Iconoclasts of the Counterculture In the '60s, there were flower children, there were hippies, and then there were Oberon Zell and his soulmate, Morning Glory. The first people to reclaim the word "Pagan" to define the profound spiritual identity they helped create, Oberon and Morning Glory were true pioneers whose indelible influence on modern society has only been understood by those closest to them . . . until now. In *The Wizard and the Witch*, the Zell's close friend and associate John Sulak shares the amazing stories of two people, along with their far-reaching community of friends and lovers, who managed to evolve their spirits and their lives in ways never before imagined. Without ever compromising their radical ideals, Oberon and Morning Glory pushed the boundaries of free speech, free religion, and freedom

of sexual choice. The way this book is written and the way each individual that participated in this expresses themselves is beyond beautiful. The big aspect for me in this book was their openness about their sexuality and the unique connections that they form with those they share their lives with. I feel that this book expresses Love, Sex, Body Image and Connection in a great way. It's not bastardized by a negative religious view but embraced by this positive inclusive view.

The Road to Oz: In Which Is Related How Dorothy Gale of Kansas, The Shaggy Man, Button Bright, and Polychrome the Rainbow's Daughter Met on an Enchanted Road and Followed it All

the Way to the Marvelous Land of Oz. is the fifth of L. Frank Baum's Land of Oz books. It was originally published on July 10, 1909 and documents the adventures of Dorothy Gale's' fourth visit to the Land of Oz. The book was dedicated to Joslyn Stanton Baum, the author's first grandson, the child of Baum's eldest son Frank Joslyn Baum. While Dorothy Gale is at home in Kansas one day, she and her pet dog Toto, meet the Shaggy Man who comes walking past the Gale farm. He is a friendly, yet slightly senile hobo with an optimistic, care free mentality. He politely asks Dorothy for directions to Butterfield, which is the nearest town on the prairie. The girl agrees to

show him the way, bringing her dog with her. Further on, the road splits into seven paths. They take the seventh one and soon find themselves lost in what appears to be another dimension. The trio meets Button-Bright, a cute and wealthy little boy in a sailor's outfit who is always getting lost. Later, the companions encounter Polychrome, the beautiful and ethereal Daughter of the Rainbow who is stranded on earth. Polychrome explains that she accidentally fell off her father's bow while dancing on it. The bow ascended into the atmosphere and back into the clouds before she was able to climb her way back on it, thus being left behind. Dorothy, Toto, the Shaggy Man, Button-Bright, and Polychrome eventually come to the peculiar town of Foxville, where anthropomorphic foxes live. With prompting from King Dox of Foxville, Dorothy deduces that she and Toto are obviously on another "fairy adventure" that will ultimately lead them to magical Land of Oz, just in time for Princess Ozma's royal birthday party, (which is now acknowledged as August 21 by Oz fans, even though the book only refers to the 21st of the month). Dorothy having mentioned that the current month is August in another passage. The king takes a particular liking to Button Bright, whom he considers astute and clever due to his tabula rasa-like mind. Believing that the human

face does not suit one so clever, Dox gives him a fox's head. A similar event subsequently happens to the Shaggy Man, when King Kik-a-Bray of Dunkiton confers a donkey's head upon him- also in reward for cleverness, even though it's implied that Foxville and Dunkiton exist at odds with one another. After meeting the Musicker, who produces music from his breath, and fighting off the Scoodlers, who fight by removing their own heads and throwing them at the travellers, Dorothy and her companions reach the edge of the fatal Deadly Desert completely surrounding Oz. There, the Shaggy Man's friend Johnny Dooit builds a "sand-boat" by which they may cross. This is necessary, because physical contact with the desert's sands, as of this book and *Ozma of Oz* (1907), will turn the travelers to dust. John Rea Neill (November 12, 1877 - September 19, 1943) was a magazine and children's book illustrator primarily known for illustrating more than forty stories set in the Land of Oz, including L. Frank Baum's, Ruth Plumly Thompson's, and three of his own. His pen-and-ink drawings have become identified almost exclusively with the Oz series. He did a great deal of magazine and newspaper illustration work which is not as well known today.

POWER. We all want it, they've got it--witches, warlocks, sorcerers, necromancers, those who peer beneath the veil of mundane reality and put their hands on the levers that move the universe. They see the future in a sheet of glass, summon fantastic beasts, and transform lead into gold...or you into a frog. From Gandalf to Harry Potter, wizardry has never been more exciting and popular. Now acclaimed editor John Joseph Adams brings you thirty-two of the most spellbinding tales ever written, by some of today's most magical talents, including Neil Gaiman, Ursula K. Le Guin, George R.R. Martin, Robert Silverberg, Kelly Link, Nnedi Okorafor, and many more. Enter a world where anything is possible, where imagination becomes reality. Experience the thrill of power, the way of the wizard.

What if you could not only travel any location in the world, but to any possible world? We can all imagine such "other worlds"--be they worlds just slightly different

than our own or worlds full of magic and wonder--but it is only in fiction that we can travel to them. From *The Wizard of Oz* to *The Dark Tower*, from Philip Pullman's *The Golden Compass* to C. S. Lewis's *The Chronicles of Narnia*, there is a rich tradition of this kind of fiction, but never before have the best parallel world stories and portal fantasies been collected in a single volume--until now.
