The Great Rift is a sweeping history of the intertwined careers of Dick Cheney and Colin Powell, whose rivalry and conflicting views of U.S. national security color our political debate to this day. Dick Cheney and Colin Powell emerged on the national scene more than

thirty years ago, and it is easy to forget that they were once allies. The two men collaborated closely in the successful American wars in Panama and Iraq during the presidency of George H. W. Bush--but from this pinnacle, conflicts of ideology and sensibility drove them apart. Returning to government service under George W. Bush in 2001, they (and their respective allies within the administration) fell into ever-deepening antagonism over the role America should play in a world marked by terrorism and other nontraditional threats. In a wide-ranging, deeply researched, and

dramatic narrative, James Mann explores each man's biography and philosophical predispositions to show how and why this deep and permanent rupture occurred. Through dozens of original interviews and surprising revelations from presidential archives, he brings to life the very human story of how this influential friendship turned so sour and how the enmity of these two powerful men colored the way America acts in the world.

Untold Story Oxford University Press
Half Apache and orphaned, Edgar's trials begin on an Arizona reservation at the age of seven when he is run over by the mailman's jeep, after which he is

taken from the hospital to a school for delinquents to a Mormon foster family, and eventually to an unexpected home on a quest for the mailman. Reader's Guide available. Reprint. 75,000 first printing.

Who Killed Roger Ackroyd? New York Review of Books

A tragicomic open letter to Osama Bin Laden from a young London woman whose husband and son are killed in a terrorist attack on a soccer stadium.

The Collector Collector Edinburgh University Press

The New Politics of Youth Crime argues that the centrality of 'law and order' to the New Labour project has generated a youth justice strategy which threatens to deepen the problems it purports to solve. Analysing the profound changes in UK youth crime in the 1980s, this book posits the French Social Prevention Initiative of the 1980s as an alternative model for a genuinely 'joined-up', social democratic response to the increasingly complex problem of youth crime in Europe.

Under the Frog Springer

How modern philosophers use and perpetuate myths about prehistoryThe state of nature, the origin of property, the origin of government, the primordial nature of inequality and war

why do political philosophers talk so much about the Stone Age? And are they talking about a Stone Age that really happened, or is it just a convenient thought experiment to illustrate their points?Karl Widerquist and Grant S. McCall take a philosophical look at the origin of civilisation, examining political theories to show how claims about prehistory are used. Drawing on the best available evidence from archaeology and anthropology, they show that much of what we think we know about human origins comes from philosophers imagination, not scientific investigation.Key FeaturesShows how modern political theories employ ambiguous factual claims about prehistoryBrings archaeological and anthropological evidence to

bear on those claimsTells the story of human origins in a way that reveals many commonly held misconceptions **Tropic of Cancer (Harper Perennial Modern Classics)** Pan Macmillan This book contains the complete poems in Hungarian and in English translation of Hungary's great modern poet, Miklos Radnoti, murdered at the age of 35 during the Holocaust. His earliest poems, the six books published during his lifetime, and the poems published posthumously after World War II are included. There is a foreword by Gy?z? Ferencz, one of Hungary's foremost experts on Radnoti's poems, and accompanying essays by the author on dominant themes and recurring images, as well as the relevance of Radnoti's work to Holocaust literature.

The Thought Gang Random House

A considered analysis of the philosophical ideas to be found in crime literature, both hidden and explicit. Josef Hoffmann ranges expertly across influences and inspirations in crime writing with a stellar cast including Conan Doyle, G K Chesterton, Dashiell Hammett, Albert Camus, Borges, Agatha Christie and Raymond Chandler. Hoffmann examines why crime literature may provide stronger consolation for readers than philosophy. In so doing, he demonstrates the truth of Wittgenstein's claim that more wisdom is contained in the best crime fiction than in philosophy.

