The Penguin Guide to the United States Constitution Cambridge University Press
Newbery Honor-winning Jean

Fritz highlights one of America's most important founding father. In the days before microphones and TV interviews, getting people to listen to you was not an easy task. But James Madison used his quiet eloquence, intelligence, and passion for unified colonies to help shape the Constitution, steer America through the turmoil of two wars, and ensure that our government, and nation, remained intact. "An excellent, fascinating, indispensable resource." —Kirkus Reviews, pointer review "The book is rich in the sort of detail that illuminates the man, but is not limited to personal information; a great deal of government history is woven into the biography." —Horn Book, starred review "Fritz has given a vivid picture of the man and an equally vivid picture of the problems that faced the leaders of the new nation in the formative years." —The Bulletin of the Center for Children's Books, starred review "Young readers will feel like they know the 'Great Little Madison' very well." —School Library Journal
Uncovering Texas Politics in the 21st Century Cambridge University Press
What is the President, Congress, and the Supreme Court really allowed to do? This unique and handy guide includes the documents that guide our government, annotated with accessible explanations from one of America's most esteemed constitutional scholars. Known across the country for his appearance on The Daily Show with Jon Stewart, Professor Richard Beeman is one of the nation's foremost experts on the

United States Constitution. In this book, he has produced what every American should have: a compact, fully annotated copy of the Declaration of Independence, the Constitution and amendments, all in their entirety. A marvel of accessibility and erudition, the guide also features a history of the making of the Constitution with excerpts from The Federalist Papers and a look at crucial Supreme Court cases that reminds us that the meaning of many of the specific provisions of the Constitution has changed over time.

"Excellent . . . valuable and judicious." -Jill Lepore, *The New Yorker*

Illustrations.

The Spirit of Laws Bloomsbury Publishing USA

U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form

the American experience, with particular attention to issues of race, class, and gender.

Publishing

Republican presidential candidate and former congressman Joe Walsh argues that Americans must treat Donald Trump like a threat unlike this country has seen: a self-obsessed strongman who resembles a leader of China or Russia more than the United States, and an existential danger to conservatism, the presidency, and national unity. Republican presidential candidate and former congressman Joe Walsh is as rock-ribbed a conservative as they come. But he believes that no right-wing policy victory is worth the loss of our very democracy. In this clear-eyed and unsparing book, Walsh makes the case that Trump has more in common with the foreign dictators he praises publicly than a predecessor like Ronald Reagan. Trump has violated the Constitution in plain sight, assaulted democratic institutions, overwhelmed the country with disinformation, erected around him a cult of personality, and governed according to his narcissism more than any discernable political philosophy. This is the behavior of a strongman--the type of person the Founders tried to prevent from ever becoming president. Though Walsh agrees with Trump that the Washington elite has hung working-class America out to dry, traveling down the road to despotism is no response. For the first time in our history, a person who places himself above the rule of law and

accountability sits in the Oval Office--all that's missing is a big, beautiful throne behind the Resolute Desk. Joe Walsh challenges his countrymen, especially his fellow conservatives, to acknowledge and oppose this unpatriotic and unAmerican behavior before we give away what made America great in the first place: our democracy.

F*ck Silence Government Printing Office

All elementary school students learn about the history of the U.S.

Constitution when they begin social studies. This book tells them about the great American document itself--explaining exactly what the Constitution does as well as how it affects and protects people today.

Reading Like a Historian Penguin

Reproducible pages designed to teach children about the United States Constitution through a language arts approach.

The Living U.S. Constitution McGraw Hill Professional
Rule of law and constitutionalist ideals are understood by many, if not most, as necessary to create a just political order.

Defying the traditional division between normative and positive theoretical approaches, this book explores how political reality on the one hand, and constitutional ideals on the other, mutually inform and influence each other. Seventeen chapters from leading

international scholars cover a diverse range of topics and case studies to test the hypothesis that the best normative theories, including those regarding the role of constitutions, constitutionalism and the rule of law, conceive of the ideal and the real as mutually regulating.

Our Federal Constitution, Our Indiana Constitution Broadside Books

A New Statesman Book of the Year “ America ’ s greatest historian of democracy now offers an extraordinary history of the most bizarre aspect of our representative democracy—the electoral college...A brilliant contribution to a critical current debate. ”

—Lawrence Lessig, author of *They Don ’ t Represent Us*

Every four years, millions of Americans wonder why they choose their presidents through an arcane institution that permits the loser of the popular vote to become president and narrows campaigns to swing states. Congress has tried on many occasions to alter or scuttle the Electoral College, and in this master class in American political history, a renowned Harvard professor explains its confounding persistence. After tracing the tangled origins of the Electoral College back to the Constitutional Convention,

Alexander Keyssar outlines the constant stream of efforts since then to abolish or reform it. Why have they all failed? The complexity of the design and partisan one-upmanship have a lot to do with it, as do the difficulty of passing constitutional amendments and the South's long history of restrictive voting laws. By revealing the reasons for past failures and showing how close we've come to abolishing the Electoral College, Keyssar offers encouragement to those hoping for change.

