searching soul or addressing a packed house in Madison Square Garden, her message is elegantly universal. In *Life Is A Test*, the Rebbitzen's insights on faith, her soul-stirring wisdom, and her palpable love of all people saturate every page. *Life Is A Test* is really three books in one, each bearing a particular focus to help readers look for the message embedded in any difficulty. The book begins with tests of self-discovery and then examines the challenging realm of interpersonal relationships, concluding with a section on perceiving the Divine Design in the big picture of global events, as well as in one's own world. Regardless of age or experience, people of all persuasions will find meaningful

substance in *Life Is A Test*. Rebbitzen Jungreis has captured so many of our deep-seated questions, and has graciously provided us with a decipherable answer key. *My Life* HarperCollins Australia

BESTSELLER! "I had the  
choice to come back ... or  
not. I chose to return  
when I realized that  
'heaven' is a state, not a  
place" In this truly  
inspirational memoir,  
Anita Moorjani relates  
how, after fighting cancer  
for almost four years, her  
body began shutting  
down—overwhelmed by

the malignant cells  
spreading throughout her  
system. As her organs  
failed, she entered into an  
extraordinary near-death  
experience where she  
realized her inherent  
worth . . . and the actual  
cause of her disease.  
Upon regaining  
consciousness, Anita  
found that her condition  
had improved so rapidly  
that she was released  
from the hospital within  
weeks—without a trace of  
cancer in her body!  
Within this enhanced e-  
book, Anita recounts—in

words and on  
video—stories of her  
childhood in Hong Kong,  
her challenge to establish  
her career and find true  
love, as well as how she  
eventually ended up in  
that hospital bed where  
she defied all medical  
knowledge. In "Dying to  
Be Me," Anita Freely  
shares all she has learned  
about illness, healing,  
fear, "being love," and the  
true magnificence of each  
and every human being!

baby not because I feared what cancer would do but because I didn't want the disease. I wanted my life to be normal, which it could not be. For the first time Yuvraj Singh tells the real story behind the 2011 World Cup when on-the-field triumph hid his increasingly puzzling health problems and worrying illnesses. In his debut book *The test of my life*, he reveals how—plagued with insomnia, coughing fits that left him vomiting blood, and an inability to eat—he made a deal with God. On

the night before the 2011 ICC Cricket World Cup final, Yuvraj prayed for the World Cup in return for anything God wanted. In this book, he lays bare his fears, doubts, and the lows he experienced during chemotherapy—when he lost his energy, his appetite, and his hair—and his battle to find the will to survive. Poignant, personal, and moving—*The test of my life*—is about cancer and cricket; but more importantly, it is about the human will to fight adversity

and triumph despite all odds.

BEST SELLER • At last, a book that shows you how to build—design—a life you can thrive in, at any age

or stage • “Life has questions. They have answers.” —The New York Times Designers create worlds and solve problems using design thinking.

Look around your office or home—at the tablet or smartphone you may be holding or the chair you are sitting in. Everything in our lives was designed by someone. And every design starts with a problem that a designer or team of designers seeks to solve. In this book, Bill Burnett and Dave Evans

show us how design thinking can help us create a life that is both meaningful and fulfilling, regardless of who or where we are, what we do or have done for a living, or how young or old we are. The same design thinking responsible for amazing technology, products, and spaces can be used to design and build your career and your life, a life of fulfillment and joy, constantly creative and productive, one that always holds the

"The hottest, sexiest, most hilariously fun opposites attract story I've ever read!" - USA Today bestselling author Samanthe Beck This is a test. A test of every life decision Lisa Michaels has ever made. Lisa thought she'd gotten everything right: The nicest condo, the right career, the best hair, and a perfectly adequate sex life with her stockbroker fiancé. But when the fiancé ditches her at the altar, Lisa's left questioning every decision she's ever made. What if her instincts have been steering her wrong

all along? And what if she tested that theory by spending one month doing the exact opposite of what she'd normally do? A crazy-hot fling with a tattooed steelworker from the wrong side of the tracks seems like a good starting point... Anarchist, journalist, drama critic, advocate of birth control and free love, Emma Goldman was the most famous—and notorious—woman in the early twentieth century. This abridged version of her two-volume autobiography takes her from her birthplace in czarist Russia to the socialist enclaves of Manhattan's Lower East Side. Against a dramatic backdrop of political argument, show trials, imprisonment, and tempestuous romances, Goldman chronicles the epoch that she helped shape: the reform movements of the

Progressive Era, the early years of and later disillusionment with Lenin's Bolshevik experiment, and more. Sounding a call still heard today, *Living My Life* is a riveting account of political ferment and ideological turbulence. First time in Penguin Classics Condensed to half the length of Goldman's original work, this edition is accessible to those interested in the activist and her extraordinary era

### **The Time of My Life** Harper Collins

The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you

shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little . As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right . Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and

---

hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

*My Life with Bob* Henry Holt  
Since *My Life* was first published it has been regarded as a unique political, literary and human document. Written in the first year of Trotsky's exile in Turkey, it contains the earliest authoritative account of the rise of Stalinism and the expulsion of the Left Opposition, who heroically fought for the ideas and traditions of Lenin. Trotsky's exile is the

culmination of a narrative which moves from his childhood, his education in the "universities" of Tsarist prisons, Siberia and then foreign exile - to his involvement in the European revolutionary movement and his central role in the tempestuous 1905 revolution and the Bolshevik victory in October 1917 and the civil war which followed. The work concludes with his deportation and exile. With an introduction by Alan Woods and a preface by Trotsky's grandson, Vsievolod Volkov.

