*The Winters* Allen & Unwin Art/Museums takes the study of international relations to the art museum. It seeks to persuade those who study international relations to take art/museums seriously and museum studies to take up the insights of international relations. And it does so at a time when both international relations and art are said to be at an end—that is, out of control and beyond sight of their usual constituencies. The book focuses on the British Museum, the National Gallery of London, the Museum of Iraq, the Museum of Modern Art in New York, the Getty museums, the Guggenheim museums, and "museum" spaces instantly created by the attacks on the World Trade Center in 2001. The art includes works over which museums might struggle, acquire through questionable means, hoard and possibly lose, such as the Parthenon sculptures, Raphael's Madonna of the Pinks, the ancient art of

Babylon, modern art, and the art/museum itself in an era of rapid museum expansion. Bringing art, museums, and international relations together draws on the art technique of collage, which combines disparate objects, themes, and time periods in one work to juxtapose unexpected elements, leaving the viewer to relate objects that are not where they are expected to be.

Bloom Simon and Schuster Terry Winters' s work of the past decade weaves disparate strains of idea, object, and physical operations into the primary logic of his art. His art contains an astonishing array of forms and demonstrates the equally surprising breadth of his artistic language. This retrospective volume continues where the mid-career survey (1992) at the Whitney Museum

---

concluded, presenting the past decade of Winters' s innovative work in paintings, prints, drawings, and artists' books. Terry Winters presents the ways in which the artist creates sets and subsets of distinctive works that interact with bodies of previous and current work. Also included are images by the artist that have not previously been exhibited or published. Winters' s work is frequently included in conversations and studies relating to the interplay of art and science, and his recent paintings, drawings, and prints reflect his engagement with scientific and computational systems of thought and presentations of information. For Winters, abstract art has become a vehicle not for

“reproducing and inventing

form but for harnessing forces.” By utilizing expressive means, “data becomes pictorial and spatial.” This superbly illustrated volume displays the full range of Winters' s newest works and the complex relationships that link them to one another.

Always the wedding coordinator, Lillie Bauer makes brides' dreams come true, but when it comes to her own love life, she's never the bride. Fifteen years after the mysterious disappearance of her childhood sweetheart, Ted, Lillie --bungee-jumper, book addict, and delightfully offbeat coordinator of "extreme" high-

concept weddings--is ready to find love again. As she boldly but reluctantly braves a disastrous dating scene, Lillie is caught between two images of married life-- the rich, lifelong partnership shared by her parents and the troubled marriage of her younger sister, Tacy. Faced with long-buried feelings, fears for Tacy, and concerns about her father's failing health, Lillie finds strength in an unlikely community of loved ones, including Cristoff, her epileptic, florist business partner; Pleasance, a sassy clothing designer; and her Hungarian Grandma Erzsébet. When Lillie stumbles across a danger that threatens those she loves most, she'll need more than friends and family to get through it -- she's going to need a miracle.

'In this book, Bloom takes what might seem a very localized subject and shows how it opens up to all the central questions today in cultural studies around gender, nationhood, the politics

of imperialism, race, male homosocial behavior, and the sociality of science. Gender on Ice has an eloquence and elegance that positively refreshing and the prose is stylish, engaging, and direct.'

Say "I do" to five surprising stories of women grappling with love and marriage and whether to walk down the aisle or run away. In Elise Juska's "Perfect Weather for Driving," Megan and Joel's sunset fender-bender makes for a great drunken story at his friend's wedding, but the reality is hardly romantic. Stuck in a New England hotel waiting for the verdict on their Volvo, the two are forced to take stock of their own damaged relationship -- and whether it's too late to fix it. In Tara McCarthy's "Losing California," engaged surfer Alison is convinced that Michael

Madsen -- a member of her favorite band -- is her soul mate. Unfortunately, he's not her fiancé. So Alison flies to Nova Scotia, where Michael lives, because she's either right or she's wrong -- and she better find out before the wedding. The bride-to-be in Pamela Ribon's "Sara King Goes Bad" has always done the right thing but decides it's important to know what it feels like to be reckless for once. And so two weeks before her wedding, she indulges in an unforgettable night of sex, drugs, and petty crime. In Heather Swain's "The Happiest Day of Your Life," Annie and Ben plan a simple ceremony at an apple orchard. But when Annie loses perspective -- and everything that can go wrong does -- she's forced to rethink why she wanted a wedding in the first place. The "Emily & Jules" of Lisa Tucker's story are two lonely people who meet on an online bulletin board for agoraphobics. But when Emily is

