What has been called the " Gap Theory " was a popular and consistent explanation of the first chapter of Genesis among fundamental, evangelical Christians up through the mid 1900s. With the rise of Young Earth Creationism, the gap theory was simply pushed to the background and ridiculed as a past effort to satisfy the claims of modern evolutionary science. In effect, the new teachers buried this doctrine with the debris of Noah ' s flood deposits. However, we shall see in this study that the YEC effectively left the literal Biblical record of Genesis 1 and leaped into the realm of pseudo-science to claim that Noah ' s flood deposited all the various sedimentary strata of the whole earth. In addition, they pontifically assert that the whole heavens and earth are only about 6000 years old. This study is going to prove that the YEC are the very ones who do not take the Scriptures literally. This study will prove conclusively that Moses did not make the blunder of either stating or inferring the earth is only 6000 years old. There is an abundance of biblical evidences that the Gap is not a theory, but a fact! In this study you will find that certain of the prophets and an apostle were inspired of God to look back in time, even to the " backside of earth ' s history, " We shall be surprised to find that the past is as captivating as the future. In fact, as we better understand the past, we shall better comprehend the future. The cover picture is from two pages of the Jewish Sarajevo Haggadah, as seen in the Saravejou museum in Spain. This work was done in 1400 CE. The pictures on each page are to be read in the Hebrew manner from right to left. The pictures graphically depict the six-day activity of God in preparing the earth of man ' s habitation. Two things are to be noted: first, these six days are preceded by a scene of the earth in a chaotic condition as described in the second verse of Genesis 1 (first fame, upper right hand corner); second, on the first day light was made and nothing else (third verse of Genesis 1, second frame). Obviously, this six hundred year old work was not influenced by modern scientific theories, rather it represents a long standing interpretation in Judaism.

This is an anthology of the most significant writing on the doctrinal, intellectual, and spiritual dimensions of Shicim. The works included here foster an interpretive understanding of Shicim in its dogmatic and cognitive aspects. The intent of this book is to balance the attention that has been focused on the political aspect of Shicim. Shicim is often seen, not only as an essentially political phenomenon, but as a creed of violence. Understanding Shicim in its total reality will encourage a more balanced approach to issues which are viewed mostly politically. While not denying the importance of political manifestations, this book offers an understanding of the often neglected religious beliefs and spiritual practices of this world community.

Dead Heat New York : Norton

The Last Days is a stunning political thriller from New York Times bestselling author, Joel C. Rosenberg. Osama bin Laden is dead. Saddam Hussein is buried. Baghdad lies in ruins. Now the eyes of the world are on Jerusalem as Jon Bennett—a Wall Street strategist turned senior White House advisor--his beautiful CIA partner Erin McCoy and the U.S. Secretary of State arrive in the Middle East to meet with Palestinian leader Yasser Arafat. On the table: a dramatic and potentially historic Arab-Israeli peace plan, of which Bennett is the chief architect. At the heart of the proposed treaty is the discovery of black gold deep underneath the Mediterranean—a vast and spectacular tract of oil and natural gas that could offer unprecedented riches for every Muslim, Christian, and Jew in Israel and Palestine. With the international media closely tracking the story, the American message is as daring as it is direct: Both sides must put behind them centuries of bitter, violent hostilities to sign a peace treaty. Both sides must truly cooperate on drilling, pumping, refining, and shipping the newly found petroleum. Both sides must work together to develop a dynamic, new, integrated economy to take advantage of the stunning opportunity. Then--and only then--the United States will help underwrite the billions of dollars of venture capital needed to turn the dream into reality.
