The History of Huddersfield and Its Vicinity Mondial
What draws us towards a shop window display? What drives us to grab a special offer, to enter the privileged circle of premium newspaper subscribers, to peruse the pages of an enticing magazine? Without doubt, it is curiosity - that essential force of everyday action which invites us to break from our habits and to become transported beyond our very selves. Curiosity (whether

healthy or unhealthy) is one of the favourite tricks of market seduction. Capturing a public - attracting the attention of a reader, seducing a customer, meeting the expectations of a user, persuading a voter ... - often requires the construction of a set of technical devices that can play upon people's inner motivations. Cochoy invites us to take a sociological trip into these cabinets of curiosity, accompanied throughout by Bluebeard, a fairy tale that is both a model of the genre and a pure curiosity machine. At once a work of history and economic anthropology, the book meticulously analyses the

devices designed by markets to arouse, excite, and sustain curiosity: a window display, practices of 'teasing', packaging, bus shelters, mobile internet technologies, to name but a few. In the Bettencourt and Strauss-Kahn affairs and the Wikileaks controversy, Cochoy also uncovers the work of investigative journalism and its attention-grabbing 'scoops', revealing the secrets of the revealers of secrets. Available in English for the first time, this major work will arouse readers' curiosity over the course of its unusual and colourful journey. By the end, now better informed and more cautious,

they will be able to identify the traps of which they are the target. So long as curiosity is kept at bay, at least!

The third novel in the legendary and magical series featuring dragons, adventure, romance, and heroism, from Hugo and Nebula

Award-winning author Anne McCaffrey, “one of my favorite authors of all time” (Brandon Sanderson) “Anne

McCaffrey’s Pern novels are truly foundational books; it’s hard to imagine the modern-day landscape of fantasy and science fiction without them.”—Naomi Novik, author of

the Temeraire series *When Lessa chose a dragon over her birthright, the hold she was to*

have inherited passed to Lord Jaxom instead. But Jaxom then muddied generations of Pern tradition by impulsively Impressing Ruth, the small and singularly unique white dragon, as a child. From that moment on, the debate has raged. Is Jaxom now a dragonrider, or a lord holder? All anyone agrees on is that he cannot be both.

But perhaps it is all academic anyway, for no one expects Ruth to survive. But Ruth not only survives, he thrives. With Jaxom on the cusp of adulthood, the thing the pair most desire is to fight Thread side-by-side with the larger dragons. Jaxom knows what his dragon is capable of, and

now that he is—mostly—grown, he is determined to buck tradition. Fortunately, a teenage rebellion may be the key to both Pern’s salvation and winning the woman of his dreams. Don’t miss the original trilogy from Anne McCaffrey’s beloved Dragonriders of Pern series: **DRAGONFLIGHT • DRAGONQUEST • THE WHITE DRAGON** Brands and Their Companies Philadelphia? : s.n.

Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (Cannabis sativa). Throughout the ages, marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many

things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow

transformed into blissful ecstasy by the fumes that filled the air. Marijuana has been known by many names: hemp, hashish, dagga, bhang, loco weed, grass-the list is endless. Formally christened Cannabis sativa in 1753 by Carl Linnaeus, marijuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing tranquil Brahms lullabies to coax it to grow. It is as vigorous as a weed. It is ubiquitous. It flourishes under nearly every possible climatic condition.

Originally published in 1889, this work's protagonist Andrea Sperelli introduced the Italian culture to aestheticism and a taste for decadence. The young count seeks beauty, despises the bourgeois world, and rejects the basic rules of morality and social interaction. His corruption is evident in his sadistic superimposing of two women.

Science is not the only route to understanding nature. This volume presents a series of case studies in comparative epistemology, critically comparing the works of prominent representatives of the life sciences, such

as Aristotle, Darwin, and Mendel, with the writings of literary masters, such as Andersen, Melville, Verne, and Ibsen. It constitutes a major contribution to the growing field of science and literature studies.
