*Understanding the Crash* starts with a simple question that still haunts us all: What has happened to the world economy? With the kind of striking precision that only graphic nonfiction can provide, Seth Tobocman and Eric Laursen explain just how we got into this mess — and how we can get out of it. Looking back across more than a quarter century, the authors outline the roots of our current economic crisis. They show how the troubles of a working-class community in Cleveland or a newly built suburb of Miami became an international financial crisis, explaining the complex new forms of credit that came into being because of financial deregulation, and how they created an economic whirlpool. From there they discuss how, over the same time span, a smaller and smaller group of people came to control a larger and larger percentage of the world's money — a result of rising inequality that, combined with the

shortage of affordable housing, a decline in real wages, and our unwavering belief in an “ownership society,” impelled poor people into debt. Tobocman and Laursen conclude with a consideration of a restructured financial system and a look toward a culture of sustainability — one that covets real wealth in the form of security, meaningful work, and community.

Growing up on an isolated island in the middle of Lake Erie, Aaron Sheftall learned to skate as a young child when extreme weather would cut his off his small community -- and its legends about a lost colony of seals -- from the rest of the world. Now an elite figure skater, Aaron dreams of getting to the Olympics. Yet competition is fierce and in a sport filled with injuries and drama, careers are short. But when a fluke accident changes the stakes for the entire U.S. team, Aaron sees his chance. Zack Kelly used to be a war reporter. But a successful book about his time covering global conflicts, an unsuccessful marriage, and a dose of PTSD have sidelined him from the journalism game. When an old friend calls him with a long-form assignment about competitive figure skating, Zack has no idea what he's getting into. He also doesn't care -- it's a change of scenery and a paycheck. Thrown together under circumstances neither of them are initially enthused about, Aaron and Zack ultimately embark on an unlikely -- and ill-advised -- romance about trust, myth, and what it really means to be comfortable in your own skin. Ink and Ice is part of the same series as *After the Gold*. The books can be read in any order. Katie and Brendan's story continues here as a key part of Aaron's coaching team.

This book describes how a person at any age can be whatever they want to be. I've done it under very difficult conditions, and you can do it too at any age. I want my readers to benefit from some of the types of experiences that I have had. The book discusses what really matters in life, nothing happens by accident, unexplainable experiences, communicating with the dead, my life experiences, prayer and meditation, ways to be happier and healthier, and the power of prayer. My life has gone from rag to riches, and it continues to get better and better. I started working every day of the year from seven years old until I graduated from high school. From those savings I was able to begin my college career. We had to live on my mother's minimum wage job to support our entire family. I worked my way through college while receiving three advanced university degrees.
