The Unheard Cry for Meaning The Feminist Press at CUNY
In our age of depersonalization, Frankl teaches the value of living to the fullest. Upon his death in 1997, Viktor E. Frankl was lauded as one of the most influential thinkers of our time. The Unheard Cry for Meaning marked his return to the humanism that made Man's Search for Meaning a bestseller around the world. In these selected essays, written between 1947 and 1977, Dr. Frankl illustrates the vital importance of the human dimension

in psychotherapy. Using a wide range of subjects—including sex, morality, modern literature, competitive athletics, and philosophy—he raises a lone voice against the pseudo-humanism that has invaded popular psychology and psychoanalysis. By exploring mankind's remarkable qualities, he brilliantly celebrates each individual's unique potential, while preserving the invaluable traditions of both Freudian analysis and behaviorism.

A Diplomat's Memoir of 1870 Random House

Now including an excerpt from *Lust & Wonder*, a new memoir coming in March 2016. *Running with Scissors* is the true story of a boy whose mother (a poet with delusions of Anne Sexton) gave him away to be raised by her psychiatrist, a dead-ringer for Santa and a lunatic in the bargain. Suddenly, at age twelve, Augusten Burroughs found himself living in a dilapidated Victorian in perfect squalor. The doctor's bizarre family, a few patients, and a pedophile living in the backyard shed completed the

tableau. Here, there were no rules, there was no school. The Christmas tree stayed up until summer, and Valium was eaten like Pez. And when things got dull, there was always the vintage electroshock therapy machine under the stairs.... Running with Scissors is at turns foul and harrowing, compelling and maniacally funny. But above all, it chronicles an ordinary boy's survival under the most extraordinary circumstances.

The Language of the Unheard Baker Books

Martin Luther King once observed that 'a riot' is, at bottom, the language of the unheard. Change does not come from above. The history of social justice and change has been written by social movements. However, first, we must all acknowledge these problems as our problems and not someone else's. An enriching, provocative book challenging us all to 'hear' the individual voices of those relegated to the edges of society. Falzon uses potent poetry as well as prose to bring the marginalized to life. A must read for everyone, particularly those with a genuine interest in social justice for all. New passions are coming to the surface in societies around the globe. Popular uprisings and social critiques are emerging in response to disempowerment, exclusion and the dismantling of public services and disinvestment in public goods. Martin Luther King once observed that: "a riot is, at bottom, the language of the unheard"; a cold shoulder comes at a price...This book explores

some of stories that lie at the heart of the current upheavals, from the perspective of a country that is still yet to resolve its fundamental contradiction of invasion and colonisation, opting instead for a paternalistic and punitive programme of control over its First Peoples. Dr John Falzon is an advocate for a more equitable society. He trained in sociology and poetics. Falzon has worked in academia, research and advocacy in civil society organisations and community development. He has been the Chief Executive of the St Vincent de Paul Society in Australia since 2006. He has been a poet since 1973.

Memoir of Bryan Higgins, M. D. and of William Higgins, Professor of Chemistry to the Royal Dublin Society Simon and Schuster

An eloquent, restless, and enlightening memoir by one of the most thought-provoking journalists today about growing up Black and queer in America, reuniting with the past, and coming of age their own way. One of nineteen children in a blended family, Hari Ziyad was raised by a Hindu Hare K???a mother and a Muslim father. Through reframing their own coming-of-age story, Ziyad takes readers on a powerful journey of growing up queer and Black in Cleveland, Ohio, and of navigating the equally complex path toward finding their true self in New York City. Exploring childhood, gender, race, and the trust that is built, broken, and repaired through generations, Ziyad investigates what it means to live beyond the limited narratives Black children are given and challenges the irreconcilable binaries that restrict them. Heartwarming and heart-wrenching, radical and reflective, Hari Ziyad's vital memoir is for the outcast, the unheard, the unborn, and the dead. It offers us a new way to think about survival and the necessary disruption of social norms. It looks back in tenderness as well as justified rage, forces us to address where we are now, and, born out of hope, illuminates the possibilities for the future.

