On March 25, 1911, the Triangle Shirtwaist Factory in New York City burst into flames. The factory was crowded. The doors were locked to ensure workers stay inside. One hundred forty-six

people—mostly women—perished; it was one of the most lethal workplace fires in American history until September 11, 2001.

But the story of the fire is not the story of one accidental moment in time. It is a story of immigration and hard work to make it in a new country, as Italians and Jews and others traveled to America to find a better life. It is the story of poor working conditions and greedy bosses, as garment workers discovered the endless sacrifices required to make ends meet. It is the story of unimaginable, but avoidable, disaster.

And it the story of the unquenchable pride and activism of fearless immigrants and women who stood up to business, got America on their side, and finally changed working conditions for our entire nation, initiating radical new laws we take for granted today. With *Flesh and Blood So Cheap*, Albert Marrin has crafted a gripping, nuanced, and poignant account of one of America's defining tragedies.

Explore the important political and economic roles held by these "factory girls," during the Triangle Fire of 1911 as *The Triangle Book* White Star Kids

2017 American Book Award Winner from the Before Columbus Foundation In 1911, a fire at the Triangle Shirtwaist Factory in New York City took the lives of 146 workers, most of them young immigrant women and girls. Their deaths galvanized a movement for social and economic justice then, but today's laborers continue to battle dire working conditions. How can we bring the lessons of the Triangle fire back into practice today? For artist Ruth Sergel, the answer was to fuse art, activism, and collective memory to create a large-scale public commemoration that invites broad participation and incites civic engagement. See *You in the Streets* showcases her work. It all began modestly in 2004 with *Chalk*, an invitation to all New Yorkers to remember the 146 victims of the fire by inscribing their names and

ages in chalk in front of their former homes. This project inspired Sergel to found the Remember the Triangle Fire Coalition, a broad alliance of artists and activists, universities and unions—more than 250 partners nationwide—to mark the 2011 centennial of the infamous blaze. Putting the coalition together and figuring what to do and how to do it were not easy. This book provides a lively account of the unexpected partnerships, false steps, joyous collective actions, and sustainability of such large public works. Much more than an object lesson from the past, *See You in the Streets* offers an exuberant perspective on building a social art practice and doing public history through argument and agitation, creativity and celebration with an engaged public. *The Triangle* St. Martin's Press

"Riveting. . . a testament to a misconceived war, and to the ease with which ordinary men, under certain conditions, can transform into monsters."—New York Times Book Review This is the story of a small group of soldiers from the 101st Airborne Division's fabled 502nd Infantry Regiment—a unit known as "the Black Heart Brigade." Deployed in late 2005 to Iraq's so-called Triangle of Death, a veritable meat grinder just south of Baghdad, the Black Hearts found themselves in arguably the country's most dangerous location at its most dangerous time. Hit by near-daily mortars, gunfire, and roadside bomb attacks, suffering from a particularly heavy death toll, and enduring a chronic breakdown in leadership, members of one Black Heart platoon—1st Platoon, Bravo Company, 1st Battalion—descended, over their year-long tour of duty,

into a tailspin of poor discipline, substance abuse, and brutality. Four 1st Platoon soldiers would perpetrate one of the most heinous war crimes U.S. forces have committed during the Iraq War—the rape of a fourteen-year-old Iraqi girl and the cold-blooded execution of her and her family. Three other 1st Platoon soldiers would be overrun at a remote outpost—one killed immediately and two taken from the scene, their mutilated corpses found days later booby-trapped with explosives. *Black Hearts* is an unflinching account of the epic, tragic deployment of 1st Platoon. Drawing on hundreds of hours of in-depth interviews with Black Heart soldiers and first-hand reporting from the Triangle of Death, *Black Hearts* is a timeless story about men in combat and the fragility of character in the savage crucible of warfare. But it is also a timely warning of new dangers emerging in the way American soldiers are led on the battlefields of the twenty-first century.

The Triangle Bellwether Media Fascinating patient stories and dynamic exercises help you connect to healing emotions, ease anxiety and depression, and discover your authentic self. Sara suffered a debilitating fear of asserting herself. Spencer experienced crippling social anxiety. Bonnie was shut down, disconnected from her feelings. These patients all came to psychotherapist Hilary Jacobs Hendel seeking treatment for depression, but in fact none of them were chemically depressed. Rather, Jacobs Hendel found that they'd all experienced traumas in their youth that caused them to put up emotional defenses that masqueraded as symptoms of depression. Jacobs Hendel led these patients and others toward lives newly capable of joy and fulfillment through an empathic and effective therapeutic approach that draws on the latest science about the healing power of our emotions. Whereas conventional therapy encourages patients to

talk through past events that may trigger anxiety and depression, accelerated experiential dynamic psychotherapy (AEDP), the method practiced by Jacobs Hendel and pioneered by Diana Fosha, PhD, teaches us to identify the defenses and inhibitory emotions (shame, guilt, and anxiety) that block core emotions (anger, sadness, fear, disgust, joy, excitement, and sexual excitement). Fully experiencing core emotions allows us to enter an openhearted state where we are calm, curious, connected, compassionate, confident, courageous, and clear. In *It's Not Always Depression*, Jacobs Hendel shares a unique and pragmatic tool called the Change Triangle—a guide to carry you from a place of disconnection back to your true self. In these pages, she teaches lay readers and helping professionals alike • why all emotions—even the most painful—have value. • how to identify emotions and the defenses we put up against them. • how to get to the root of anxiety—the most common mental illness of our time. • how to have compassion for the child you were and the adult you are. Jacobs Hendel provides navigational tools, body and thought exercises, candid personal anecdotes, and profound insights gleaned from her patients' remarkable breakthroughs. She shows us how to work the Change Triangle in our everyday lives and chart a deeply personal, powerful, and hopeful course to psychological well-being and emotional engagement.

Can this couple leave the trauma of the past behind so that they can pursue the cherished dreams they both share?

The Bermuda Triangle Rowman & Littlefield

In 2015, Baltimore plunged into the worst American riots in recent history. In the chaos, two high school honor-roll students, "Brick" and "Wax, used their smarts, computer skills, ambition and gang connections to change the world of illegal drugs forever. With their gang associates, they looted pharmacies and robbed dealers, stealing over one million doses of prescription narcotics and heroin with a street value of more than \$100 million. "Brick" and "Wax" were not going to sell drugs on corners; they used location-based technology and encrypted messaging software to dispatch ordered drugs via delivery drivers—an Uber-like service that eliminated street deals and easily tapped phones. They were soon

supplying cities along the East Coast, creating a whole new class of opioid addicts with the FBI and DEA trailing in their wake. To ensure their supply of drugs did not run out, the teens formed an alliance with members of the Sinaloa cartel, headed by El Chapo. Veteran Newsday crime reporter Kevin Deutsch has been reporting on the ground in drug-ravaged neighborhoods for over a year. He's seen the bodies. Across America, thousands are dying from opioid overdoses. This middle-class crisis has been well documented, but the inner cities, where families are being swallowed up by addiction, have been ignored. Deutsch brings us into this underworld, where social unrest and cutting-edge technology allow criminals to seed the next wave of dysfunction and despair.
