"Like A Wrinkle in Time (Miranda's favorite book), When You Reach Me far surpasses the usual whodunit or sci-fi adventure to become an incandescent exploration of 'life, death, and the beauty of it all.'" —The Washington Post This Newbery Medal winner that has been called "smart and mesmerizing," (The New York Times) and "superb" (The Wall Street Journal) will appeal to readers of all types, especially those who are looking for a thought-provoking mystery with a mind-blowing twist. Shortly after a fall-out with her best friend, sixth grader Miranda starts receiving mysterious notes, and she doesn't know what to do. The notes tell her that she must write a letter—a true story, and that she can't share her mission with anyone. It would be easy to ignore the strange messages, except that whoever is leaving them has an uncanny ability to predict the future. If that is the case, then Miranda has a big problem—because the notes tell her that someone is going to die, and she might be too late to stop it. Winner of the Boston Globe – Horn Book Award for Fiction A New York Times Bestseller and Notable Book Five Starred Reviews A Junior Library Guild Selection "Absorbing." —People "Readers ... are likely to find themselves chewing over the details of this superb and intricate tale long afterward." —The Wall Street Journal "Lovely and almost impossibly clever." —The Philadelphia Inquirer "It's easy to imagine readers studying Miranda's story as many times as she's read L'Engle's, and spending hours pondering the provocative questions it raises." —Publishers Weekly, Starred review

### The Time Machine Study Guide Algonquin Books

The bold and boundlessly original debut novel from the Oscar®-winning screenwriter of Being John Malkovich, Adaptation, Eternal Sunshine of the Spotless Mind, and Synecdoche, New York. **LONGLISTED FOR THE CENTER FOR FICTION FIRST NOVEL PRIZE** • "A dyspeptic satire that owes much to Kurt Vonnegut and Thomas Pynchon . . . propelled by Kaufman's deep imagination, considerable writing ability and bull's-eye wit."—The Washington Post "An astonishing creation . . . riotously funny . . . an exceptionally good [book]."—The New York Times Book Review • "Kaufman is a master of language . . . a sight to behold."—NPR **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR AND MEN'S HEALTH** B. Rosenberger Rosenberg, neurotic and underappreciated film critic (failed academic, filmmaker, paramour, shoe salesman who sleeps in a sock drawer), stumbles upon a hitherto unseen film made by an enigmatic outsider—a film he's convinced will change his career trajectory and rock the world of cinema to its core. His hands on what is possibly the greatest movie ever made—a three-month-long stop-motion masterpiece that took its reclusive auteur ninety years to complete—B. knows that it is his mission to show it to the rest of humanity. The only problem: The film is destroyed, leaving him the sole witness to its inadvertently ephemeral genius. All that's left of this work of art is a single frame from which B. must somehow attempt to recall the film that just might be the last great hope of civilization. Thus begins a mind-boggling journey through the hilarious nightmarescape of a psyche as lushly Kafkaesque as it is atrophied by the relentless spew of Twitter. Desperate to impose order on an increasingly nonsensical existence, trapped in a self-imposed prison of aspirational victimhood and degeneratively inclusive language, B. scrambles to re-create the lost masterwork while attempting to keep pace with an ever-fracturing culture of "likes" and arbitrary denunciations that are simultaneously his bête noire and his raison d'être. A searing indictment of the modern world, Antkind is a richly layered meditation on art, time, memory, identity, comedy, and the very nature of existence itself—the grain of truth at the heart of every joke.

As the healthcare debate rages on with the growth of the HMO industry, nurses quietly continue to provide the day-to-day grit and deeply-felt passion that hold the healing profession together. Within these remarkable women and men are poignant, outrageous stories drawn from the edge of life. But fear of career backlash and reprisals have made them reluctant to talk to outsiders about their experience. Now Echo Heron, New York Times bestselling author of Intensive Care, draws truths far stranger than fiction out of her colleagues—and allows the nurses to speak to us in their own words. Ranging from inspiring to tragic to outrageously funny, these narratives are real life medical dramas as experienced by nurses across the country—each practicing in a variety of specialties, including cardiac care, labor and delivery, burns, the ER—even a nurse who works in dolphin care. Tending Lives portrays a penitentiary nurse responsible for orchestrating a murderer's execution; a stroke victim who rose out of his depression when his nurses began telling him jokes; and, perhaps the most riveting testimony, the moment-by-moment memories of several nurses who served in the aftermath of the Oklahoma City bombing—gripping accounts that give us new perspectives on the horror and heroism of that nightmare day. Pediatric nurses, psychiatric nurses, home-care nurses, intensive care nurses—all with distinct voices and unique stories to tell. Filled with both tears and laughter, and charged with the issues that afflict nursing care today, Tending Lives is a gripping, moving, inspiring book, a fitting tribute to a noble profession.

Putting Cultures on Display Viking

**NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE** • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

At once "a pop culture phenomenon" (Publishers Weekly) and "screamingly funny" (Booklist), Educating Esmé "should be read by anyone who's interested in the future of public education" (Boston Phoenix Literary Section). A must-read for parents, new teachers, and classroom veterans, Educating Esmé is the exuberant diary of Esmé Raji Codell's first year teaching in a Chicago public school. Fresh-mouthed and free-spirited, the irrepressible Madame Esmé—as she prefers to be called—does the cha-cha during multiplication tables, roller-skates down the hallways, and puts on rousing performances with at-risk students in the library. Her diary opens a window into a real-life classroom from a teacher's perspective. While battling bureaucrats, gang members, abusive parents, and her own insecurities, this gifted young woman reveals what it takes to be an exceptional teacher. Heroine to thousands of parents and educators, Esmé now shares more of her ingenious and yet down-to-earth approaches to the classroom in a supplementary guide to help new teachers hit the ground running. As relevant and iconoclastic as when it was first published, Educating Esmé is a classic, as is Madame Esmé herself.

Contents:The Time MachineWar of the WorldsThe Time Traveller (for so it will be convenient to speak of him) was expounding a recondite matter to us. His grey eyes shone and twinkled, and his usually pale face was flushed and animated. The fire burned brightly, and the soft radiance of the incandescent lights in the lilies of silver caught the bubbles that flashed and passed in our glasses. Our chairs, being his patents, embraced and caressed us rather than submitted to be sat upon, and there was that luxurious after-dinner atmosphere when thought roams gracefully free of the trammels of precision. And he put it to us in this way—marking the points with a lean forefinger—as we sat and lazily admired his earnestness over this new paradox (as we thought it) and his fecundity.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