The Fifth Woman Simon and Schuster

London. A city robbing and killing people since 50BC. The Vizz: an industry in crisis. Baxter Stone, a film

maker and television veteran, a lifelong Londoner (who thinks he sees better than others) is having problems in the postbrain, crumbling capital. Swindled by an insurance company, he's in debt; a Lamborghini is blocking his drive and MI6 is blocking his mobile reception. He hopes to turn it round and get the documentary series that will get him the Big Money. But what do you do if history is your sworn enemy and the whole world conspires against you? Is there any way, you could, for a moment, rule the world justly? Darkly comic, How to Rule The World follows Baxter's battle for truth, justice and classy colour grading as it takes him from the pass of Thermopylae, to the peacocking serial killers of Medieval France, and the war in Syria. A trip from the

Garden of Eden to Armageddon, plus reggae. Demonstrating Fischer's inimitable talent for eviscerating social satire, How to Rule the World is a magnificently funny read to stand alongside his best loved works, the Man Booker shortlisted Under the Frog, The Thought Gang and Don't Read This Book If You're Stupid, all of which Corsair will publish in e-book next year.

Parallel Stories Random House
A dazzling collection of short fiction, containing stories published in New Writing and the TLS, as well as several new stories. The Novella 'I Like being Killed' takes the lid off the comedy scene in London, investigates where jokes come from and how you

The Vortex Simon and Schuster
This fascinating book is the first volume in a projected cultural history of the United States, from the

earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government,

gender, and violence, on which differences between American regions are greater than between European nations. **The Snack Thief** Open Road + Grove/Atlantic She was the most famous woman in the world. She died tragically, too young, in a terrible accident. The world mourned. Monica Ali, the beloved author of *Brick Lane*, explores the extraordinary question: what if she hadn't died? Lydia lives in a nondescript town somewhere in the American Midwest. She's a nice, normal woman - if strikingly beautiful. She lives a nice, normal life: her friends are normal, her job is normal, her hobbies are normal. Her friends and boyfriend adore her. But her past is shrouded in mystery. Who is Lydia? Where does she come from? And why is her English accent so posh? Lydia

is a woman with secrets. Extraordinary secrets. She might even be the most famous woman on the planet... a woman whose death the world mourned by millions. Who is she? *~*~* Praise for *Untold Story**~*~* 'A beautiful, gripping accomplishment, a treat for the heart and the head, and will be a joy to readers who believe in the possibility that a book can transform your basic sense of life' Andrew O'Hagan 'A terrific, clever, multi-layered and subtle book (and let's not forget - hugely entertaining)' Joanne Harris 'Haunting and intensely readable, this is something between a thriller and a ghost story' Lady Antonia Fraser 'A startlingly intelligent, perceptive and entertaining piece of fiction. It's quite brilliant' Henry Sutton,

Daily Mirror 'Thoughtful, compassionate... a suspenseful and gripping read' Suzi Feay, Financial Times 'Ali's third-person princess is a very convincing and sympathetic figure... extremely skilfully done' Tibor Fischer, Observer

Featuring a broad range of contemporary British novelists from Iain Banks to Jeanette Winterson, Louis de Bernieres to Irvine Welsh and Salman Rushdie, this book offers an excellent introductory guide to the contemporary literary scene. Each entry includes concise biographical information on each of the key novelists and analysis of their major works and themes. Fully cross-referenced and containing extensive guides to further reading, *Fifty Contemporary British Novelists* is the ideal guide to modern British fiction for both the student and the contemporary fiction buff alike.

Prehistoric Myths in Modern

Political Philosophy Berghahn Books

The Somerset Maugham Prize-winning, international bestselling debut novel: "a dazzling linguistic and formal achievement" set in 18th century London (Salman Rushdie). In eighteenth-century London, John Lempriere works feverishly on a celebrated dictionary of classical mythology that bears his name. But when he discovers a conspiracy against his family dating back 150 years, he embarks on a personal mission that will pit him against enemies he never knew he had, allies he never thought he would ever want, and a destiny he never imagined . . . Told with the narrative drive of a political thriller and a Dickensian panorama of place and time, this "superbly entertaining" tale encompasses multinational conspiracies and a motley cast of scholars, eccentrics, prostitutes,

assassins, drunken aristocrats, and octogenarian pirates—all brilliantly depicted across three continents and the world of classical mythology (The Washington Post).

