The fascinating history of a Baltic empire ' s dominance and decline—excerpted from internationally bestselling author Norman Davies ' s *Vanished Kingdoms* *Vanished Kingdoms* introduces readers to once-powerful European empires that have left scant traces on the modern map. In this excerpt from his widely acclaimed book, Norman Davies tells the ill-fated story of the Grand Duchy of Lithuania. Founded in the mid-thirteenth century in one of the continent ' s first settled regions, where the oldest of its Indo-European languages is spoken, the Grand Duchy at its peak was the largest country in Europe, stretching from the Baltic to the Black Sea, and it commanded yet greater influence after uniting with its western neighbor, the Kingdom of Poland, to form the Polish-Lithuanian Commonwealth. The Grand Duchy ' s huge territory included the great cities of Kiev, Vilnius, Riga, Minsk, and Brest. Despite being ahead of its time as an elective republic in an age of absolute monarchy, power struggles

Based on a nationwide survey and confidential interviews with more than three thousand men, bestselling author of *For Women Only*, Shaunti Feldhahn, has written a startling and unprecedented exploration of how men in the workplace tend to think, which even the most astute women might otherwise miss. In *The Male Factor*, Feldhahn investigates and quantifies the private thoughts that men almost never publicly reveal or admit to, but that every woman will want to know. Never before has an author gotten inside the hearts and minds of men in the workplace—from CEOs to managers, from lawyers to factory workers—to get a comprehensive and confidential picture of what men commonly think about their female colleagues, how they view flextime and equal compensation, what their expected “rules” of the workplace are, what managing emotion means, and how that lowcut top is

perceived. Because the men in the surveys and interviews were guaranteed anonymity, they talk in a candid and uncensored way about their daily interactions with women bosses, employees, and colleagues, as well as what they see as the most common forces of friction and misunderstanding between men and women at work. Among the subjects *The Male Factor* tackles are:

- how men, with rare exception, view almost any emotional display as a sign that the person can no longer think clearly—as well as what they perceive to be “emotion” in the first place (it’s not just crying)
- why certain trendy clothes that women wear may create a career-sabotaging land mine in terms of how male colleagues perceive them
- the unintentional signals that can change a man’s perception of a woman from “assertive and competent” to “difficult”

Women will likely be surprised, even shocked, by these revelations. Some may find them challenging. Yet what they will gain is an invaluable understanding of how their male bosses, colleagues, subordinates, and customers react to a host of situations—as well as the ability to correct common misperceptions. *The Male Factor* offers a unique road map to what men in the workplace are thinking, allowing women the opportunity to decide for themselves how to use the insights Feldhahn reveals.

Light in the Shadow of Jihad Thomas Nelson

First written down in the eighth century AD, these early Irish stories depict a far older world - part myth, part legend and part history. Rich with magic and achingly beautiful, they speak of a land of heroic battles, intense love and warrior ideals, in which the otherworld is explored and men mingle freely with the gods. From the vivid adventures of the great Celtic hero Cu Chulainn, to the stunning 'Exile of the Sons of Uisliu' - a tale of treachery, honour and romance - these are masterpieces of passion and vitality, and form the foundation for the Irish literary tradition: a mythic legacy that was a powerful influence on the work of Yeats, Synge and Joyce.
