The Arden Research*

Handbook of Shakespeare and Social Justice is a wide-ranging, authoritative guide to research on Shakespeare and issues of social justice and arts activism by an international team of leading scholars, directors, arts activists, and educators. Across four sections it explores the relevance and

---

responsibility of art to the real world ? to the significant teaching and learning, performance and practice, theory and economies that not only expand the discussion of literature and theatre, but also open the gates of engagement between the life of the mind and lived experience. The collection draws from noted scholars, writers and practitioners from around the globe to assert the power of art to question, disrupt and re-invigorate both the ties that bind and the barriers that divide us. A series of interviews with theatre practitioners and scholars opens the volume, establishing an initial portfolio of areas for research, exploration, and change. In Section 2 'The Practice of Shakespeare and Social Justice' contributors examine Shakespeare's place and possibilities in intervening on issues of race, class, gender and sexuality. Section 3 'The Performance of Shakespeare and Social Justice' traces Shakespeare and social justice in multiple global contexts; engaging productions grounded in the politics of Mexico, India, South Africa, China and aspects of Asian politics broadly, this section illuminates the burgeoning field of global production while keeping as a priority the political structures that make advocacy and resistance possible. The last section on 'Economies of Shakespeare' describes socio-economic and

---

community issues that come to light in Shakespeare, and their potential to catalyze ongoing discussion and change in respect to wealth, distribution, equity, and humanity. An annotated bibliography provides further guidance to those researching the subject.

*Mathematics for Social Justice* offers a collection of resources for mathematics faculty interested in incorporating questions of social justice into their classrooms. The book begins with a series of essays from instructors experienced in integrating social justice themes into their pedagogy; these essays contain political and

pedagogical motivations as well as nuts-and-bolts teaching advice. The heart of the book is a collection of fourteen classroom-tested modules featuring ready-to-use activities and investigations for the college mathematics classroom. The mathematical tools and techniques used are relevant to a wide variety of courses including college algebra, math for the liberal arts, calculus, differential equations, discrete mathematics, geometry, financial mathematics, and combinatorics. The social justice themes include human trafficking, income inequality, environmental justice, gerrymandering, voting methods, and access to education. The volume editors are leaders of the national

---

movement to include social justice material into mathematics teaching. Gizem Karaali is Associate Professor of Mathematics at Pomona College. She is one of the founding editors of *The Journal of Humanistic Mathematics*, and an associate editor for *The Mathematical Intelligencer* and *Numeracy*; she also serves on the editorial board of the MAA's *Carus Mathematical Monographs*. Lily Khadjavi is Associate Professor of Mathematics at Loyola Marymount University and is a past co-chair of the Infinite Possibilities Conference. She has served on the boards of Building Diversity in Science, the Barbara Jordan-Bayard Rustin Coalition, and the Harvard Gender and

Sexuality Caucus.

Service? Learning to Advance Social Justice in a Time of Radical Inequality

Wipf and Stock Publishers Exhibitions for Social Justice assesses the state of curatorial work for social justice in the Americas and Europe today. Analyzing best practices and new curatorial work to support all those working on

exhibitions, Gonzales expounds curatorial practices that lie at the nexus of contemporary museology and neurology. From sharing authority, to inspiring action and building solidarity, the book demonstrates how curators can make the most of visitors' physical and mental experience of exhibitions. Drawing on ethnographic and archival work at over twenty institutions with nearly eighty museum professionals, as well as scholarship in the public humanities, visual culture, cultural studies, memory studies, and brain science, this project steps back from the detailed

---

institutional histories of how exhibitions come to be. Instead, it builds a set of curatorial practices by examining the work behind the finished product in the gallery. Demonstrating that museums have the power to help our society become more hospitable, equitable, and sustainable, Exhibitions for Social Justice will be of interest to scholars and students of museum and heritage studies, gallery studies, arts and heritage management, and politics. It will also be valuable reading for museum professionals and

anyone else working with exhibitions who is looking for guidance on how to ensure their work attains maximum impact.

Teaching and Learning for Social Justice and Equity in Higher Education Routledge

This book uses survey data in "hot spots" around the globe, to analyse various models of social justice, particularly the principle of equality, from a pragmatic perspective. Starting with ordinary actors, social

---

movements, and concrete contexts, the authors question foundations of social and political democracy in our times. They focus on how social actors deal with the principles of justice and judgments of justice at work and in their social lives. The book suggests that the increase in social inequalities in recent decades contrasts with the blurring of the aims of social justice. At a time when the reconsideration of politics largely depends on its relevance to and aspirations for social justice, the authors of this book question contemporary developments by illustrating its variety, according to specific historical, institutional, social and organizational contexts. The book will be useful to students and scholars in the social

sciences, especially those interested in moral questions regarding social justice, from an empirical and practical point of view.

Social Justice and  
Communication

Scholarship explores the role of communication in framing and contributing to issues of social justice. This collection, a first on the subject of communication

---

and social justice, investigates within the field of the theoretical and practical ways in which communication scholarship can enable inclusive and equitable communities within American society. It analyzes ways in which to construct communities that protect individual freedom while ensuring equality and dignity to everyone. In this unique anthology, Swartz brings together both senior scholars and junior colleagues to represent diverse applications of communication to issues of social justice. He supports partisan scholarship in order to revitalize intellectual activity and social commitment toward creating a progressive society. As a result; the volume serves the heuristic function of posing new research questions. In addition to its relevance

communication, Social Justice and Communication Scholarship will be of interest in many of the humanities and social sciences, as research on the theme of social justice transcends disciplinary boundaries. The volume is particularly well suited for use in undergraduate and graduate courses in communication, rhetoric and composition, journalism, American studies, and cultural studies. Encyclopedia of Diversity and Social Justice Psychology Press Educators from across the United States offer their experiences engaging in rural, place-based social justice education. Educating for Social Justice Library Juice Press The physical education classroom can be a site of discomfort for young people who occupy marginalized identities,

