmic energy that exists outside ourselves in the universe. By learning to open the three tan tiens to the six directions, the Taoist practitioner combines mind power with extension of chi to draw cosmic energy into the body. This energy, too, can be stored in the three tan tiens and used as needed for healing. When we learn to flow in this way with the energy of the Tao, life ceases to be a struggle.

A Buddhist manual for replacing an anxious, narrow, uncomfortable identity with one that is expansive, peaceful, and capable. In the shamanic worldview of Tibet, the five elements of earth, water, fire, air, and space are accessed through the raw powers of nature and through non-physical beings associated with the natural world. The Tibetan tantric view recognizes the elements as five kinds of energy in the body and balances them with a program of yogic movements, breathing exercises, and visualizations. In Dzogchen teachings, the elements are understood to be the radiance of being, and are accessed through pure awareness. Healing with Form, Energy, and Light offers the reader healing meditations and yogic practices on each of these levels. Tenzin Rinpoche's purpose is to strengthen our connection to the sacred aspect of the natural world and to present a guide that explains why certain practices are necessary and in what situations practices are effective or a hindrance. And the world too is transformed from dead matter and blind processes into a sacred landscape filled with an infinite variety of living forces and beings. "The secrets freely given in this volume can help us lay sound foundations for whatever yogic practice we may adopt. Tenzin Rinpoche has rendered all a great service." —Yoga Studies

In this book, J.J. Clarke shows us how Taoist texts, ideas, and

practices have been assimilated within a whole range of Western ideas and agendas. We see how Chinese thinkers such as Lao-tzu and Chuang tzu, along with practices such as Feng Shui and Tai Chi, have been used as a key Western inspiration in religion, philosophy, ethics, politics, ecology and health. The Tao of the West not only provides a fascinating introduction to Taoism, it also offers a timely insight into the history of the West's encounter with this ancient tradition, and into the issues arising from inter-cultural dialogue. Anyone interested in understanding the key influence Taoism has had on the West will welcome and embrace this book.

A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR "A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we've all been doing it wrong for a long, long time." —Elizabeth Gilbert, author of Big Magic and Eat Pray Love No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you're not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren't found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate

---

internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.

An ancient Taoist system for detoxifying and rejuvenating the internal organs • Presents techniques to clear blockages in the body's energy flow • Includes illustrated exercises to relieve common ailments, revitalize the organs, and enable readers to take charge of their own health and well-being • Focuses on the navel center, where negative emotions, stress, and illness accumulate The techniques of Chi Nei Tsang evolved in Asia during an era when few physicians were available and people had to know how to heal themselves. Many people today have symptoms that modern medicine is not able to cure because a

physical source for the problem is not easily found. The energies of negative emotions, stress, and tension--all common in modern life--and the weight of past illness accumulate in the abdominal center, causing energy blockages and congestion. When this occurs, all vital functions stagnate and myriad problems arise. By practicing the techniques of Chi Nei Tsang, this stagnation is removed and the vital organs surrounding the navel center are detoxified and rejuvenated. Master Chia teaches readers how to avoid absorbing negative energies from others and take full charge of their health through the self-healing techniques of Chi Nei Tsang. He offers fully illustrated exercises that show how to detoxify the internal organs and clear the energy (chi) channels throughout the body. He also presents methods for balancing emotions, managing stress, and observing the body in order to recognize, ameliorate, and prevent maladies before they become a problem.
