Isabella Coleman wasn't looking for love when she attended her cousin Wade's wedding in Boston, but she hadn't counted on the bride's father, Cabot Lodge. He's older, wiser and one of the most handsome, charming and funny men she's ever met. Izzie is instantly smitten, and after a wonderful time at the wedding, she's certain she'll hear from Cabot again soon. But she doesn't hear a word from him until she's back in Boston and invites him to dinner. After yet another fantastic time together, she's once again optimistic—and once again disappointed when she gets nothing but silence from him. Cabot has his reasons for keeping his distance. After his former wife took off with their baby daughter, he spent twenty-five years

looking for Mia, who suddenly reappeared in his life as a grown woman with a new husband. He's never been happier than since Mia returned, but those twenty-five years of searching left him with a deep well of bitterness that a sweet woman like Izzie doesn't need in her life. Until Izzy is seriously injured in a car accident, and all bets are off. Bitterness aside, Cabot can think of only getting to her as soon as he possibly can—and staying with her for as long as she'll have him. Now Izzy and Cabot are hunkered down in her cozy home in Vermont, and things are starting to get real. They'll both have to decide if their time together is a temporary interlude or the start of something lasting.

Excerpt from *My Shipmate Louise, the Romance of a Wreck, Vol. 1 of 3* We had left Gravesend at four o'clock in the morning, and now, at half-past eight o'clock in the evening, we were off the South Foreland, the ship on a taut bowline heading on a due down Channel course. It was a September night, with an edge of

winter in the gusts and blasts which swept squall-like into the airy darkling hollows of the canvas. There was a full moon, small as a silver cannon-ball, with a tropical greenish tinge in its icy sparkling, and the scud came sweeping up over it in shreds and curls and feathers of vapour, sailing up dark from where the land of France was, and whitening out into a gossamer delicacy of tint as it soared into and fled through the central silver splendour. Embracing Water The Floating Press  
The raising of the Mary Rose in 1982 made headline news. As an archaeological event it ranked alongside Schliemanns excavations at Troy or Arthur Evanss discovery of Knossos, and so much information has since been gleaned from the wreck and its contents that there is an overwhelming tendency to treat the ship as a "time-capsule", like some Tudor burial site. But the Mary Rose is not just an archaeological relic. She is a warship that was revolutionary in her time and, despite being most famous for her loss in battle, a ship that had served her monarch for 34 years, almost the length of his reign. This book tells the full story of the construction and career of the ship, placing it firmly within the colorful context of Tudor politics, court life and the developing administration of a permanent navy. However, it also brings the story down to the present day, with chapters on the recovery and the new ideas and information thrown up by the massive program of archaeological work since undertaken. Written by the Development Director of The Mary Rose Trust and heavily illustrated from the massive resources of the Trust, this is a book which will appeal to general reader and specialist alike.

This book is the result of over twenty-five years of combined experience from Kelly and Robby Riggs-dynamic, occasionally irreverent, always insightful, father (Boomer) and son (Millennial), who work with organizations grappling daily with multi-generational conflict. Through their collaboration, Kelly and Robby share their very different perspectives on the same problems most companies are STILL dealing with, but haven't had the courage or the tools, to address. Issues such as: a shocking lack of leadership skills; the culture-killing generational divide that is demolishing many companies; and the stunning, often unrecognized impact of technology on the workplace. In their "shamelessly funny, brilliantly written" debut book, Kelly and Robby will:

- Discuss today's workplace dynamics, including the changes in communication modes, the influx of technology, and the impact of Millennials and Digital Natives
- Explain how a one-sided approach to leadership focused on "managing" Millennials is grossly insufficient, resulting in an inability to attract and retain critical young talent
- Explore the new challenges of leadership inherent with the explosion of technology-time

compression, distractions, complexity and the pace of change

- Reveal how old leadership challenges persist, and explore how the younger generation will expose those challenges more than ever
- Detail the CounterMentor leadership model and prescribe specific tactics and techniques for addressing both old and new leadership issues