---

and a place where the normative beliefs and teaching practices of educators can act as a barrier to their inclusion. This timely edited collection challenges pre-service and in-service teachers to examine the pedagogical practices and assumptions that work to exclude students with intersecting and diverse identities from full participation in physical and health education. The contributors to this volume—who consist of both experienced and emerging scholars from Canada, the United States, the United Kingdom, Australia, and New Zealand—approach their topics from a range of social justice perspectives and interpretations. Covering a variety of areas including (dis)ability, gender, sexuality, race, social class, and religion, *Social Justice in Physical Education* promotes a broader understanding of the sociocultural, political, and institutional practices and assumptions that underlie current physical education teaching. Each chapter encourages the creation of more culturally relevant and inclusive pedagogy, policy, and

practice, and the discussion questions invite readers to engage in critical reflection. Mapping a better way forward for physical and health education, this text will be an invaluable resource for courses on social justice, diversity, inclusive education, and physical education pedagogy.

The Day You Begin Stylus Publishing, LLC.

On August 28, 1963, a remarkable event took place--more than 250,000 people gathered in our nation's capital to participate in the March on Washington for Jobs and Freedom. The march began at the Washington Monument and ended with a rally at the Lincoln Memorial, where Martin Luther King Jr. delivered his historic "I Have a Dream" speech, advocating racial harmony. Many words have been written about that day, but few so delicate and

---

powerful as those presented here by award-winning author and illustrator Shane W. Evans. When combined with his simple yet compelling illustrations, the thrill of the day is brought to life for even the youngest reader to experience. We March is one of Kirkus Reviews' Best Children's Books of 2012

Malchow demonstrates that Israel did not originate the concept of social justice. Rather, it drew its resources for overcoming injustice from Near Eastern thought on the subject. By combining its own ideas of social justice with those of its neighbors, Israel's people fought injustice with what was "new" and what was "old".

Recent years have seen social justice emerge as a powerful driver for work, both in law

schools and the legal services sector. However, questions remain about how that term is understood and given meaning within the legal academy and beyond. This edited collection explores the meanings that have emerged and might subsequently be developed, together with a practical exploration of projects that have sought to bring the social justice agenda to life in law schools and in communities around the world. Over the course of eighteen chapters, this volume engages with a range of social justice and legal education themes, including clinical legal education, innocence projects, access to justice, cause lawyering, LGBTQ identities, and sustainability in law schools. In addition, it also explores themes of ethics and values in contemporary legal education in Africa, Australia, North America, and the UK.

This book explores the

---

relationship between social justice practices and the Arts in Education. It argues that social justice practices, at their best, should awaken our senses and the ability to imagine alternatives that can sustain the collective work necessary to challenge entrenched patterns and practices. Chapters display a range of arts-based pedagogies for challenging oppressive practices in schools, community centers and other public sites. The examples provided illustrate both the promise and on-going challenge of enacting arts based social justice practices that can transform consciousness and organize action toward justice and social change. They show the power of arts-based pedagogies to engage the imagination, reveal invisible operations of power and

privilege, provoke critical reflection, and spark alternative images and possibilities. They also show the importance of on-going critical reflection for this work with attention to both the specificities of place and the obstacles (internal and external) to maintaining a social justice stance in the face of contemporary neoliberal discourses. This book was originally published as a special issue of *Equity & Excellence in Education*.

One teenager in a skirt. One teenager with a lighter. One moment that changes both of their lives forever. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a black teen, lived in the crime-plagued flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The 57 Bus is Dashka Slater's true account of the case that garnered international attention and thrust both teenagers into the spotlight. [Call to Family, Community, & Participation](#) Springer Nature This edited volume brings closer two contemporary science education research areas: Nature

of Science (NOS) and Social Justice (SJ). It starts a dialogue on the characteristics of NOS for SJ with the purpose of advancing the existing discussion and creating new avenues for research. Using a variety of approaches and perspectives, the authors of the different chapters engage in a dialogue on the construct of NOS for SJ, its characteristics, as well as ways of addressing it in science classrooms. Issues addressed are related to why a school science aiming at SJ should address NOS; what NOS-related content, skills and attitudes form the basis when aiming at SJ; and how school science can address NOS for SJ. Through a set of theoretical and empirical chapters, the authors suggest answers, but they also pose new questions on what NOS for SJ can mean, and what issues need to be taken into consideration in future research and practice. Social Justice and Education in the 21st Century Penguin  
From New York Times bestseller and Pulitzer Prize winner Junot Díaz comes a debut picture book about the magic of memory and the infinite power of the imagination. A 2019 Pura Belpré Honor Book for Illustration Every kid in Lola's school was from somewhere else. Hers was a school of faraway places. So when Lola's teacher asks the students to draw a picture of where their families immigrated from, all the kids are excited. Except Lola. She can't remember The Island—she left when she was just a baby. But with the help of her family and friends, and their memories—joyous, fantastical, heartbreaking, and frightening—Lola's imagination takes her on an extraordinary journey back to The Island. As she draws closer to the heart of her family's story, Lola comes to understand the truth of her abuela's words: “ Just because you don't remember a place doesn't mean it's not in you. ”  
Gloriously illustrated and

lyrically written, Islandborn is a celebration of creativity, diversity, and our imagination's boundless ability to connect us—to our families, to our past and to ourselves.
