Although drawn up by the 1646 Westminster Assembly, largely of the Church of England, it became and remains the 'subordinate standard' of doctrine in the Church of Scotland, and has been influential within Presbyterian churches worldwide. In 1643, the English Parliament called upon "learned, godly and judicious Divines", to meet at Westminster Abbey in order to provide advice on issues of worship, doctrine, government and discipline of the Church of England. Their meetings, over a period of five years, produced the confession of faith, as well as a Larger Catechism and a Shorter Catechism. For more than three centuries, various churches around the world have adopted the confession and the catechisms as their standards of doctrine, subordinate to the Bible. The Westminster Confession of Faith was modified and adopted by Congregationalists in England in the form of the Savoy Declaration (1658). Likewise, the Baptists of England modified the Savoy Declaration to produce the Second London Baptist Confession

(1689). English Presbyterians, Congregationalists, and Baptists would together (with others) come to be known as Nonconformists, because they did not conform to the Act of Uniformity (1662) establishing the Church of England as the only legally-approved church, though they were in many ways united by their common confessions, built on the Westminster Confession. *The Westminster Confession of Faith* Ignatius Press Christians have always believed

in the triune God, but they haven't always understood or used the doctrine of the Trinity consistently. In order to form a coherent view of trinitarian theology, it's important for Christians to have a working knowledge of the two legitimate models for explaining this doctrine: Classical – presenting a traditional view of the Trinity, represented by the Baptist theologian Stephen R. Holmes and the

Roman Catholic theologian Paul D. Molnar. Relational – presenting the promise and potential hazards of a relational doctrine, represented by the evangelical theologian Thomas H. McCall and the Baptist philosopher Paul S. Fiddes. In this volume of the Counterpoints series, leading contributors establish their models and approaches to the doctrine of the Trinity (or, the relationship between the

threeness and oneness of the divine life). Each expert highlights the strengths of his view in order to argue how it best reflects the orthodox perspective. In order to facilitate a genuine debate and to make sure that the key issues are revealed, each contributor addresses the same questions regarding their trinitarian methodology, doctrine, and its implications.

The confession is a systematic

exposition of Calvinist orthodoxy (which neo-orthodox scholars refer to as "scholastic Calvinism"), influenced by Puritan and covenant theology. It includes doctrines common to most of Christendom such as the Trinity and Jesus' sacrificial death and resurrection, and it contains doctrines specific to Protestantism such as sola scriptura and sola fide. Its more controversial features include the covenant of works with Adam, the Puritan doctrine that assurance of salvation is not a necessary consequence of faith, a minimalist conception of

worship, and a strict sabbatarianism

Jonathan Edwards is one of the outstanding figures in the history of the Christian church--he was, quite simply, a man of towering intellect and towering spirituality. But it has been noted, even by his friends and admirers, that his thought is also marked at times by certain idiosyncrasies which inevitably introduce certain complexities into his philosophical-theological system. This study contends that the

theme of divine immediacy is the controlling theme and the correlating principle within Edwards's thought. It analyzes the theme of divine immediacy in the thought of Jonathan Edwards under four major heads: creation, the will, ecclesiology, and spiritual experience. Indeed, Dr. Carrick claims that the theme of the immediacy of God is the Ariadne's thread, which runs with consistency through the multiple aspects of Edwards's philosophical, theological, ecclesiological, experiential, and homiletical interests. But sometimes a man's strength is also his

weakness, and it would appear that Edwards's profound commitment to the concept and the reality of the immediacy of God entails significant problems for his entire philosophical-theological system. Edwards's concept of divine immediacy finds its supreme expression, surely, in his doctrine of continuous creation; but is it not the case that this doctrine of continuous creation is in conflict with his determinism, that its tendency is to destroy the moral responsibility of man, and that it makes God both the author and the actor of sin? In short, is it not the case that Edwards's Ariadne's thread is, in fact, also his Achilles'

heel?

with words like “awe” or “fear.” R. C. Sproul, in this classic work, puts the holiness of God in its proper and central place in the Christian life. He paints an awe-inspiring vision of God that encourages Christian to become holy just as God is holy. Once you encounter the holiness of God, your life will never be the same.

