Dogmatic Constitution on Divine Revelation  
David Lundberg  
A leading spiritual teacher reveals how Celtic spirituality—listening to the sacred around us and inside of us—can help us heal the earth, overcome our conflicts, and reconnect with ourselves. John Philip Newell shares the long, hidden tradition of Celtic Christianity, explaining how this earth-based spirituality can help us rediscover the natural rhythms of life and deepen our spiritual connection with God, with each other, and with the earth. Newell introduces some of Celtic Christianity’s leading practitioners, both saints and pioneers of faith, whose timeless wisdom is more necessary than ever, including: Pelagius, who shows us how to look beyond sin to affirm our sacredness as part

of all God’s creation, and courageously stand up for our principles in the face of oppression. Brigid of Kildare, who illuminates the interrelationship of all things and reminds us of the power of the sacred feminine to overcome those seeking to control us. John Muir, who encourages us to see the holiness and beauty of wilderness and what we must do to protect these gifts. Teilhard de Chardin, who inspires us to see how science, faith, and our future tell one universal story that begins with sacredness. By embracing the wisdom of Celtic Christianity, we can learn how to listen to the sacred and see the divine in all of creation and within each of us. Human beings are inherently spiritual creatures who intuitively see the sacred in nature and within one another, but our cultures—and at

times even our faiths—have made us forget what each of us already know deep in our souls but have learned to suppress. Sacred Earth, Sacred Soul offers a new spiritual foundation for our lives, once centered on encouragement, guidance, and hope for creating a better world.

Sacred Texts of the World  
ReadHowYouWant.com

For a contemporary world in which religious belief exercises a more potent - some might say more dangerous - influence on global events than many would have thought possible a generation ago, the nature

and interpretation of the core tenets of religious faith has become a matter of compelling and widespread interest, both within and outside practising religious communities. Each of the 14 chapters of Sacred Texts is devoted to one of the principal religious and other belief systems of humanity, both defunct and extant. The chapters follow a consistent pattern: a short and accessible introduction to the faith in question, followed by extracts that clearly illustrate its mythic narratives, its spiritual and theological doctrines, its central moral teachings, its rituals and modes of worship, and its mystical traditions. Accompanying notes make clear the meanings of all the quoted passages. Taken together, the extracts provide a rounded and coherent picture of each religious tradition. Sacred Texts covers not only Judaism, Christianity, Islam, Hinduism, Buddhism, Jainism, Taoism, Confucianism, Shintoism and Sikhism, but also small-scale traditional religions, new religions, and secular worldviews such as humanism. It is an essential reference for those who wish to understand the nature - and

continuing appeal - of religious belief in a globalised, multi-faith world.