**Target** Robfitz Ltd

The much anticipated autobiography of one of cricket's greatest fast bowlers. Brett Lee is known throughout the cricketing world as one of the fastest and most exciting pace bowlers to play the game. Intimidating while charming, decent yet ferocious, he is known for his quick-one liners as much as his gutsy bottom-order batting. He has been recorded bowling at speeds of over 160km/h leaving batsmen with only a fraction of a second to react once the ball leaves his hand.

"At 11.47 on July 25, 1978, Louise Brown was the first person ever to be born through science rather than as the result of two people having sex. The birth was hailed as a "miracle" by the world's media, making her instantly famous. Her birth created shockwaves for the church, politicians and the medical profession. Louise grew up at the centre of the debate about the morality of In Vitro Fertilisation (IVF) while also being a beacon of hope to millions of childless couples throughout the world. **Louise Brown** Random House Australia  
A stylish batsman who could score against any kind of bowling, VVS Laxman played over a hundred Tests to aggregate more than 8,000 runs. Cricket fans still remember with awe his game-changing knock of 281 against Australia in 2001 at Eden Gardens. But playing for India was never easy. He was dropped as often as he was picked, and despite his vast experience and unimpeachable skill, he never made it to a World Cup team.

All through his playing years, Laxman was known to be a soft-spoken man who kept his distance from controversy. Which is what makes this autobiography truly special. It's candid and reflective, happy and sad by turns, and deeply insightful. He writes of dressing-room meltdowns and champagne evenings, the exhilaration of playing with and against the best in the world, the nuances of batting in different formats and on various pitches, the learnings with John Wright and the rocky times under Greg Chappell. In 281 and Beyond, Laxman lays bare the ecstasy and the trauma of being one of the

A standard blood test indicates how well the kidneys and liver are functioning, the potential for heart disease, and a host of other vital health markers. Unfortunately, most of us cannot decipher these results ourselves, nor can we even formulate the right questions to ask about them—or we couldn't until now. In *Your Blood Never Lies*, best-selling author James LaValle clears up the mystery surrounding blood test results. In simple language, he explains all of the information found on these forms, making it

understandable and accessible. This means that you can look at the results yourself and know the significance of each marker. Dr. LaValle even recommends the most effective conventional and complementary treatments for dealing with any problematic findings. Rounding out the book are the names of test markers that should be requested for a more complete physical picture. A blood test can reveal so much about your body, but only if you can interpret the results. *Your Blood Never Lies* provides the up-to-date information you need to take control of your health.

"For twenty-eight years, Pamela Paul has been keeping a diary that records the books she reads, rather than the life she leads. Or does it? Over time, it's become clear that this Book of Books, or Bob, as she calls him, tells a much bigger story. For Paul, as for many readers, books reflect her inner life--her fantasies and hopes, her dreams and ideas. And her life, in turn, influences which books she chooses,

An essential companion to the inspirational classic *The Alchemist*, filled with timeless stories of reflection and rediscovery. From one of the greatest writers of our age comes a collection of stories and parables unlocking the mysteries of the human condition.

Gathered from Paulo Coelho's daily column of the same name, *Maktub*, meaning "it is written," invites seekers on a journey of faith, self-reflection, and transformation. As Paulo Coelho explains, "*Maktub* is not a book of advice—but an exchange of experiences." Each story offers an illuminated path to see life and the lives of our fellow people around the world in new ways, allowing us to tap into universal truths about our collective and individual humanity. As Coelho writes, "a man who seeks only the

light, while shirking his responsibilities, will never find illumination. And one who keeps his eyes fixed upon the sun . . . ends up blind." These wise tales offer the perspective of talking snakes, old women climbing mountains, disciples querying their masters, Buddha in dialogue, mysterious hermits, and many saints addressing the mysteries of the universe. Following the path of his previous internationally bestselling works, this thoughtful collection of short,

---

inspirational pieces, introduced in a foreword by the author and illustrated with black-and-white line art throughout, will engage seekers of all ages and backgrounds.

Entangled: Scorched

When Yuvraj along with his family moved from Kathmandu to Kolkata, he came across a life that was different. Instead of going to school, he was told to work and support his family economically. Moreover, his feet started rotting and with slippers in his hands, he started walking barefoot. One

day, when he was determined to quit and give up, his feet beseeched him and with a teary face agonized, "I know that right now everything around you is dark and you see no ray of hope. However, I don't want to give up, for I want to do what I was meant to. I want to walk." Yuvraj never knew that this episode would make him a stronger individual than he ever was.
