"Virginia Woolf's
extraordinary last novel,
Between the Acts, was
published in July 1941. In the
weeks before she died in
March that year, Woolf wrote
that she planned to continue
revising the book and that it
was not ready for publication.
Her husband prepared the
work for publication after her
death, and his revisions have
become part of the text now
widely read by students and

scholars. Unlike most previous
editions, the Cambridge
edition returns to the final
version of the novel as Woolf
left it, examining the stages of
composition and publication.
Using the final typescript as a
guide, this edition fully collates
all variants and thus accounts
for all the editorial decisions
made by Leonard Woolf for
the first published edition.
With detailed explanatory
notes, a chronology and an
informative critical
introduction, this volume will
allow scholars to develop a
fuller understanding of
Woolf's last work"--

Natural World is a compilation
of thirty-one essays presented
at the twentieth annual

Virginia Woolf. This volume
explores Woolf's complex
engagement with the natural
world, an engagement that was
as political as it was aesthetic.
The diversity of topics within
this collection-ecofeminism, the
nature of time, the nature of
the self, nature and sporting,
botany, climate, and
landscape, just to name a few-
fosters a deeper understanding
of the nature of nature in
Woolf's works. Contributors
include Bonnie Kime Scott,
Carrie Rohman, Diana

Swanson, Elisa Kay Sparks, Beth Rigel Daugherty, Jane Goldman, and Diane Gillespie, among many others from the international community of Woolf scholars.

The Waves Hyweb Technology Co. Ltd. Seminar paper from the year 2007 in the subject English Language and Literature Studies - Literature, grade: 2, University of Bamberg (Lehrstuhl für Englische Literaturwissenschaft), course: Virginia Woolf, language: English, abstract: Originally, what later became *The Waves* was called *The Moths*. Virginia Woolf began writing it on July 2nd 1929. It underwent drastic changes during the writing and revising processes, that lasted until the year 1931, when it was eventually published by The Hogarth Press- the Woolf's own publishing house. *The Waves* certainly and rightfully is regarded as Virginia Woolf's most abstract and experimental, therefore least accessible novel. The 'story' is told through 'dramatic soliloquies' spoken by the six characters Rhoda, Jinny, Bernard, Susan,

Neville and Louis. There is no real, direct interaction and talks between these characters, but they mean a lot to each other and bond from their common childhood onwards. A seventh character, Percival, is introduced to the reader by the monologues of the six, he never speaks for himself, though. The whole plot is enclosed in a scene, that can be found daily all around the world: a sunrise over the ocean and the nearby beach, as well as a garden/nature scenery. Each of these interposed chapters symbolizes a stage of life the protagonists are now at and the developments they face. The main questions I will ask and set out to answer are what the theme of waves and water are supposed to symbolize and what role nature, ubiquitous in this novel, plays and signifies for the respective characters during their childhood. These questions appear to be central for the understanding of this piece of writing, as they do not occur in any of Woolfe's other works I have read so far. I will also try to analyze the importance of

the friends the characters have made and their feelings during the farewell dinner for Percival. Firstly, I will give a general overview about the way the novel is conceived. Secondly, I will present the main characters and their general characteristics and then give the plot of the novel. After that, I will examine the role of the waves and the beach scenery in the novel and what nature means to the individual characters and their lives. Eventually, the focus will lie on what the reunion on the occasion of Percival's imminent departure, set years after their last encounter, means to the characters and whether time and distance have alienated them from each other and nature. I will achieve these goals by the technique of 'close reading', ie. the approach to this study will mainly be text-based and contrastive.

The Waves is a 1931 novel by Virginia Woolf. It is considered by many to be her most experimental work, and consists of soliloquies spoken by the book's six characters: Bernard, Susan, Rhoda, Neville, Jinny, and Louis. Also important is Percival, the seventh character, though readers never hear him speak in

his own voice. The soliloquies that span the characters' lives are broken up by nine brief third-person interludes detailing a coastal scene at varying stages in a day from sunrise to sunset. As the six characters or "voices" speak Woolf explores concepts of individuality, self and community. Each character is distinct, yet together they compose (as Ida Klitgård has put it) a gestalt about a silent central consciousness.

Virginia Woolf Read Books Ltd "I am made and remade continually. Different people draw different words from me." Innovative and deeply poetic, *The Waves* is often regarded as Virginia Woolf's masterpiece. It begins with six children—three boys and three girls—playing in a garden by the sea, and follows their lives as they grow up, experience friendship and love, and grapple with the death of their beloved friend Percival.

Instead of describing their outward expressions of grief, Woolf draws her characters from the inside, revealing their inner lives: their aspirations, their triumphs and regrets, their awareness of unity and isolation.

Published by Hogarth Press in 1928, Orlando is at once an oddity, an indulgence, but also a slice of genius. The novel – because despite masquerading as a biography, it is a work of narrative fiction – tells the unlikely, impossible story of Orlando through his years as a male member of the Elizabethan Court, an affair with a Russian Princess, a subdued period of contemplation during the reign of James I, his time as an ambassador in Constantinople and the sudden transformation into a woman. Not content with such a plot twist Woolf allows her character to live on through the eighteenth and nineteenth centuries, using the journey to trace the female place in society while allowing Orlando the freedom to seduce, be seduced and to love in equal measure. After 80,000 words, Woolf leaves her heroine in the England of 1928 having completed a poem, *The Oak Tree*, that had been started some four centuries earlier. The last two decades have seen a resurgence of critical and popular attention to Virginia Woolf's life and work. Such traditional institutions as *The New York Review of Books* now pair her with William Shakespeare in promotional advertisements; her face is used to sell everything from Barnes & Noble books to Bass Ale. *Virginia Woolf: Lesbian Readings* represents the first book devoted to Woolf's lesbianism. Divided into two sections, *Lesbian Intersections* and *Lesbian Readings of Woolf's Novels*, these essays focus on how Woolf's private and public experience and knowledge of same-sex love influences her shorter fiction and novels. *Lesbian Intersections* includes personal narratives that trace the experience of reading Woolf

through the 60s, 70s, 80s, and 90s. *Lesbian Readings of Woolf's Novels* provides lesbian interpretations of the individual novels, including *Orlando*, *The Waves*, and *The Years*. Breaking new ground in our understanding of the role Woolf's love for women plays in her major writing, these essays shift the emphasis of lesbian interpretations from Woolf's life to her work.

"In 2006 Katie Mitchell and her collaborators devised an original work for the National Theatre which

seamlessly transposed the pointillist vision of Virginia Woolf's experimental novel *The Waves* into an entirely new form. The intertwining narrative of six friends - from childhood to maturity and beyond - was rendered into a series of beautiful and poignant images onto a screen by live actors and musicians incorporating techniques taken from the theatre, radio and video production." "The book combines the text used from Woolf's novel with the corresponding images in order to create a record of the production, and a work of art in its own right." --BOOK JACKET.
