Seriously ill people are wounded in both body and voice and ``need to become storytellers to recover the voices that illness and its treatment

have taken away," according to Frank (At the Will of the Body: Reflections on Illness, 1991).

The Wounded Storyteller: Body, Illness, and Ethics by

...

Summary. Frank argues that the modernist conception of illness is a form of "colonization" in that the ill person hands over his or her body (and life narrative) to biomedical expertise. In a post-modern conception, however, the ill person reclaims the authority and

ability to tell his or her own story, and to construct a new life narrative from...
