"A fascinating thriller... Linden does a masterly job of integrating intriguing speculative science into a page-turning plot." —Publisher's Weekly, starred review If nature could invent intelligence of our scale in a blink of geologic time, who's to say it hasn't been done before. A routine dig in Kazakhstan takes a radical turn for thirty-two-year-old anthropologist Claire Knowland when a stranger turns up at the site with a bizarre find from a remote section of the desolate Kazakh Steppe. Her initial skepticism of this mysterious discovery gives way to a realization that the find will shake the very foundations of our understanding of evolution and intelligence. Corrupt politics of Kazakhstan force Claire to take reckless chances with the discovery. Among the allies she gathers in her fight to save herself and bring the discovery to light is Sergei Anachev, a brilliant but enigmatic Russian geologist who becomes her unlikely protector even as he deals with his own unknown crisis. Ultimately, Claire finds herself fighting not just for the discovery and her academic reputation, but for her very life as great power conflict engulfs the unstable region and an unscrupulous oligarch attempts to take advantage of the chaos. Drawing on Eugene Linden's celebrated non-fiction investigations into what makes humans different from other species, this international thriller mixes fact and the fantastical, the realities of academic politics, and high stakes geopolitics—engaging the reader every step of the way.

Stuart Wilde, one of the most profound and original thinkers of our time, brings us *Whispering Winds of Change*. *Whispering Winds of Change* will appeal to lovers of alternative ideas and philosophies. Stuart Wilde challenges us to stand outside the usual paradigms of consciousness as "fringe dwellers". He asks us to observe the dying throes of what he calls the "world ego" - the embodiment of the manipulative and dominating force of the status quo. With his characteristic candor and wit, he plots a fascinating comparison between the overall global destiny and an individual's personal, sacred, inner journey. Wilde believes through quieting the ego and creating a rotation out of the three-dimensional world of external reality to the fourth dimension of the inner being, we can each offer serenity and healing to ourselves, and the rest of the world. Like his other books, this work is full of compelling ideas, unusual perceptions, and esoteric concepts for individuals who want to progress inwardly, while making a success of their lives in the external world.

Calvin Woodrow Ruck, born in Sydney, Nova Scotia, to Bajan immigrants, saw roadblocks not as barriers, but as hurdles that he would eventually leap over. From working in the steel plant and as a sleeping car porter to being awarded the Order of Canada and appointed to the Senate of Canada, Calvin worked diligently to ensure that his children, and his children's children, wouldn't have to go through the same things he went through. Although he was turned away from many opportunities, he was determined to provide for his family and took on a heavy workload in the Halifax community.

In 2011, Arab youth took to the streets in their thousands to demand their freedom. Although it is too early to speculate on the ultimate outcome of the uprisings, one auspicious feature stands out: they reveal the genesis of a new generation sparked by the desire for civil liberties, advocacy for human rights, and participatory democracy. This unique volume explores some of the antecedents of the upheavals and anticipates alternative venues of resistance that marginalized youth - from Lebanon, Syria and Palestine to Saudi Arabia, Morocco and Iran - can mobilize to realize their emancipatory expectations. Themes covered include the forging of meaningful collective identities in times of risk and uncertainty; youth militancy, neighborhood violence and youth gangs; the surge of youthful activism; and youths' expressive outlets through popular arts and street music.

Following *Never Again* and *Having It So Good*, the third part of Peter Hennessy's celebrated *Post-War Trilogy* 'By far the best study of early Sixties Britain ... so much fun, yet still shrewd and important' *The Times*, *Books of the Year* Harold Macmillan famously said in 1960 that the wind of change was blowing over Africa and the remaining British Empire. But it was blowing over Britain too - its society; its relationship with Europe; its nuclear and defence policy. And where it was not blowing hard enough - the United Kingdom's economy - great efforts were made to sweep away the cobwebs of old industrial practices and poor labour relations. Life was lived in the knowledge that it could end in a single afternoon of thermonuclear exchange if the uneasy, armed peace of the Cold War tipped into a Third World War. In *Winds of Change* we see Macmillan gradually working out his 'grand design' - how to be part of both a tight transatlantic alliance and Europe, dealing with his fellow geostrategists Kennedy and de Gaulle. The centre of the book is 1963 - the year of the Profumo Crisis, the Great Train Robbery, the satire boom, de Gaulle's veto of Britain's first application to join the EEC, the fall of Macmillan and the unexpected succession to the premiership of Alec Douglas-Home. Then, in 1964, the battle of what Hennessy calls the tweedy aristocrat and the tweedy meritocrat - Harold Wilson, who would end 13 years of Conservative rule and usher in a new era. As in his acclaimed histories of British life in the two previous decades, *Never Again* and *Having it so Good*, Peter Hennessy explains the political, economic, cultural and social aspects of a nation with inimitable wit and empathy. No historian knows the by-ways as well the highways of the archives so well, and no one conveys the flavour of the period so engagingly. The early sixties live again in these pages.