“ Conclusively demonstrates the absurdity of preserving an institution that has been so contentious throughout U.S. history and has not infrequently produced results that defied the popular will. ”

—Michael Kazin, *The Nation*

“ Rigorous and highly readable...shows how the electoral college has endured despite being reviled by statesmen from James Madison, Thomas Jefferson, and Andrew Jackson to Edward Kennedy, Bob Dole, and Gerald Ford. ”

—Lawrence Douglas, *Times Literary Supplement*

They Called Us Enemy: Expanded Edition Scholastic Inc.

Many of the political issues we struggle with today have their roots in the US Constitution.

Husband-and-wife team Cynthia and Sanford Levinson take readers back to the creation of this historic document and discuss how contemporary problems were first introduced—then they offer possible solutions. Think Electoral College, gerrymandering, even the Senate. Many of us take these features in our system for granted. But they came about through haggling in an overheated room in 1787, and we're still experiencing the ramifications. Each chapter in this timely and thoughtful exploration of the Constitution's creation begins with a story—all but one of them true—that connects directly back to a section of the document that forms the basis of our society and government. From the award-winning team, Cynthia Levinson, children's book author, and Sanford Levinson, constitutional law scholar, *Fault Lines in the Constitution* will encourage exploration and discussion from young and old readers alike. THE WORDS WE LIVE BY takes an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, gun control, and affirmative action. In THE WORDS WE LIVE BY, Linda Monk probes the idea that the Constitution may seem to offer cut-and-dried answers to questions regarding personal rights, but the interpretations of this hallowed document are nearly infinite. For example, in the debate over gun control, does "the right of the people to bear arms" as stated in the Second Amendment pertain to individual citizens or regulated militias? What do scholars say?

Should the Internet be regulated and censored, or does this impinge on the freedom of speech as defined in the First Amendment? These and other issues vary depending on the interpretation of the Constitution. Through entertaining and informative annotations, THE WORDS WE LIVE BY offers a new way of looking at the Constitution. Its pages reflect a critical, respectful and appreciative look at one of history's greatest documents. THE WORDS WE LIVE BY is filled with a rich and engaging historical perspective along with enough surprises and fascinating facts and illustrations to prove that your Constitution is a living and entertaining document. Updated now for the first time, THE WORDS WE LIVE BY continues to take an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, and affirmative action.

American Government 3e
N á m

This is a new release of the original 1937 edition. Learn about the United States Black & white print. American Government 3e aligns with the topics and objectives of many government courses. Faculty involved in the project have endeavored to make government workings, issues, debates, and impacts meaningful and

memorable to students while maintaining the conceptual coverage and rigor inherent in the subject. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. In order to help students understand the ways that government, society, and individuals interconnect, the revision includes more examples and details regarding the lived experiences of diverse groups and communities within the United States. The authors and reviewers sought to strike a balance between confronting the negative and harmful elements of American government, history, and current events, while demonstrating progress in overcoming them. In doing so, the approach seeks to provide instructors with ample opportunities to open discussions, extend and update concepts, and drive deeper engagement. Constitutionalism and the Rule of Law Simon and Schuster This invaluable book updated the study of constitutional law with the addition of twenty contemporary Supreme Court cases dealing with such controversial topics as the

legislative veto, stop-and-frisk, “ set the Cuban Missile Crisis.

asides ” to benefit minorities, and hate speech. Beginning with the story of the forming of the Constitution, it includes illuminating character sketches of the delegates written by their contemporaries, as well as the complete text of the Constitution itself. The Supreme Court decisions that the author cites were selected for their variety and complexity, and because they shed light on the problems that arise under the rule of the Constitution and the interpretations of that rule. This third edition was prepared by Jacob W. Landynski, an expert on constitutional law and a longtime colleague at the New School for Social Research of the original author, the outstanding historian and political scientist Saul K. Padover. Besides adding twenty additional cases, Professor Landynski re-edited the existing cases and rewrote the case introductions throughout in order to make the book as informative and concise as possible. The result is a unique and important contribution toward understanding the document upon which our nation is founded.

What Is the Constitution?
