Nathan Hale tackles a topic fans have been

asking about for years: World War II. On

December 7, 1941, the Japanese bombed Pearl Harbor, officially bringing the United States

into World War II. A new generation of pilots

were recruited to fly bombing missions for the

United States, and from that group, volunteers

were requested for a dangerous secret

assignment. For the first time in American

history, Army bombers would be launched

from an aircraft carrier. Once at sea, they were

told their mission was a retaliation strike against

targets in Tokyo. But on the day of the raid, a

Japanese patrol boat spotted them and they

had to launch early, with barely enough fuel to

get them past their target. After the bombing,

some pilots crashed, some were captured, and

many ended up in mainland China and were carried to safety by Chinese villagers, being hunted by Japanese forces all the while. With tales of high-flying action and bravery, *Raid of No Return* is a story of heartbreak and survival during wartime.

R. Kikuo Johnson has created an intimate and compelling graphic novel-length drama of young men on the cusp of adulthood. First-rate prep school, S.U.V., and a dream house in the heights: This was the island paradise handed to Loren Foster when he moved to Hawaii with his father six years ago. Now, with the end of high school just around the corner, his best friend, Shane, has grown distant. The rumors say it's hard drugs, and Loren suspects that Shane has left him behind for a new group of friends. What sets Johnson's drama apart is the

---

naturalistic ease with which he explores the relationships of his characters. It is at once an unsentimental portrait of that most awkward period between adolescence and young adulthood and that rarest of things: a mature depiction of immature lives.

A sweeping history of Islam and the West from the seventh century to today Europe and the Islamic World sheds much-needed light on the shared roots of Islamic and Western cultures and on the richness of their inextricably intertwined histories, refuting once and for all the misguided notion of a "clash of civilizations" between the Muslim world and Europe. In this landmark book, three eminent historians bring to life the complex and tumultuous relations between Genoans and Tunisians,

---

Alexandrians and the people of Constantinople, Catalans and Maghrebis—the myriad groups and individuals whose stories reflect the common cultural, intellectual, and religious heritage of Europe and Islam. Since the seventh century, when the armies of Constantinople and Medina fought for control of Syria and Palestine, there has been ongoing contact between the Muslim world and the West. This sweeping history vividly recounts the wars and the crusades, the alliances and diplomacy, commerce and the slave trade, technology transfers, and the intellectual and artistic exchanges. Here readers are given an unparalleled introduction to key periods and events, including the Muslim conquests, the collapse of the Byzantine Empire, the

commercial revolution of the medieval Mediterranean, the intellectual and cultural achievements of Muslim Spain, the crusades and Spanish reconquest, the rise of the Ottomans and their conquest of a third of Europe, European colonization and decolonization, and the challenges and promise of this entwined legacy today. As provocative as it is groundbreaking, this book describes this shared history in all its richness and diversity, revealing how ongoing encounters between Europe and Islam have profoundly shaped both.

Discover the Korean War through the eyes of the journalist who covered it in this installment of the New York Times bestselling graphic novel series In 1950, Marguerite Higgins (1920 – 1966) was made bureau chief of the Far East Asia desk for the New York Herald Tribune. Tensions were high on the Korean

peninsula, where a border drawn after WWII split the country into North and South. When the North Korean army crossed the border with Soviet tanks, it was war. Marguerite was there when the Communists captured Seoul. She fled with the refugees heading south, but when the bridges were blown over the Han River, she was trapped in enemy territory. Her eyewitness account of the invasion was a newspaper smash hit. She risked her life in one dangerous situation after another – – all for the sake of good story. Then she was told that women didn ’ t belong on the frontlines. The United States Army officially ordered her out of Korea. She appealed to General Douglas MacArthur, and he personally lifted the ban on female war correspondents, which allowed her the chance to report on many of the major events of the Korean War.
