NEW YORK TIMES BESTSELLER • A candid and moving memoir of how one woman's pregnancy forced her to confront her definition of how to live a successful life "Slyly ironic, frequently hilarious, [Martha] Beck's memoir charts the journey from being smart to becoming wise." —Time This edition includes a new afterword about Adam. From the moment Martha and her husband, John, accidentally conceived their second child, all hell broke loose. They were a couple obsessed with success. After years of matching IQs and test scores with less driven peers, they had two Harvard degrees apiece and were gunning for more. They'd plotted out a future in the most vaunted ivory tower of academe. But when their unborn son, Adam, was diagnosed with Down syndrome, doctors, advisers, and friends in the Harvard community warned them that if they decided to keep the baby, they would lose all hope of achieving their carefully crafted goals. Fortunately, that's exactly what happened. By the time Adam was born, Martha and John were propelled into a world in which they were forced to redefine everything of value to them, put all their faith in miracles, and trust that they could fly without a net. And it worked. Expecting Adam captures the abject terror and exhilarating freedom of facing impending parenthood, being forced to question one's deepest beliefs, and rewriting life's rules.

For many observers, the European Union is mired in a deep crisis. Between sluggish growth; political turmoil following a decade of austerity politics; Brexit; and the rise of Asian influence, the EU is seen as a declining power on the world stage. Columbia Law professor Anu Bradford argues the opposite in her important new book *The Brussels Effect*: the EU remains an influential superpower that shapes the world in its image. By promulgating regulations that shape the international business environment, elevating standards worldwide, and leading to a notable Europeanization of many important aspects of global commerce, the EU has managed to shape policy in areas such as data privacy, consumer health and safety, environmental protection, antitrust, and online hate speech. And in contrast to how superpowers wield their global influence, the Brussels Effect—a phrase first coined by Bradford in 2012—absolves the EU from playing a direct role in imposing standards, as market forces alone are often sufficient as multinational companies voluntarily extend the EU rule to govern their global operations. The Brussels Effect shows how the EU has acquired such power, why multinational companies use EU standards as global standards, and why the EU's role as the world's regulator is likely to outlive its gradual economic decline, extending the EU's influence long into the future.

A play about the power of books, muscles and human kindness. Josh (or Jo, since almost any role can be cast as male or female) is the children's librarian at a poor public library facing a huge budget crisis. He's also a power lifter, pumping iron in the library basement and running a video blog about young adult and children's books, weights and life. Kids flock to his unconventional story time and check out books by the dozens. All but one kid, that is - a loner named Mr. T (or Ms. T), who has the loud tics of Tourette syndrome. Slowly, Josh and Mr. T form a friendship, and Mr. T finally ventures to Josh's basement gym, where a friendship is born. The stakes go up when the town says the library needs to close for monetary reasons. This hits Josh and the kids hard and leads to them staging a '60s-inspired Read-In rather than letting their library be shut down. At the play's end, a *Sixth Sense*-like ending reveals the true identity of Mr. T. *The World's Strongest Librarian* will get kids pumped up to read, to work themselves into shape and especially to be kind to others.
