2011 International Automotive Media Gold Award Winner In the early 1960s, Tommy Ivo had the world in the palm of his hands. Still a young man, he was already a star of television and film with a promising Hollywood future ahead of him. Then his producers told him he had to quit drag racing. He quit the entertainment industry instead. This is the official story of Ivo's incredible life and racing career. Readers will follow "TV" Tommy as he becomes the most ambitious drag racer in the nation, building his own cars in the garage behind his Burbank home; becoming the first driver to pilot his dragsters to 170, 175, and 180 miles per hour and towing his cars to match races at small-town drag strips across the United States. Always the showman, Ivo pioneered promotional techniques that are today taken for granted. In this regard especially, his impact on the sport cannot be understated, and his legacy is detailed in this incredible bio of one of drag racing's most irrepressible characters.

Seeking a quiet spot to write his memoirs, Laurent de Rodergues secludes himself in Saint-Chartier, a village in the heart of France where his grandfather once lived. Yet his tranquil life is soon disturbed by Carlos, an eccentric Irish-Argentine millionaire determined to give the town's medieval ch<sup>^</sup>teau a costly and controversial makeover. Where some see a benefactor, others see a high-handed intruder whose endless renovations have left their music festival without a home. And when the ch<sup>^</sup>teau is unveiled at last, after months of anticipation, the whole town turns out to gaze in wonder - only to find their host lying dead in a pool of blood. Laurent suspects foul play, and when the gendarmes find nothing, he makes it his mission to unmask the murderer. But where to begin? From jilted lovers to jealous rivals, disgruntled employees to shadowy associates - not to mention more than a few angry musicians - practically everyone had a reason to want Carlos dead. As Laurent quickly learns, beneath its idyllic fa<sup>^</sup>ade, the town of Saint-Chartier is rife with resentment and secret passions.

Enter a world in which American millionaires marry British aristocrats-in return for title and social status-and discover why this blockbuster bestselling novel continues to enchant millions of readers. Be careful what you wish for... Newport heiress Cora Cash-beautiful, spirited, and the richest girl in the country-is the closest thing that American society has to a princess in 1893. But her mother wants more, and whisks Cora away to England for the one thing money can't get a woman in the States: a title. When it comes to love Cora makes a dazzling impression on English society-followed by a brilliant match-but finds the chill in the air of magnificent ancestral homes is not solely due to the lack of central heating. Faced with the traps and betrayals of an old-world aristocracy that can trip up even the most charming, accomplished outsider, can Cora grow from a spoiled rich girl into a woman of substance? Witty, moving, and brilliantly entertaining, Daisy Goodwin's *The American Heiress* marks the debut of a glorious storyteller who brings a fresh new spirit to the world of Edith Wharton and Henry James. "Superior...shrewd, spirited historical romance."-Kirkus Reviews (starred review) "Vibrant. . . archly entertaining."-Janet Maslin, *The New York Times*

War is no laughing matter. During a war, however, laughter can play a vital role in sustaining morale, both in the armies at the Front and in their homelands. Among wars, the 1914 – 18 conflict has left a haunting legacy, and remains a central topic in modern European history. This book offers a comparative study of the impact of the war in four countries, and breaks new ground by exploring this through the medium of what their respective populations laughed at. By searching the pages of four humorous-satirical magazines, *Punch* in the UK, *Le Rire* (France), *Simplicissimus* (Germany), and *Novy Satirikon* (Russia), all of which supported the national war efforts, it examines the ways in which humour made an important contribution to the propaganda war. All four magazines were famous for their cartoons, a selection of which is included, but much of the humour was expressed through the written word, in skits, squibs, comic tales, and light verse. Translated into English, these snapshots of the moment are brought together to chart the responses on both sides of the conflict to issues and unfolding events, identifying the stories that nations liked to tell about themselves and also the ones they liked to be told.

