From her lookout on

the first floor,
Ginny watches and
waits for her younger
sister to return to
the crumbling mansion
that was once their
idyllic childhood
home. Vivien has not
set foot in the house
since she left, forty-
seven years ago;
Ginny, the reclusive
moth expert, has
rarely ventured
outside it. But with
Vivien's arrival,
dark, unspoken
secrets surface. Told
in Ginny's

unforgettable voice,
this debut novel
tells a disquieting
story of two sisters
and the ties that
bind - sometimes a
little too tightly.

What stories are told about teaching and learning on

TV and in film? And how do these stories reflect, refract and construct myths, anxieties and pleasures about teaching and learning? This collection looks at how pedagogy is represented on screen, and how TV programs and films translate pedagogic ideas into stories and relationships. International in scope, with case studies and analysis from the UK, US, Australia, Turkey and Brazil—the book adopts a critical stance in relation to the ways in which theories of learning and myths about education are mobilized on screen. Teaching and

Learning on Screen: Mediated Pedagogies provides a stimulating addition to the field of media and cultural studies, while also promoting debate about particular pedagogic models and strategies that will contribute to the professional development of educators and those involved in teacher education.

For anyone who wants to make fewer (not less) grammar mistakes, this “passionate, enlightening, and easily navigable manual is

certainly the right book at the right time ” (Publishers Weekly)—reminiscent of the New York Times bestseller *Eats, Shoots & Leaves*. Our language is changing, literary levels are declining, and our grasp of grammar is at a crisis point. From commas to colons, apostrophes to adverbs, there are countless ways we can make mistakes when writing or speaking. But do not despair! Great Britain ’ s most popular grammar guru has created the ultimate modern manual for English speakers on both sides

of the Atlantic. In this “ irreverent and conversational ” (Booklist) guide to proper punctuation and so much more, Gyles Brandreth explores the linguistic horrors of our times, tells us what we ’ ve been doing wrong, and shows us how to can get it right every time. Covering everything from dangling participles to transitive verbs, from age-old conundrums like “ lay ” vs. “ lie, ” to the confounding influences of social media on our everyday language, *Have You Eaten Grandma?* is an

endlessly useful and entertaining resource for all.

Resisting some of the negative connotations that repetition can attract, this book illustrates how it has been used as a catalyst for creative expression across a range of television genres. Divided into two parts, the first three chapters contextualise repetition within related media and critical debates, before

locating it as an important facet of television that is worth exploring in detail. The final three chapters discuss specific television shows that incorporate repetition creatively within their narrative structure and aesthetic composition, ranging from *The Royle Family* and *Doctor Who* to *I May Destroy You* and *This is Going to Hurt*. In each case, James Walters argues that repetition emerges as crucial to the expression of key themes and ideas, thus becoming

a structural and compositional element itself. Exploring the ways in which repetition has featured in the work of figures such as Umberto Eco, Raymond Bellour and Bruce Kawin, and has influenced the approaches of television scholars like Raymond Williams, Roger Silverstone and John Ellis, this book is essential reading for scholars and students of film, television and media studies.

Girls Guide to Taking Over the World Routledge
67 People I'd Like to Slap is one man's journey through the labyrinthine world of

human angst and annoyance. The comedy writer, broadcaster and journalist Ian Collins lists, exposes and mocks that irritating contingent of the human race whose job, it seems, is to make life just a tad more infuriating than it needs to be. From psychics to exotic pet owners, Brits using chopsticks and over-35s at music festivals, through to middle-class protesters, elderly people in small cars and the billion cringe-crimes that are committed on social media every day (plus a healthy

dose of well-known names too), Collins's often brutal but hilarious search into the pit of human idiocy leaves few stones unturned. He also addresses some of life's most serious questions: - Is Jeremy Clarkson part of a completely different gene pool? - What happens when you upset every Beyoncé fan on the planet? - Why is Andrew Marr's sofa an affront to intelligent thinking? - How could a nice guy like Benedict Cumberbatch annoy anyone? - Has social media shrunk our brains? - What happens to a sense of

shame when men visit the gym? Part polemic and part diary, Collins spent a year documenting all those areas (and people) that could bug the hell out of the calmest of souls. Armed only with a sensible pen, notepad and a standard High Street blood pressure monitor, he sets out to create the ultimate list. In the author's words, 67 People I'd Like to Slap is the non-negotiable oracle of all things bamboozling when it comes to human behaviour - the definitive guide that no sane person could ever argue against. Or could

you...?

