The Waves is a 1931 novel by Virginia Woolf. It is considered by many to be her most experimental work, and consists of soliloquies spoken by the book's six characters: Bernard, Susan, Rhoda, Neville, Jinny, and Louis. Also important is Percival, the seventh character, though readers never hear him speak in his own voice. The soliloquies that span the characters' lives are broken up by nine brief third-person interludes detailing a coastal scene at varying stages in a day from sunrise to sunset. As the six characters or "voices" speak Woolf explores concepts of individuality, self and community. Each character is distinct, yet together they compose (as Ida Klitgård has put it) a gestalt about a silent central consciousness. In a 2015 poll conducted by BBC, The Waves was voted the 16th greatest British novel ever written.

### The Waves Virginia Woolf Read Books Ltd

Born into a distinguished intellectual family in 1882, Virginia Woolf became a leading member of the 'Bloomsbury Group', writers who eschewed Victorian formality and sought the re-birth of the novel by rejecting conventional norms and concentrating instead on what Woolf termed "the innermost flame" - a deeply psychological perspective highlighting the mind's attempts to translate experience into language and meaning. The Waves is Woolf's most ambitious and experimental novel, focusing on how our personalities are moulded by our contact with others. Divided into nine sections, each symbolised by the passage of the sun on a single day, it follows the lives of six friends - all very different personalities - who themselves may stand for the several 'voices' present in our own minds. The untimely death of one of the friends forces the survivors to take stock of their own lives and the reality of death. In dream-like, lyrical prose, Woolf gives the reader a window into the thoughts and passions of these six friends, and the manner in which each gradually comes to terms with the mystery of existence.

Adeline Virginia Woolf (1882-1941) was an English writer. She is widely hailed as being among the most influential modernist authors of the 20th century and a pioneer of stream of consciousness narration. Woolf was a central figure in the feminist criticism movement of the 1970s, her works having inspired countless women to take up the cause. She suffered numerous nervous breakdowns during her life primarily as a result of the deaths of family members, and it is now believed that she may have suffered from bipolar disorder. In 1941, Woolf drowned herself in the River Ouse at Lewes, aged 59. This book contains volume I of her collected works, her famous novels "The Years" and "The Waves". The last of Virginia Woolf's novels published during her lifetime. "The Years" (1937) is seemingly epic in scope,

spanning fifty years and the trials and tribulations of an extended family, but remains in-depth and personal focusing on a single day in each chosen year to give the reader a real connection as we watch the characters and relationships evolve and grow through their life time. Arguably her most experimental work, "The Waves" (1931) comprises soliloquies by six characters punctuated by third-person descriptions of a coastal scene. Through her characters, Woolf examines the concepts of self, individuality, and community in a poignant and thoroughly thought-provoking novel. Read & Co. Seminar paper from the year 2007 in the subject English Language and Literature Studies - Literature, grade: 2, University of Bamberg (Lehrstuhl für Englische Literaturwissenschaft), course: Virginia Woolf, language: English, abstract: Originally, what later became The Waves was called The Moths. Virginia Woolf began writing it on July 2nd 1929 . It underwent drastic changes during the writing and revising processes, that lasted until the year 1931, when it was eventually published by The Hogarth Press- the Woolf ?s own publishing house. The Waves certainly and rightfully is regarded as Virginia Woolf ?s most abstract and experimental, therefore least accessible novel. The 'story' is told through 'dramatic soliloquies' spoken by the six characters Rhoda, Jinny, Bernard, Susan, Neville and Louis. There is no real, direct interaction and talks between these characters, but they mean a lot to each other and bond from their common childhood onwards. A seventh character, Percival, is introduced to the reader by the monologues of the six, he never speaks for himself, though. The whole plot is enclosed in a scene, that can be found daily all around the world: a sunrise over the ocean and the nearby beach, as well as a garden/nature scenery. Each of these interposed chapters symbolizes a stage of life the protagonists are now at and the developments they face. The main questions I will ask and set out to answer are what the theme of waves and water are supposed to symbolize and what role nature, ubiquitous in this novel, plays and signifies for the respective characters during their childhood. These questions appear to be central for the understanding of this piece of writing, as they do not occur in any of Woolfe ?s other works I have read so far. I will also try to analyze the importance of the friends the characters have made and their feelings during the farewell dinner for Percival. Firstly, I will give a general overview about the way the novel is conceived. Secondly,

One of Woolf's most experimental novels, The Waves presents six characters in monologue - from morning until night, from

childhood into old age - against a background of the sea. The result is a glorious chorus of voices that exists not to remark on the passing of events but to celebrate the connection between its various individual parts.

Eric Warner places The Waves in the context of Virginia Woolf's career and of the 'modern' age in which it was written. He examines how she came to write the novel, what her concerns were at the time, and how it is linked both in style and theme with her earlier, more accessible works. A final chapter explores the problematic relation of the book to the genre of the novel.
