Early modern war narratives and the Revolt in the Low Countries  
Simon and Schuster  
Dance Dance Dance—a follow-up to *A Wild Sheep Chase*—is a tense, poignant, and often hilarious ride through Murakami’s Japan, a place where everything that is not up for sale is up for grabs. As Murakami’s nameless protagonist searches for a mysteriously vanished girlfriend, he is plunged into a wind tunnel of sexual violence and metaphysical dread. In this propulsive novel, featuring a shabby but oracular Sheep Man, one of the most idiosyncratically brilliant writers at work today fuses together science fiction, the hardboiled thriller, and white-hot satire.

Discoveries and conquests, which so frequently go hand in hand, are of the greatest importance to the history of mankind. Like a combination of streams, they break through natural boundaries and the rocky dams of ages, and open a way for the incessant progress of civilization through new and untrodden paths. Yet glorious enterprises, costly equipments, and hazardous exploits, may conceal a swelling kernel of material interest beneath a husk of fine reasons, as if these constituted the primitive motive. Thus Mohammed Ali, the Viceroy of Egypt, has done very much for science, especially geography, without even thinking of it, whose comprehensive relations, with respect to the higher requirements of mankind, lie far beyond the limits of his ideas. Neither has he honoured with his study the hieroglyphics in the Biban el Moluk near Thebes, where the black Kushi bring golden rings as tribute to the Pharaohs. Yet he knows, and is so exceedingly fond of these rings (Oki ë n), which in Ethiopia even now serve instead of money, that, so far as

the destroying arms of this much-famed satrap reach in Belled-Sudan, no more oki ë n are to be seen. Moreover, he is making exertions to follow and secure those that have retreated and eluded his grasp, which affords an excellent opportunity for extending our knowledge of the countries and people of East and Central Africa. He sacrificed his son Ismail, and, through the Defterdar, devastated and depopulated this beautiful country, merely to secure to himself the way to the gold regions; though he might have attained his object much better, had he sought to elevate the country in every possible way, and to re-establish mercantile confidence. For, from the earliest ages, a market has existed here, to which gold comes, first hand, in the leaf and grain form, by barter with the inhabitants of the interior, just as it has been separated from the sand of the torrents, and kept in quills or horns of the gazelle. In Sennaar or Kordofan it is found in rings of half and whole oki ë n and in gold wire, but it is frequently changed, by weighing and melting it down, into ingots or bars, which Mohammed Ali just as little contemns. But “Turks:” —in this one word is included all and every answer to questions on the condition of the people. We shrug up our shoulders, and say “Turks.” Whoever has lived some time

---

amongst them must, from the clearest conviction, confess the perfect incapacity of these Turks for advancing and civilizing the countries under their government, and their indifference to the interests, nay, even their premeditated murder of the nations infested by them. The complete depravity of the Asiatic world, even in the lifeless and powerless form of a mass dissolved in corrupt fermentation, always effervesces strongly into cruelty with the wide-spread barbarians of the East, and displays itself in bestial vices, to the disgrace of mankind and scorn of the sacred bond of nations. A truly savage nature is theirs, which, from Montenegro to the east and south, repels all western civilization, and would seek a kind of national fame by ridiculous reactions against it, as a hated and even despised foreign state of manners and life, in order to cover their nakedness and infamy, and to cloak their empty ostentation. But the Turk of Egypt is the outcast of his countryman in Turkey itself. Egypt, for example, is so decried in Albania, on account of its corruption, that the Arnaut returning from thence seldom obtains a wife, even if he have his girdle full of red gold.

The ubiquity of references to dogs in medieval and early modern texts and images must at some level reflect their actual presence in those worlds, yet scholarly consideration of this material is rare and scattered across diverse sources. This volume addresses that gap, bringing together fifteen essays that examine the appearance, meaning, and significance of dogs in painting, sculpture, manuscripts, literature, and legal records of the period, reaching beyond Europe to include cultural material from medieval Japan and Islam. While primarily art historical in focus, the authors approach the subject from a range of disciplines and with varying methodology that ultimately reveals as much about dogs as about the societies in which they lived. Contributors are Kathleen Ashley, Jane Carroll, Emily Cockayne, John Block Friedman, Karen M. Gerhart, Laura D. Gelfand, Craig A. Gibson, Walter S. Gibson, Nathan Hofer, Jane C. Long, Judith W. Mann, Sophie Oosterwijk, Elizabeth Carson Pastan, Donna L. Sadler, Alexa Sand,

This succinct, accessible two-volume set covers all aspects of Celtic historical life, from prehistory to the present day. The study of Celtic history has a wide international appeal, but unfortunately many of the available books on the subject are out-of-date, narrowly specialized, or contain incorrect information. Online information on the Celts is similarly unreliable. This two-volume set provides a well-written, up-to-date, and densely informative reference on Celtic history that is ideal for high school or college-aged students as well as general readers. The Celts: History, Life, and Culture uses a cross-disciplinary approach to explore all facets of this ancient society. The book introduces the archaeology, art history, folklore, history, linguistics, literature, music, and mythology of the Celts and examines the global influence of their legacy. Written entirely by acknowledged
