The #1 New York Times – bestselling author 's visually stunning story about a magical band of living toys who learn to overcome their fears. Toymaker Isaac Bodkins created the Oddkins, a group of living toys, for very special children who face difficulties in life and need true

friends. There ' s Amos, the brave stuffed bear; Skippy, the rabbit who dreams of being a superstar; Butterscotch, the gentle, floppy-eared pup; Burl the elephant; the wise and scholarly Gibbons; and Patch the cat. The Oddkins are given to children to inspire, support, and love them, especially during times of adversity. Only now, the toys themselves are the ones who need help. Before he dies, Mr. Bodkins delivers a dire warning to Amos the bear: Watch out for an evil toymaker and his dangerous creations! Locked up in the dark sub-basement, another group of toys is climbing out of boxes and crates and coming to life as well. These bad toys—like Rex and Lizzie, the puppets with no strings; Gear, the vicious robot; and Stinger, the horrid buzzing bumblebee with his knife-sharp stinger—were made to hurt children, not help them. Leering, laughing, and deadly, they are let loose into the world by a terrifying force. Frightening as it may be, the Oddkins must go on a journey to find Colleen Shannon, Mr. Bodkins ' s chosen successor as a life-giving toymaker and the only person who can save them. The stormy night is perilous and the Oddkins face a danger that threatens not only their magic . . . but the magic in us all.

Clive Barker's Books of Blood: Volume One (Movie Tie-In) Crossroad Press A famous photographer lying in a coma holds the key to the salvation of the world. But first he must travel back into the traumatic events of his childhood. Hellbound Hearts IDW Publishing Born and raised in Mississippi and Tennessee, William Eggleston began taking pictures during the 1960s after seeing Henri Cartier-Bresson's *The Decisive Moment*. In 1966 he changed from black and white to color film, perhaps to make the medium more his own and less that of his esteemed predecessors. John Sarkowski, when he was

curator of photography at the Museum of Modern Art, called Eggleston the "first color photographer," and certainly the world in which we consider a color photograph as art has changed because of Eggleston. From 1966 to 1971, Eggleston would occasionally use a two and one quarter inch format for photographs. These are collected and published here for the first time, adding more classic Eggleston images to photography's color canon.