The Magic of Stars Random House Australia

When Agatha Christie published her masterpiece *The Murder of Roger Ackroyd* she confounded the conventions of the detective story by making her narrator, Dr Sheppard, the killer: every event in the novel is seen through Sheppard's eyes. But when faced by Hercule Poirot in a typically grandstanding finale, Sheppard reacts to Poirot's solution of the crime with astonishment, and with good cause: the punctilious Belgian detective's explanation is as motiveless as it is impractical. This is the starting point in Pierre Bayard's clever, affectionate tribute to the Queen of Crime. Bayard asks the question: might

Poirot have got it wrong? And if so, why might he have been mistaken? Did Christie herself understand the ending of her own book or was she too being manipulated by her narrator? In a display of literary intrigue worthy of Umberto Eco or John Sutherland, Bayard plots his own solution, faithfully following the devices of Agatha Christie's original in this deft, smart homage.

The Tito-Stalin Split 70 Years After
Hachette UK

The authoritative text on the libertarian political position in recent years, libertarian impulses have increasingly influenced national and economic debates, from welfare reform to efforts to curtail affirmative action. Murray N. Rothbard's classic *The Ethics of Liberty* stands as one of the most rigorous and philosophically sophisticated expositions of the libertarian political position. Rothbard's unique argument roots the case for freedom in the concept of natural rights and applies it to a host of practical

problems. And while his conclusions are radical—that a social order that strictly adheres to the rights of private property must exclude the institutionalized violence inherent in the state—Rothbard's applications of libertarian principles prove surprisingly practical for a host of social dilemmas, solutions to which have eluded alternative traditions. *The Ethics of Liberty* authoritatively established the anarcho-capitalist economic system as the most viable and the only principled option for a social order based on freedom. This classic book's radical insights are sure to inspire a new generation of readers.

Philosophies of Crime Fiction
Vintage Books

"Oceane (conceived on a cross-Channel ferry) doesn't get out much. But then there's a lot you can do in your room... Voyage to the end of the Room is Tibor Fischer back on top form - funny, provocative, foul-mouthed, ingenious, thoughtful, touching and completely original. Narrated

by a woman who is equally funny, provocative etc, on the surface it's a novel about a failed dancer turned computer-graphics designer who's been around the block but these days doesn't leave her house. At heart, though, it's a meditation on how and whether you can ever know other people, what is evil, what is reality, what is humanity - and can you fake them? Or is there a litmus test for the real thing? Reality constantly bumps up against virtual reality, as the noel pans around the globe from Brixton to the holiday island of Chuuk by way of Barcelona, the Balkans and the Humber Estuary, introducing a fantastical cast of irresistible characters and their stories - from sad whores and pseudo-travel agents in Lambeth to perfectly formed sex-workers and 'wetwork' specialists in the Club Babylon, a Spanish Tower of Babel where our heroine used to

work and bizarre deaths keep occurring; and from a scrupu

Lemprière's Dictionary

Macmillan

A multicultural anthology of writing on poverty--including stories, essays, poetry, and biographical

excerpts--features the work of Sherman Alexie, Dorothy Allison, Raymond Carver, Ralph Ellison, Langston Hughes, and William Carlos Williams.

A magyar tigris Random House

"A harrowing book about the horrors of motherhood, jealousy, and war trauma."

-Kirkus Reviews The Weight of Things is the first book, and the first translated book, and possibly the only translatable book by Austrian writer Marianne Fritz (1948-2007). For after winning acclaim with this novel--awarded the Robert Walser Prize in 1978--she embarked on a 10,000-page literary project called "The Fortress," creating

over her lifetime elaborate colorful diagrams and typescripts so complicated that her publisher had to print them straight from her original documents. A project as brilliant as it is ambitious and as bizarre as it is brilliant, it earned her cult status, comparisons to James Joyce no less than Henry Darger, and admirers including Elfriede Jelinek and W. G. Sebald. Yet in this, her first novel, we discover not an eccentric fluke of literary nature but rather a brilliant and masterful satirist, philosophically minded yet raging with anger and wit, who under the guise of a domestic horror story manages to expose the hypocrisy and deep abiding cruelties running parallel, over time, through the society and the individual minds of a century.
