Focusing on portrayals of California in popular culture, this collection of new essays traces a central theme of darkness through literature (Toby Barlow, Angela Carter, Joan Didion, Thomas Pynchon, and Claire Vaye Watkins), video games (L.A. Noire), music (Death Grips, Lana Del Rey, and the Red Hot Chili Peppers), TV (True Detective and American Horror Story), and film (Starry Eyes, Southland Tales and A Girl Walks Home Alone at Night). Providing insight into the significance of Californian icons, the contributors explore the interplay between positive stereotypes connected to the myth of the Golden State and ambivalent responses to the myth based on social and political power, the consequences of consumerism, transformations of the landscape and the dominance of hyperreality.

Through South America's Southland T/James Reagan

T/James Reagan has novelized Richard Kelly's 2006 cult film "Southland Tales" into a complete vision of a complex story of power, politics, and porno. The title refers to the Southland, a name used by locals to refer to Southern California and Greater Los Angeles. Set in the then-near future of 2008, as part of an alternate history, the novel is an expanded portrait of Los Angeles, and a satiric commentary on the military-industrial complex and the infotainment industry. Combining the theatrical cut, the Cannes cut, and the graphic prequel novels, T/James Reagan offers his trademark unflinching post-Empire vision on Kelly's ambitious, sprawling narrative. Gonzo journalist and literary roustabout Hunter S. Thompson flies with the angels—Hell ' s Angels, that is—in this short work of nonfiction. " California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . The Menace is loose again. " Thus begins Hunter S. Thompson ' s vivid account of his experiences with California ' s most notorious motorcycle gang, the Hell ' s Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as The New Yorker pointed out, " For all its uninhibited and sardonic humor, Thompson ' s book is a thoughtful piece of work. " As illuminating now as when originally published in 1967, Hell ' s Angels is a gripping portrait, and the best account we have of the truth behind an American legend.

In 'The Amateur Poacher,' Richard Jefferies crafts a vivid foray into rural life and poaching lore that combines the reflective insight of a naturalist with the narrative flair of a seasoned storyteller. Set against the backdrop of the English countryside, Jefferies' prose transports the reader to a realm where the pursuit of game is a clandestine art, imbued with its own rituals and risks. As an exemplar of nature writing, the book's style is intimately descriptive, rich in pastoral imagery and deeply attuned to the rhythms of the natural world. The work, first published in 1879, resonates within the literary context of late 19th-century England, a period that intertwined romantic views of nature with the stark realities of rural existence. Jefferies' portrayal of poaching as both a subsistence strategy and a pastoral tradition positions the narrative in fascinating contrast to the era's evolving land rights and game laws. Richard Jefferies, born in 1848, was a prolific writer whose love for the English countryside is evident throughout his extensive body of work. Drawing inspiration from his life spent in agricultural Wiltshire, Jefferies' writings often reflect themes of nature, rural life, and humanity's connection to the land. 'The Amateur Poacher' is no exception; it encapsulates Jefferies' firsthand experiences and observations, and reveals his deep appreciation for both the beauty and brutality inherent in the rural existence of his time. His nuanced perspective offers an insightful commentary on the socio-economic pressures of rural populations, providing a window into the life and times that shaped his literary voice. Readers wishing to immerse themselves in a classic account of English rural life and tradition will find 'The Amateur Poacher' an invaluable addition to their collection. Jefferies' meticulous eye for detail and eloquent, evocative language make for an enriching literary experience that transcends its historical milieu. Whether approached as an artifact of social history, an exploration of human engagement with the natural world, or simply as a deeply engaging narrative, Richard Jefferies' work remains a cornerstone for enthusiasts of naturalist literature and those fascinated by the intersection of law, tradition, and the human spirit.

"A must-read for anyone interested in the history of civil rights, the roles and varied motivations of southern Jews in the movement, the interaction of blacks and Jews, the role of hate-groups and the anti-communist hysteria in silencing or harassing the forces of positive change, and the specific place of Miami, Miami Beach, and Florida in the struggle. Raymond Mohl's writing style is dynamic and fully accessible for the lay as well as scholarly audience that I expect this work will attract." --Mark K. Bauman, Atlanta Metropolitan College Using unusual and revealing primary materials from the careers of two remarkable Jewish women, Raymond Mohl offers an original interpretation of the role of Jewish civil rights activists in promoting racial change in post-World War II Miami. He describes the city's political climate after the war as characterized by segregation, aggressive anti-Semitism, and a powerful strain of cold war McCarthyism. In this hostile environment the dynamic leadership of two northern newcomers, Matilda "Bobbi" Graff and Shirley M. Zoloth, played a critical role in the city's campaign for racial reform. Working with the Miami chapter of the Civil Rights Congress, established in 1948, Graff was instrumental in the organization's stand against the Ku Klux Klan, its protests against lynchings and police brutality, and its work with Florida's black civil rights leaders such as Harry T. Moore. With the Miami Congress of Racial Equality, Zoloth helped to launch a lunch counter sit-in campaign (a year before the more famous student sit-ins of 1960) that ultimately resulted in the desegregation of

downtown public accommodations. This analysis of the movement between 1945 and 1960 substantiates a new but now dominant interpretation of civil rights history that sees grassroots action as the powerful engine that drove racial change. It emphasizes the major role played by women in the cause and documents the variety of civil rights experiences of Jews who migrated to Miami in large numbers during the mid-century decades. Committed to social justice, they built activist organizations, challenged segregationists and anti-Semites, and worked with black activists to break down Jim Crow barriers. Original documents written by both women, including Graff's autobiographical memoir, demonstrate a level of Jewish activism, especially by women, that was unique for the time and place--the postwar American South. Their own words vividly describe fear, harassment, family and community pressures, government intrigue, and individual betrayal. As Mohl's groundbreaking history illustrates, the perseverance of these women and their small band of supporters is a testament to their strength and an inspiration for continued reform in America. Raymond A. Mohl, professor of history at the University of Alabama, Birmingham, is the editor of *Searching for the Sunbelt: Historical Perspectives on a Region* and the coeditor of *The New African-American Urban History and Urban Policy in Twentieth-Century America*
