The Wounded Storyteller - New York University

Since it was first published in 1995, The Wounded Storyteller has occupied a unique place in the body of work on illness. Both the collective portrait of a so-called “remission society” of those who suffer from some type of illness or disability and a cogent analysis of their stories within a larger framework of narrative theory, Arthur W. Frank’s book has reached a large and diverse readership including the ill, medical professionals, and scholars of literary theory.

Summary. Frank argues that the modernist conception of illness is a form of "colonization" in that the ill person hands over his or her body (and life narrative) to biomedical expertise. In a post-modern conception, however, the ill person reclaims the authority and ability to tell his or her own story, and to construct a new life narrative from...