The Westminster Confession: A Commentary
Ravenio Books

This volume is the original 1647

version of the Westminster Confession of Faith, and its subordinate documents which comprise the Solemn League and Covenant, the Larger and Shorter Catechisms, the Form of Presbyterial Church Government, and the directories for Public and Private Worship. Also included is the Sum of Saving Knowledge as well as a topical index to all the documents. The Confession and Larger and shorter Catechism are proved by Scripture using the

Authorized Version (the King James) as published in 1647 by the Assembly. Some years later, in 1652, the Larger and Shorter Catechism were also published as proved by the KJV version of Scripture. The 1647 Westminster Confession of Faith is the most precise and theologically rich confession produced by the Christian Church. Though the Christian Church takes the whole Word of God alone as her only rule of faith, she must also frame and promote a statement of what

she understands the Word of God to teach. Thus, the church of Jesus Christ, in contending for the faith once delivered to the saints, should rely on the BEST confession available. This is it! This work is not a scan or facsimile, has been carefully transcribed by hand being made easy to read, and has an active table of contents for electronic versions. *The Theology of the Westminster Standards* Baker Books Furthermore, confessions and

creeds serve to help assure that the doctrinal faith that we articulate today has not subtly changed over time, subject to the warping influence of secular society. Creeds stand as ancient landmarks denoting the "location" of believers' hearts in history. Noting where one deviates from an ancient creed gives a person a distinct idea about where his or her own theological convictions stand in relation to

other believers throughout history. Perhaps this also helps us to discover what direction we are moving. Are we moving closer to Christ? To God's Word? To the heart of God Himself? Or are we moving further away? The confession that I will be recommending to you in this volume is the standard-bearing creed in the Presbyterian or Reformed branch of Christianity. Influenced heavily by the thinking of Reformation

theologian John Calvin (1509-1564), the Westminster Confession (1647) is a confessional exemplar of Reformed theology.² The Westminster Confession of Faith is the premiere example of theological intellectualism absorbed in the beauty of the sovereignty of God. The Westminster Confession, and Calvin before it for that matter, were both completely committed to the

theological concept that God is sovereign over the entire universe. Therefore, as you study this Confession you will undoubtedly encounter the Living God as ruler of the cosmos, the world, the events of your life, and hopefully your heart.

In the opening chapter of the Confession, the divines of Westminster included a clause that implied that

there would no longer be any special immediate revelation from God. Means by which God had once communicated the divine will, such as dreams, visions, and the miraculous gifts of the Spirit, were said to be no longer available. However, many of the authors of the WCF accepted that prophecy continued in their time, and a number of them apparently believed that disclosure of God's will through dreams, visions, and angelic communication remained

possible. How is the cessationist clause of WCF 1:1 to be read in the light of these claims? This book reconciles this paradox in a detailed study of the writings of the authors of the Westminster Confession of Faith. **The Westminster Confession of Faith** Fig Some Christians claim to reject Tradition in preference to a supposedly "Bible only" Christianity. Catholics, on the other hand, venerate Tradition, yet

often without adequately understanding it. In this masterful book, the great theologian Yves Congar explains why Tradition is an inescapable aspect of a fully biblical Christian faith. He explores the various forms of Tradition and discusses the relationship between Scripture and Tradition, as well as the role of the Magisterium of the Church. The Meaning of Tradition clears up misconceptions held by many

Evangelical Christians and even some Catholics on this important subject. Congar's study of Tradition greatly contributed to the teaching of Vatican II and to a deeper appreciation of the Church Fathers.

The Westminster Confession of Faith Zondervan
The Westminster Assembly of Divines was a council of theologians and members of the English Parliament appointed to restructure the Church of England. It was formed in 1643 during the lead up to the First English Civil War by the Long Parliament. This is a concise history, written by Benjamin Warfield, of The Assembly's work between the years 1643 up

until sometime about 1660. From its efforts were produced a new Form of Church Government, a Confession of Faith or statement of belief, two catechisms or manuals for religious instruction (Shorter and Larger), and a liturgical manual for the Churches of England and Scotland. *Westminster Confession of Faith* Christian Focus For centuries, countless Christians have turned to the Westminster

Standards for insights into the Christian faith. These renowned documents—first published in the middle of the 17th century—are still considered by many to be some of the most beautifully written summaries of the Bible’s teaching ever produced. Church historian John Fesko walks readers through the background and theology of the Westminster Confession, the Larger Catechism, and the Shorter Catechism, helpfully situating them within their original context. Organized according to the major categories of systematic theology, this book utilizes quotations

from other key works from the same time period to shed light on the history and significance of these influential documents. **Hold Fast the Faith** Lulu.com In every generation, the Christian church must interpret and restate its bedrock beliefs, answering the challenges and concerns of the day.