If a Tree Falls St. Martin's Press

This is not your mother's memoir. In *The Chronology of Water*, Lidia Yuknavitch, a lifelong swimmer and Olympic hopeful escapes her raging father and alcoholic and suicidal mother when she accepts a swimming scholarship which drug and alcohol addiction eventually cause her to lose. What follows is promiscuous sex with both men and women, some of them famous, and some of it S&M, and Lidia discovers the power of her sexuality to help her forget her pain. The forgetting doesn't last, though, and it is her hard-earned career as a writer and a teacher, and the love of her husband and son, that ultimately create the life she needs to survive.

A darkly funny thriller about one boy's attempt to unravel the mysterious phenomenon affecting students in his new town, as he finds a way to resist sinister forces and pursue hope for them all. Wallace Cole is perpetually moving against his will. His father has some deeply important job with an energy company that he refuses to explain to Wallace who is, shall we say, suspicious. Not that his father ever listens to him. Just as Wallace is getting settled into a comfortable life in Kentucky, his father lets him know they need to immediately depart for a new job in a small town in Upstate New York which has recently been struck by an outbreak of inexplicable hysterics--an outbreak which is centered at the high school Wallace will attend. In the new town, go from disturbing to worse: trees appear to be talking to people; a school bully, the principal, and the town police force take an instant dislike to Wallace; and the student body president is either falling for him or slipping into the enveloping darkness. *Bright Shining World* is a novel of resistance, of young people finding hope and courage and community in a collapsing world.

The Bhopal gas tragedy, the communal carnage of 1984 and 1989 in Delhi and Bhagalpur, the Orissa supercyclone, among others, are part of collective memory. But, often forgotten are those who actually were affected by these happenings, and others like them, street children, sex workers, dalits, HIV and leprosy patients, the homeless and the famine-stricken. These are people who in many ways are pushed to the outermost, most hopeless margins of society in the name of development and progress. In *Unheard Voices*, civil servant and social activist Harsh Mander draws on his own and his colleagues' experiences; to explore the lives of twenty such people who have survived and coped despite all odds. In Bangalore, for instance, a onetime street child now counsels other such children seeking education and self-employment; in Bhopal, an eleven-year-old has brought up two of his siblings after they were orphaned in the gas leak, at great emotional cost. A young sex worker fights for the rights of her HIV positive sister-workers when their 'home' in Hyderabad's red-light area is demolished. A patient combats the stigma of leprosy by helping to establish a leprosy colony in Ashagram. In Tenali, Andhra Pradesh, a blind musician couple struggles to get land from the government to set up a colony for the blind. Going beyond mere survival, these stories are a testimony of how people have overcome their condition with humbling courage, resilience, and humanism. Marked by understatement and rare warmth, they bring out their determination to seek a better life in the face of enormous suffering. Reaffirming people's creativity

and indomitable spirit, this book challenges all those who despair about India.

The Unheard Picador

Africa has long gripped the American imagination. From the Edenic wilderness of Edgar Rice Burroughs's Tarzan novels to the 'black Zion' of Garvey's Back-to-Africa movement, all manner of Americans - whether white or black, male or female - have come to see Africa as an idealized stage on which they can fashion new, more authentic selves. In this remarkable, panoramic work, David Peterson del Mar explores the ways in which American fantasies of Africa have evolved over time, as well as the role of Africans themselves in subverting American attitudes to their continent. Spanning seven decades, from the post-war period to the present day, and encompassing sources ranging from literature, film and music to accounts by missionaries, aid workers and travel writers, *African American* is a fascinating deconstruction of 'Africa' as it exists in the American mindset.