Much of value has been written about sleep, but rest is different; it is how we unwind, calm our minds and recharge our bodies. The Art of Rest draws on groundbreaking research Claudia Hammond collaborated on: 'The Rest Test', the largest global survey into rest ever undertaken, completed by 18,000 people across 135 different countries. The survey revealed how people

get rest and how it is directly linked to your sense of wellbeing. Counting down through the top ten activities which people find most restful, Hammond explains why rest matters, examines the science behind the results to establish what really works and offers a roadmap for a new, more restful and balanced life. *The Art of Rest* Trapeze
This is the first academic book to examine the long running hit series Grand Designs, which occupies a significant place in the popular imagination

internationally. The authors apply an empirically grounded, critical perspective to the study of television to reveal how people use the program in their everyday lives. The emphasis on everyday uses and meanings combines creatively with understanding the program theoretically, textually and in terms of its production structures. This position challenges framings of the popular lifestyle and factual television genre that has been dominated by a neoliberal or governmentality perspective for many years. Presented by British designer and writer, Kevin McCloud, *Grand Designs* follows the progress of home owners as they embark on design, renovation and building projects at almost always dizzying scales of endeavour. Understanding the program as both a text to analyse and a site of material impact, the book draws on interviews with production members, home renovators, building practitioners and audiences, as well as references to associated media formats to provide contextual depth to the analysis. The authors argue that, as a cultural object, the program is both shaped by and enacts social discourses of home-making, design value and taste. Navigating public, commercial and promotional logics, *Grand Designs* sparks new forms of cultural production and

consumer markets.

Bocelli, Hua Mulan ... these are men and women who all dared to be different. Boys will be boys and girls will be girls - or so the meaningless saying goes. Because what if you're a girl and you like cage fighting? Or you're a boy and you love ballet? And what if you've always dreamed of being a scientist but you can't see anyone who looks or sounds like you, and who has left a legacy - in the form of microscopes and Bunsen burners - for you to follow? This is the book for children who want to know about the lives of those heroes who have led the way, changing the world for the better as they go. Following the runaway success of *Stories for Boys Who Dare to be Different*, parents asked for a celebration of role models of both genders for boys and girls within the same book. *Stories for Kids Who Dare to Be Different* is the answer. These are the extraordinary stories of 100 famous and not-so-famous men and women, every single one of them an inspiring pioneer and creative genius in their own way, who broke the mould and made their dreams come true. Like *Stories for Boys Who Dare to be Different*, this is a beautifully illustrated, evocative and inspirational book of amazing stories of amazing people, that will delight sons and daughters, nephews and nieces, and give them the courage to be themselves. *For tales of even more brilliant people who have dared to be different, **STORIES FOR BOYS WHO DARE TO BE DIFFERENT 2** is out now!*

Angie Kent won hearts and friends when she partnered with best friend Yvie Jones to commentate from the couch as we watched them watching TV on Gogglebox. Then Angie proved a stalwart on the 2019 season of I'm a Celebrity ... Get Me Out of Here! And THEN she became the unforgettable 2019 Bachelorette. It's clear Australia can't get enough of Angie - and now she gives us some of her quirky, funny, warm-hearted wisdom on life, love and everything in between, in the form of a book. With no holds barred - just as you'd expect - Angie talks about her challenges with

mental health and body image; her family and friends; what has and hasn't worked in her relationships, and what she has learned - the hard way - about life. There are plenty of laughs, and some tears, and always plenty of heart. Angie's is the voice of your imaginary best friend - the one who always has your back, and who knows just what to say because she's been there before.
