The Return of the Word Spy (B and W) The Ultra Violets

When we think of "climate change," we think of man-made global warming, caused by greenhouse gas emissions. But natural climate change has occurred throughout human history, and populations have had to adapt to the climate's vicissitudes. Anthony J. McMichael, a renowned epidemiologist and a pioneer in the field of how human health relates to climate change, is the ideal person to tell this story. *Climate Change and the Health of Nations* shows how the natural environment has vast direct and indirect repercussions for human health and welfare. McMichael takes us on a tour of human history through the lens of major transformations in climate. From the very beginning of our species some five million years ago, human biology has evolved in response to cooling temperatures, new food sources, and changing geography. As societies began to form, they too adapted in relation to their environments, most notably with the development of agriculture eleven thousand years ago. Agricultural civilization was a Faustian bargain, however: the prosperity and comfort that an agrarian society provides relies on the assumption that the environment will largely remain stable. Indeed, for agriculture to succeed, environmental conditions must be just right, which McMichael refers to as the "Goldilocks phenomenon." Global warming is disrupting this balance, just as other climate-related upheavals have tested human societies throughout history. As McMichael shows, the break-up of the Roman Empire, the bubonic Plague of Justinian, and the mysterious collapse of Mayan civilization all have roots in climate change. Why devote so much analysis to the past, when the daunting future of climate change is already here? Because the story of mankind's previous survival in the face of an unpredictable and unstable climate, and of the terrible toll that climate change can take, could not be more important as we face the realities of a warming planet. This sweeping magnum opus is not only a rigorous, innovative, and fascinating exploration of how the climate affects the human condition, but also an urgent call to recognize our species' utter reliance on the earth as it is.

Belle Takes Flight (Disney Beauty and the Beast) RH/Disney

A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once

they're settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

#### How to Steal a Car Penguin

Winner of the 2004 Man Booker Prize and a finalist for the Lambda Literary Award and the NBCC award. From Alan Hollinghurst, the acclaimed author of *The Sparsholt Affair*, *The Line of Beauty* is a sweeping novel about class, sex, and money during four extraordinary years of change and tragedy. In the summer of 1983, twenty-year-old Nick Guest moves into an attic room in the Notting Hill home of the Feddens: conservative Member of Parliament Gerald, his wealthy wife Rachel, and their two children, Toby-whom Nick had idolized at Oxford-and Catherine, who is highly critical of her family's assumptions and ambitions. As the boom years of the eighties unfold, Nick, an innocent in the world of politics and money, finds his life altered by the rising fortunes of this glamorous family. His two vividly contrasting love affairs, one with a young black clerk and one with a Lebanese millionaire, dramatize the dangers and rewards of his own private pursuit of beauty, a pursuit as compelling to Nick as the desire for power and riches among his friends. Richly textured, emotionally charged, disarmingly comic, this is a major work by one of our finest writers.

##### Ali-A Adventures: Game On! the Graphic Novel Penguin

You can't block the dead! The first novel in the *Dead Serious* series, in which a middle school girl bridges the gap between the living and the dead with her phone. Annabel Craven hopes she'll fit in—maybe even be popular—at the Academy. She's worried she'll stay friendless and phoneless (it's true). But when she finds a mysterious phone in the woods near the cemetery, one of her problems is solved . . . and another one is just beginning. Someone won't stop texting her. And that someone seems . . . dead. How is Annabel supposed to make friends when her phone keeps blowing up with messages from the afterlife? And what will happen if she doesn't text back? Includes morbidly-cute black-and-white illustrations! "Scary--but not too scary." --SLJ "Good, ghostly fun." --Kirkus Reviews