---

invited to her estranged brother's wedding -- and it's clear across the country -- both she and Jules may be forced to change their ways. Will any of these heroines get to the church on time? Cozy up with Cold Feet and find out. Waiting for the Tulips to Bloom Simon and Schuster

A moving, evocative tale of love, grief, and sisterhood from the author of the “brilliant, tender, and riveting” (John Dufresne, author of *I Don't Like Where This Is Going*) *The Winters in Bloom*. She can hear the music in people's souls. Mary Beth and her younger sister Leeann are trying to support themselves in their small Southern hometown. Mary Beth works to make ends meet by practicing her own unique talent: “song reading.” By making sense of the song lyrics people have stuck in their heads, Mary Beth can help people make sense of their lives. In no time, Mary Beth's readings have the entire town singing her praises, including the handsome scientist Ben, who falls hard for Mary Beth and her unearthly intuition. What happens when she can't make out the lyrics? When Mary Beth reveals a long-muted secret in the community, however, she turns off the music and gives up song reading for good. Soon everyone's lives are out of tune: Leeann worries she'll never graduate from high school, and Ben can't conduct his experiments. Without Mary Beth's music, the town's silence is louder than ever. Could it be that all the lyrics to all those foolish love songs really aren't so foolish after all?

Your heart is pounding. You feel as if you can't breathe. A strange uneasiness takes over, and your body rages with fear. Your mind is engulfed with one overwhelming thought: I must be dying. If those words strike a chord with you, you might be suffering from panic attacks. If you've begun avoiding any place or situation because you

feel these sensations, you may have agoraphobia. It's important to know that you are not alone. Author Lisa Tucker invites you to take a glimpse inside the walls that held her captive for years: a life of panic attacks that led to agoraphobia. Terror paralyzed her. When her grandmother was hospitalized, Lisa was unable to go upstairs to the hospital room. When her friends asked her to go with them to the mall, it couldn't be too crowded, and Lisa had to know where all the exits were. When her daughter's school had activities, Lisa held on to the hope that they would be outside. Many told her to 'get a grip.' Many, including Lisa, didn't understand what was going on with the debilitating panic. It destroyed relationships, ended her career, and kept her on the outskirts of everything—until she found power over the panic. While struggling with this gripping fear, she desperately searched for answers that would bring

---

freedom from her self-made cell—sometimes even meeting with a counselor outside in the freezing winter to avoid a panic attack. Looking for an Exit: From Panic to Empowerment sheds light on her experiences and reveals that peace is truly on the other side of the panic.

As her mother slipped into the darkness of old age, Lisa Appignanesi began to realise how little she knew of the reality behind the tales she had heard since childhood. She had shunned her parents' stories of war-time Poland, but now she set out to find the truth. In her quest she flew to Warsaw - imagining and revisiting a past she never knew. This is the moving story of the Jews who survived outside the camps, but it is also the author's own voyage of self-discovery - a family memoir of the rites of passage of emigration, childhood, and growing up an

When the dream of living in a foreign country is rudely shattered by gritty reality, there are two choices. Turn tail and run or bravely face what life throws at you. Welcome to a roller coaster

ride through the unpredictability of life in Turkey while struggling with the demands of home and away.

After repeated visits to Turkey, the first during the Gulf War, Lisa Morrow left Australia in 2010 with her partner Kim to settle in Istanbul. Having travelled extensively throughout the country as well as already having lived in both Istanbul and Central Turkey for a few years, she was sure the transition would be simple.

However while Turkish culture seems easy to understand, you only have to scratch away the surface and the complexities can be overwhelming. When they arrived in Istanbul Lisa was still trying to overcome the effects of her mother's death and struggled to know who she was. Her feelings of uncertainty were exacerbated by having to deal with Turkish real estate agents, bureaucracy and cultural difference, as well as friendships with Turks who seemed the same as her but were in fact very different. The stress of getting settled was only just starting to abate when she had to rush Kim to hospital and then received bad news from home. Waiting for the

Cold has long been a fixture of Russian identity both within and beyond the borders of Russia and the Soviet Union, even as the ongoing effects of climate change complicate its meaning and cultural salience. The Russian Cold assembles fascinating new contributions from a variety of scholarly traditions, offering new perspectives on how to understand this mainstay of Russian culture and history. In chapters encompassing such diverse topics as polar exploration, the Eastern Front in World War II,

and the iconography of hockey, it explores the multiplicity and ambiguity of “cold” in the Russian context and demonstrates the value of environmental-historical research for enriching national and imperial histories.