In *A Notebook for Viola Players*, Ivo-Jan van der Werff offers a guide to playing the viola with the greatest freedom, dexterity, and ease. It includes right and left hand exercises to build a sound technique, sections on how to practice them, how to hold the viola and bow, how to think about good posture, how to create a good sound, how to play with the least amount of tension, how to deal with anxiety, and thoughts on wellness and practice techniques. Alongside these are photographs and a companion website of video demonstrations of the exercises played by the author, as if in a lesson. Interspersed throughout the book are lively and illuminating anecdotes of van der Werff's own experiences as a student and as a professional musician, as well as a number of blank pages and staff paper for the student to literally 'make notes' and write down their own ideas, offering a space for creative expression using the skills they learn in reading and playing along with the text.

Bringing together decades of teaching and performance experience from one of the most respected figures in viola pedagogy, *A Notebook for Viola Players* is a master class in viola ideal for any player hoping to perfect the fundamental areas of their practice.

From the French Riviera between the wars to a terrifying endgame in World War 2 Occupied France, a gripping story of doomed but triumphant love from the author of *A Wedding in the Olive Garden*. High above the Mediterranean, on the French Riviera, stands a beautiful pink stucco villa. Once a playground for the rich and glamorous, now – in the aftermath of World War 1 – it is a convalescent home for sick and wounded nurses. Here Scottish Flora Garvie is recovering from four traumatic years on the ambulance trains. And here she will meet again charismatic but troubled Kit Carlyle, a regimental chaplain who no longer believes in his calling and certainly doesn't believe himself worthy of Flora's love. Their dramatic rollercoaster of a story will take them through death, separation and war, until a terrifying game of cat and mouse in Occupied France seals their fate. Learn dynamic programming with Julia to build apps for data analysis, visualization, machine learning, and the web Key FeaturesLeverage Julia's high speed and efficiency to build fast, efficient applicationsPerform supervised and unsupervised machine learning and time series analysisTackle problems concurrently and in a distributed environmentBook Description Julia offers the high productivity and ease of use of Python and R with the lightning-fast speed of C++. There ' s never been a better time to learn this language, thanks to its large-scale adoption across a wide range of domains, including fintech, biotech and artificial intelligence (AI). You will begin by learning how to set up a running Julia platform, before exploring its various built-in types. This Learning Path walks you through two important collection types: arrays and matrices. You ' ll be taken through how type conversions and promotions work, and in further chapters you'll study how Julia interacts with operating systems and other languages. You ' ll also learn about the use of macros, what makes Julia suitable for numerical and scientific computing, and how to run external programs. Once you have grasped the basics, this Learning Path goes on to how to analyze the Iris dataset using DataFrames. While building a web scraper and a web app, you ' ll explore the use of functions, methods, and multiple dispatches. In the final chapters, you'll delve into machine learning, where you'll build a book recommender system. By the end of this Learning Path, you ' ll be well versed with Julia and have the skills you need to leverage its high speed and efficiency for your applications. This Learning Path includes content from the following Packt products: Julia 1.0 Programming - Second Edition by Ivo BalbaertJulia Programming Projects by Adrian SalceanuWhat you will learnCreate your own types to extend the built-in type systemVisualize your data in Julia with plotting packagesExplore the use of built-in macros for testing and debuggingIntegrate Julia with other languages such as C, Python, and MATLABAnalyze and manipulate datasets using Julia and DataFramesDevelop and run a web app using Julia and the HTTP packageBuild a recommendation system using supervised machine learningWho this book is for If you are a statistician or data scientist who wants a quick course in the Julia programming language while building big data applications, this Learning Path is for you. Is equality valuable? This question dominates many discussions of social justice, which tend to center on whether certain forms of distributive equality are valuable, such as the equal distribution of primary social goods. But these discussions often neglect what is known as social or relational equality. Social equality suggests that equality is foremost about relationships and interactions between people, rather than being primarily about distribution. A number of philosophers have written about the significance of social equality, and it has also played an important role in real-life egalitarian movements, such as feminism and civil rights movements. However, as it has been relatively neglected in comparison to the debates about distributive equality, it requires much more theoretical attention. This volume brings together a collection of ten original essays which present new analyses of social and relational equality in philosophy and political theory. The essays analyze the nature of social equality, as well as its relationship to justice and politics.
