This book describes the most complex machine ever sent to another planet: Curiosity. It is a one-ton robot with two brains, seventeen cameras, six wheels, nuclear power, and a laser beam on its head. No one human understands how all of its systems and instruments work. This essential reference to the Curiosity mission explains the engineering behind every system on the rover, from its rocket-powered jetpack to its radioisotope thermoelectric generator to its fiendishly complex sample handling system. Its lavishly illustrated text explains how all the instruments work -- its cameras, spectrometers, sample-cooking oven, and weather station -- and describes the instruments' abilities and limitations. It tells you how the systems have functioned on Mars, and how scientists and engineers have worked around problems developed on a faraway planet: holey wheels and broken focus lasers. And it explains the grueling mission operations schedule that keeps the rover working day in and day out.

Willis Wilbur has the entire summer in front of him. So it's time to fulfill his destiny: becoming the neighborhood life coach. Nine-year-old Willis Wilbur had his summer figured out. He and his best friend, Shelley, were going to Band Camp, and he was going to learn how to play the sousaphone. Easy. Simple. A done deal. But when Shelley is whisked off to Hawaii for a summer with her family, Willis is left staring down the long, boring road of an empty summer. Or even worse--eight long weeks of Day Camp. So Willis decides to try something new. He's going to MAKE A DATE WITH DESTINY. And after spotting a flyer for a local business competition, he finds exactly what his true calling really is: becoming the Neighborhood Life Coach. A kid helping other kids with kids' problems. His niche, he discovers. And he was going to be great at it. The best at it. So good, that he was going to become wildly, ridiculously famous. All he needed were some clients... With gumption, tenacity, and many other buzzwords he finds in self-help business magazines, Willis dives bowtie-first into the entrepreneurial waters. But starting a business alone, especially without his best friend by his side, is tough work. And with neighborhood bullies getting in his way, a guinea pig client who's actually a guinea pig, and an annoyingly competent little sister asking for a raise, Willis has his work cut out for him. Funny, heartfelt, and overwhelmingly endearing, Willis Wilbur is here to make all of your (well, his) dreams come true. (For a small fee.)
