From New York Times, USA Today, and Publishers Weekly bestselling author Joel C. Rosenberg! A game-changing peace treaty between Israel and the Saudis is nearly done. The secretary of state is headed to the region to seal the deal. And Special Agent Marcus Ryker is leading an advance trip along the Israel-Lebanon border, ahead of the secretary's arrival. But when Ryker and his team are ambushed by Hezbollah forces, a nightmare scenario begins to unfold. The last thing the White House can afford is a new war in the Mideast that could derail the treaty and set the region ablaze. U.S. and Israeli forces are mobilizing to find the hostages and get them home, but Ryker knows the clock is ticking. When Hezbollah realizes who they've captured, no amount of ransom will save them—they'll be transferred to Beirut and then to Tehran to be executed on live television. In the fourth installment of Rosenberg's gripping new series, Marcus Ryker finds himself in the most dangerous situation he has ever faced—captured, brutalized, and dragged deep behind enemy lines. Should he wait to be rescued? Or try to escape? How? And what if his colleagues are too wounded to run? This is the CIA's most valuable operative as you have never seen him before.

What has been called the "Gap Theory" was a popular and consistent explanation of the first chapter of Genesis among fundamental, evangelical Christians up through the mid 1900s. With the rise of Young Earth Creationism, the gap theory was simply pushed to the background and ridiculed as a past effort to satisfy the claims of modern evolutionary science. In effect, the new teachers buried this doctrine with the debris of Noah's flood deposits. However, we shall see in this study that the YEC effectively left the literal Biblical record of Genesis 1 and leaped into the realm of pseudo-science to claim that Noah's flood deposited all the various sedimentary strata of the whole earth. In addition, they pontifically assert that the whole heavens and earth are only about 6000 years old. This study is going to prove that the YEC are the very ones who do not take the Scriptures literally. This study will prove conclusively that Moses did not make the blunder of either stating or inferring the earth is only 6000 years old. There is an abundance of biblical evidences that the Gap is not a theory, but a fact! In this study you will find that certain of the prophets and an apostle were inspired of God to look back in time, even to the "backside of earth's history." We shall be surprised to find that the past is as captivating as the future. In fact, as we better understand the past, we shall better comprehend the future. The cover picture is from two pages of the Jewish Sarajevo Haggadah, as seen in the Saravejou museum in Spain. This work was done in 1400 CE. The pictures on each page are to be read in the Hebrew manner from right to left. The pictures graphically depict the six-day activity of God in preparing the earth of man's habitation. Two things are to be noted: first, these six days are preceded by a scene of the earth in a chaotic condition as described in the second verse of Genesis 1 (first frame, upper right hand corner); second, on the first day light was made and nothing else (third verse of Genesis 1, second frame). Obviously, this six hundred year old work was not influenced by modern scientific theories, rather it represents a long standing interpretation in Judaism.

A man with many names moves through the shadows of war-torn Europe. Known to most as "the Shadowboxer," he is a spy and an assassin, the scourge of the Nazi high command. Courageous and highly skilled, he sneaks in and out of the most heavily guarded concentration camps, liberating select prisoners. To those he sets free, the motives behind the Shadowboxer's actions hardly matter. But leaders of the Third Reich and Soviet Intelligence officials are desperate to determine what game the lone wolf agent is playing, and what his missions mean for the fate of postwar Germany. In the high-stakes realm of international espionage, information is the most valuable prize of all, and no secrets are bigger than those kept by this mysterious operative. But when he discovers his role in a massive conspiracy that could cost the lives of thousands of Allied soldiers, the Shadowboxer has no choice but to step into the light. A powerful tale based in the

grim realities of covert operations, The Shadowboxer brims with suspense and nonstop action. Intricately plotted and disturbingly authentic, it cements Noel Behn's reputation as one of the twentieth century's most original and convincing spy novelists.

Over the past three decades, scholars, government analysts and terrorism experts have examined the relationship between Islam and politics. But specialists have tended to limit their analysis to a specific country or focus. Few works have provided a geographically comprehensive, in-depth analysis. Since 9/11, another wave of literature on political Islam and global terrorism has appeared, much of it superficial and sensationalist. This situation underscores the need for a comprehensive, analytical, and in-depth examination of Islam and politics in the post-9/11 era and in an increasingly globalizing world. The Oxford Handbook of Islam and Politics, with contributions from prominent scholars and specialists, provides a comprehensive analysis of what we know and where we are in the study of political Islam. It enables scholars, students, and policymakers to understand the interaction of Islam and politics and the multiple and diverse roles of Islamic movements, as well as issues of authoritarianism and democratization, religious extremism and terrorism regionally and globally.

An inside look at what it means to be pro-regime in Iran, and the debates around the future of the Islamic Republic. More than half of Iran's citizens were not alive at the time of the 1979 Revolution. Now entering its fifth decade in power, the Iranian regime faces the paradox of any successful revolution: how to transmit the commitments of its political project to the next generation. New media ventures supported by the Islamic Republic attempt to win the hearts and minds of younger Iranians. Yet members of this new generation--whether dissidents or fundamentalists--are increasingly skeptical of these efforts. Iran Reframed offers unprecedented access to those who wield power in Iran as they debate and define the future of the Republic. Over ten years, Narges Bajoghli met with men in Iran's Revolutionary Guard, Ansar Hezbollah, and Basij paramilitary organizations to investigate how their media producers developed strategies to court Iranian youth. Readers come to know these men--what the regime means to them and their anxieties about the future of their revolutionary project. Contestation over how to define the regime underlies all their efforts to communicate with the public. This book offers a multilayered story about what it means to be pro-regime in the Islamic Republic, challenging everything we think we know about Iran and revolution.

This is an anthology of the most significant writing on the doctrinal, intellectual, and spiritual dimensions of Shicim. The works included here foster an interpretive understanding of Shicim in its dogmatic and cognitive aspects. The intent of this book is to balance the attention that has been focused on the political aspect of Shicim. Shicim is often seen, not only as an essentially political phenomenon, but as a creed of violence. Understanding Shicim in its total reality will encourage a more balanced approach to issues which are viewed mostly politically. While not denying the importance of political manifestations, this book offers an understanding of the often neglected religious beliefs and spiritual practices of this world community.

Maryam Rostampour and Marziyeh Amirizadeh knew they were putting their lives on the line. Islamic laws in Iran forbade them from sharing their Christian beliefs, but in three years, they'd covertly put New Testaments into the hands of twenty thousand of their countrymen and started two secret house churches. In 2009, they were finally arrested and held in the notorious Evin Prison in Tehran, a place where inmates are routinely tortured and executions are commonplace. In the face of ruthless interrogations, persecution, and a death sentence, Maryam and Marziyeh chose to take the radical—and dangerous—step of sharing their faith inside the very walls of the government stronghold that was meant to silence them. In *Captive in Iran*, two courageous Iranian women recount how God used their 259 days in Evin Prison to shine His light into one of the world's darkest places, giving hope to those who had lost everything and showing love to those in despair.