##### Pigment Compendium Scholastic Inc.

Fans of David Almond's Skellig and Patrick Ness's *A Monster Calls* will embrace this deeply affecting middle grade novel in which a girl suffering from terrible grief befriends a mysterious wild boy. When I saw him that first time I screamed—a small and silent scream, all inside, in my gut. Eleven-year-old Kaia, who has felt isolated since her older brother committed suicide more than a year before, befriends a wild boy who mysteriously appears at her London school. Though the boy is mute and can only communicate with a flash of his gray eyes, he might be the friend Kaia needs to bring her through her grief. Here's a fascinating story, which offers a fresh and completely original portrayal of loss and renewal. "Readers who love stories of overcoming personal struggles and emotional strife will eat this up." —Booklist "Fans of realistic fiction... will surely devour Avery's latest." —School Library Journal "[Kaia's] confessional narration and self-aware observations yield a believable and haunting portrait of grief." —Publishers Weekly

The New York Times bestselling debut book of poetry from Lana Del Rey, *Violet Bent Backwards Over the Grass*. "Violet Bent Backwards Over the Grass is the title poem of the book and the first poem I wrote of many. Some of which came to me in their entirety, which I dictated and then typed out, and some that I worked laboriously picking apart each word to make the perfect poem. They are eclectic and honest and not trying to be anything other than what they are and for that reason I'm proud of them, especially because the spirit in which they were written was very authentic." —Lana Del Rey Lana's breathtaking first book solidifies her further as "the essential writer of her times" (*The Atlantic*). The collection features more than thirty poems, many exclusive to the book: *Never to Heaven*, *The Land of 1,000 Fires*, *Past the Bushes Cypress Thriving*, *LA Who Am I to Love You?*, *Tessa DiPietro*, *Happy*, *Paradise Is Very Fragile*, *Bare Feet on Linoleum*, and many more. This beautiful hardcover edition showcases Lana's typewritten manuscript pages alongside her original photography. The result is an extraordinary poetic landscape that reflects the unguarded spirit of its creator. *Violet Bent Backwards Over the Grass* is also brought to life in an unprecedented spoken word audiobook which features Lana Del Rey reading fourteen select poems from the book accompanied by music from Grammy Award – winning musician Jack Antonoff.

Aquaponics is the integration of aquaculture and soilless culture in a closed production system. This manual details aquaponics for small-scale production--predominantly for home use. It is divided into nine chapters and seven annexes, with each chapter dedicated to an individual module of aquaponics. The target audience for this manual is agriculture extension agents, regional fisheries officers, non-governmental organizations, community organizers, government ministers, companies and singles worldwide. The intention is to bring a general understanding of aquaponics to people who previously may have only known about one aspect.

Beyond Lucky Penguin

New Horizons was designed by NASA to study Pluto and the fringes of our solar system, farther away than any spacecraft has ever explored. Join science writer Elaine Scott as she tells the story of this mission. For Stephen Hawking, New Horizons signifies that "We explore because we are human and we want to know." This remarkable ship, no bigger than a piano, and using no more energy than a lightbulb, has already traveled three billion miles out to Pluto, and is continuing on to the Kuiper Belt, the farthest reaches of our solar system. The book will feature the beautiful, amazingly sharp photographs it is sending back from its journey, which are letting scientists fill in the blanks in our knowledge of Pluto--and delivering a few surprises along the way. Elaine Scott tells the exciting story of everyone's favorite planet, from Pluto's discovery through the frustrating attempts to study such a distant object, the creation of the New Horizons project, scientists' hopes and expectations for the mission, and what is being discovered. Her clear, engaging prose does more than narrate the events. By showing how scientists operate, their hypotheses, hopes, and disappointments, and how they make use of them, she gives readers an inspiring portrait of the scientific method itself.

The Well of Loneliness, first published in 1928, is a timeless portrayal of lesbian love. The thinly disguised story of Hall's own life, it was banned outright upon publication and almost ruined her literary career as the subject was that of an obscenity trial and forbidden at the time in England. The novel tells the story of Stephen, an ideal child of aristocratic parents—a fencer, a horse rider and a keen scholar. Stephen grows to be a war hero, a bestselling writer and a loyal, protective lover. But Stephen is a woman, and is attracted to women. As her ambitions drive her, and society incarcerates her, Stephen is forced into desperate actions. Although Gordon's attitude toward her own sexuality is anguished, the novel presents lesbianism as natural and makes a plea for greater tolerance. It became an international bestseller, and for decades was the single most famous lesbian novel.
