Beyond the Veil Forever

AN INSTANT NEW YORK TIMES BESTSELLER The "lively" (The New Yorker), "convincing" (Forbes), and "riveting pick-me-up we all need right now" (People) that proves humanity thrives in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success as a species. If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin

brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic—it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. "The Sapiens of 2020." —The Guardian "Humankind made me see humanity from a fresh perspective." —Yuval Noah Harari, author of the #1 bestseller Sapiens Longlisted for the 2021 Andrew Carnegie Medal for Excellence in Nonfiction One of the Washington Post's 50 Notable Nonfiction Works in 2020

A " fantastic " collection from the author of It Sustains: " Each of the stories here is proudly horror . . . [Morris] is still at the top of his game " (This Is Horror). A woman haunted by a mysterious upside-down door. A meeting between a famous punk rocker and a voodoo priestess. A group of friends who willingly place themselves in the path of bullets that travel through time . . . Praised by Clive Barker as " one of the finest horror writers at work today, " Mark Morris wraps his stories in strange skin. Skin suffused with regret and grief and anger. Skin that twitches with bad dreams and appalling memories. Skin that is so thin it is unable to prevent the terrors of the past from breaking through. " After spending a few days wandering through the wastelands of Wrapped in Skin, I ' m in awe of the sheer breadth of talent Morris brings to the table . . . He ' s exploring new avenues, but he doesn ' t shy away from the standard tropes, either; here there be zombies and ghosts, demons and vampires—familiar elements aplenty, but each told with a skill and confidence that makes them feel fresh and new . . . Morris has given us a collection that celebrates and exploits the full potential of the genre in a way too few authors can pull off . . . and then he brings the hammer down emphatically with the closing story, ' Waiting for the Bullet. ' " —Cemetery Dance

Wrapped in Skin ChiZine

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape

save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark.

Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.