Unheard Voices HarperCollins

England's controversial #1 best-seller. What brings a child to kill another child? In 1968, at age eleven, Mary Bell was tried and convicted of murdering two small boys in Newcastle upon Tyne,

England. Gitta Sereny, who covered the sensational trial, never believed the characterization of Bell as the incarnation of evil, the bad seed personified. If we are ever to understand the pressures that lead children to commit serious crimes, Sereny felt, only those children, as adults, can enlighten us. Twenty-seven years after her conviction, Mary Bell agreed to talk to Sereny about her harrowing childhood, her terrible acts, her public trial, and her years of imprisonment—to talk about what was done to her and what she did, who she was and who she became. Nothing Bell says is intended as an excuse for her crimes. But her devastating story forces us to ponder society's responsibility for children at the breaking point, whether in Newcastle, Arkansas, or Oregon. A masterpiece of wisdom and sympathy, Gitta Sereny's wrenching portrait of a girl's damaged childhood and a woman's fight for moral regeneration urgently calls on us to hear the cries of all children at risk.

“What kind of Navy officer sits on his ship in the middle of the Mediterranean dreaming of gerbils?” That’s the question that Holly Robinson sets out to answer in this warm and rollicking memoir of life with her father, the world’s most famous gerbil czar. Starting with a few pairs of gerbils housed for curiosity’s sake in the family’s garage, Donald Robinson’s obsession with the “pocket kangaroo” developed into a lifelong passion and second career. Soon the Annapolis-trained Navy commander was breeding gerbils and writing about them for publications ranging from the ever-bouncy *Highlights for Children* to the erudite *Science News*. To support his burgeoning business, the family eventually settled on a remote hundred-acre farm with horses, sheep, pygmy goats, peacocks—and nearly nine thousand gerbils. From part-time model for her father’s bestselling pet book, *How to Raise and Train Pet Gerbils*, to full-time employee in the gerbil

empire’s complex of prefab Sears buildings, Holly was an enthusiastic if often exasperated companion on her father’s quest to breed the perfect gerbil. Told with heart, humor, and affection, *The Gerbil Farmer’s Daughter* is Holly’s ode to a weird and wonderful upbringing and her truly one-of-a-kind father.

Memoir and Official Correspondence of Gen. John Stark St. Martin's Press

“An inspiring, intimate memoir about faith, resilience and the tenacity of love.”—People “In this emotional tale, a young couple see their lives changed in the blink of an eye—and learn to find love again.”—US Weekly Five months pregnant, on a flight to their “babymoon,” Allison Pataki turned to her husband when he asked if his eye looked strange and watched him suddenly lose consciousness. After an emergency landing, she discovered that Dave—a healthy thirty-year-old athlete and surgical resident—had suffered a rare and life-threatening stroke. Next thing Allison knew, she was sitting alone in the ER in Fargo, North Dakota, waiting to hear if her husband would survive the night. When Dave woke up, he could not carry memories from hour to hour, much less from one day to the next. Allison had lost the Dave she knew and loved when he lost consciousness on the plane. Within a few months, she found herself caring for both a newborn and a sick husband, struggling with the fear of what was to come. As a way to make sense of the pain and chaos of their new reality, Allison started to write daily letters to Dave. Not only would she

work to make sense of the unfathomable experiences unfolding around her, but her letters would provide Dave with the memories he could not make on his own. She was writing to preserve their past, protect their present, and fight for their future. Those letters became the foundation of this beautiful, intimate memoir. And in the process, she fell in love with her husband all over again. This is a manifesto for living, an ultimately uplifting story about the transformative power of faith and resilience. It's a tale of a man's turbulent road to recovery, the shifting nature of marriage, and the struggle of loving through pain and finding joy in the broken places. Praise for *Beauty in the Broken Places* "Bold and commendable . . . A strength of this memoir is [Allison Pataki's] scrupulous honesty."—USA Today "A memoir about . . . determination and gratitude, and the value of putting one foot in front of another during a crisis."—The Washington Post "Heart-wrenching."—Women's Health "Powerful and immersive . . . Pataki delivers an insightful look at how two people faced a life-altering test as a team 'fighting to make the dreams of our future possible.'"—Publishers Weekly (starred review)