In *The Mage Winds* trilogy, which began with the best-selling novel, *Winds of Fate*, author Mercedes Lackey continues the epic that started with her first published book, *Arrows of the Queen* introduced readers to the remarkable land of Valdemar, the kingdom protected by its Heralds--men and women gifted with extraordinary mind powers--aided and served by their mysterious Companions--horselike beings who know the many secrets of Valdemar's magical heritage. None but the Companions remember the long-ago age when high magic was lost to Valdemar as the last Herald-Mage gave his life to protect his kingdom from destruction by dark sorceries. But now the protective barrier set so long ago over Valdemar is crumbling, and with the realm imperiled by the dark magic of Ancar of Hardorn, Princess Elspeth, Herald and heir to the throne, has gone on a desperate quest in search of a mentor who can teach her to wield her fledgling mage-powers and help her to defend her threatened kingdom.

In recent decades the global wind energy industry has undergone explosive growth, and there is still vast potential for wind to supply more of the world's energy. Though not only is wind power far from reaching its potential, its rise has been uneven and irregular. What factors influence the development of the wind energy industry, and why has it developed successfully in some places but not in others? In *Winds of Change*, Ion Bogdan Vasi argues that the development of wind energy is dependent not only on improvements in technology and economic forces, but also in large part on the efforts of the environmental movement. Vasi defines and analyses three pathways through which the environmental movement has contributed to industry growth: it has influenced the adoption and implementation of renewable energy policies, created consumer demand for clean energy, and changed the institutional logics of the energy sector. Vasi uses quantitative analysis to present the big picture of global wind power development, and qualitative research to understand why certain countries are world leaders in wind energy while others are relatively underdeveloped. Through interviews with renewable energy professionals and campaigners, he shows that environmental groups and activists participated actively in energy policymaking, pressured various organizations to purchase wind power, and formed new companies that specialized in wind-farm development. He also demonstrates that environmentalists contributed to wind turbine manufacturing by becoming entrepreneurs, innovators, and advocates. *Winds of Change* sheds much new light on how wind energy is adopted and why, and demonstrates how activists and social movements can contribute to the creation of new industries.

*Winds of Change: Short Stories about Our Climate* is a diverse collection of eighteen insightful, witty, and emotional short stories about climate change. The selected stories are the result of a short story contest run by Eco-fiction.com in the summer of 2014. In collaboration with 100,000 Poets (Artists/Authors) for Change, Eco-fiction.com engaged authors from Vancouver, BC, and other places around the world, to create speculative fiction about a harsh reality: our planet-at-risk. With a foreword by Michael Rothenberg, *Winds of Change* also includes several poems by Stephen Siperstein and Carolyn Welch. These stories show that engagement fully underway!" -Bill McKibben, founder 350.org [Navigating the Winds of Change](#) Saqi Books (Meredith Music Resource). This new publication is an extension of *The Winds of Change*, that traced the development of the American wind band/ensemble in the twentieth century. This book covers all the important conferences, concerts, events, initiatives, and compositions created for wind bands/ensembles during the first decade of the twenty-first century. In gathering information for this book, the author examined hundreds of scores, listened to dozens of recordings, attended conferences, interviewed wind band/ensemble director-conductors, and surveyed numerous professional journals and magazines. The result is a book that provides a panorama view of the American wind band/ensemble scene from 2000-2010.