Miscellaneous works of E. G. ... With memoirs of his life and writings; composed by himself; illustrated from his letters, with occasional notes and narrative by John Holroyd Lord Sheffield Knopf

A revealing memoir of a family and a "wrenching journey into deafness from the standpoint of a mother, a wife, a daughter, a philosopher, and a Jew" (Ilan Stavans, author of *On Borrowed Words: A Memoir of Language*). When her daughters were born deaf, Jennifer Rosner was stunned. Then she discovered a hidden

history of deafness in her family, going back generations to the Jewish enclaves of Eastern Europe. Traveling back in time in her mind, she imagined her silent relatives, who showed surprising creativity in dealing with a world that preferred to ignore them. Here, in a "gentle meditation on sound and silence, love and family" Rosner shares her journey into the modern world of deafness, and the controversial decisions she and her husband made about hearing aids, cochlear implants and sign language (Publishers Weekly). Punctuated by memories of being unheard, Rosner's imaginative odyssey of dealing with her daughters' deafness is at its heart a story of whether she—a mother with perfect hearing—can ever truly hear her children.

NPR's Best Books of 2020 BookPage's Best Books of 2020 Real Simple's Best Books of 2020 Boston.com readers voted one of Best Books of 2020 "Anyone striving to understand and improve this country should read her story." —Gloria Steinem, author of *My Life on the Road* The Emmy Award-winning journalist and anchor of NPR's *Latino USA* tells the story of immigration in America through her family's experiences and decades of reporting, painting an unflinching portrait of a country in crisis in this memoir that is "quite simply beautiful, written in Maria Hinojosa's honest, passionate voice" (BookPage). Maria Hinojosa is an award-winning journalist who, for nearly thirty years, has reported on stories and communities in America that often go ignored by the mainstream media—from tales of hope in the South Bronx to the unseen victims of the War on Terror and the first detention camps in the US. Bestselling author Julia Álvarez has called her "one of the most important, respected, and beloved cultural

leaders in the Latinx community.” In *Once I Was You*, Maria shares her intimate experience growing up Mexican American on the South Side of Chicago. She offers a personal and illuminating account of how the rhetoric around immigration has not only long informed American attitudes toward outsiders, but also sanctioned willful negligence and profiteering at the expense of our country’s most vulnerable populations—charging us with the broken system we have today. An urgent call to fellow Americans to open their eyes to the immigration crisis and understand that it affects us all, this honest and heartrending memoir paints a vivid portrait of how we got here and what it means to be a survivor, a feminist, a citizen, and a journalist who owns her voice while striving for the truth. The Chronology of Water The Unheard

Two sisters reckon with their toxic parents through the decline and death of their outlandishly tyrannical mother and with the care of their psychologically terrorized father, all relayed with dark humor and brutal honesty in this award-winning “brilliantly-written memoir... [that] reads like a novel” (best-selling author Margaret Atwood via Twitter). When her elderly mother is hospitalized unexpectedly, Vicki Laveau-Harvie and her sister travel to their parents' ranch home in Alberta, Canada, to help their father. Estranged from their parents for many years, they are horrified by what they discover on their arrival. For years their mother has camouflaged her manic delusions and savage unpredictability, and over the decades she has managed to shut herself and her husband away from the outside world, systematically starving him and making him a virtual prisoner in his own home. Rearranging their lives to be the daughters they were never allowed to be, the sisters focus their efforts on helping their father cope with the unending manipulations of their mother and encounter all the pressures that come with caring for elderly parents. And at every step they have to contend with their mother, whose favorite phrase during their childhood was: "I'll get you and you won't even know I'm doing it." Set against the natural world of the Canadian foothills ("in winter the cold will kill you, nothing personal"),
