Hugh Trevor-Roper's historical essays, published over many years in many different forms, are now difficult to find. This volume gathers together pieces on British and European history from the fifteenth to the early seventeenth centuries, ending with the Thirty Years War, which Trevor-Roper views as the great historical and intellectual watershed that marked the end of the Renaissance. Covering a wide range of topics, these writings reflect the many facets of Trevor-Roper's interest in intellectual and cultural history. Included are discussions of Renaissance Venice; the arts as patronized by that "universal man," the Emperor Maximilian I; the court of Henry VIII and the ideas of Sir Thomas More; the Lisle Letters and the formidable Cromwellian revolution; the historiography and the historical philosophy of the Elizabethans John Stow and William Camden; religion and the "judicious Hooker," the great doctor of the Anglican Church; medicine and medical philosophy, shaken out of its orthodoxy by Paracelsus and his disciples; literature and Burton's Anatomy of Melancholy; and the ideology of the Renaissance courts. Trevor-Roper sets his intellectual and cultural history in a context of society and politics: in realization of ideas, the patronage of the arts, the interpretation of history, the social challenge of science, the social application of religion. This volume of essays confirms his reputation as a spectacular writer of history and master essayist.

It was only when Jewish writers gave up on the lofty Enlightenment ideals of progress and improvement that the Yiddish novel could decisively enter modernity. Animating their fictions were a set of unheroic heroes who struck a precarious balance between sanguinity and irony that author Miriam Udel captures through the phrase "never better." With this rhetorical homage toward the double-voiced utterances of Sholem Aleichem, Udel gestures at these characters' insouciant proclamation that things had never been better, and their rueful, even despairing admission that things would probably never get better. The characters defined by this dual consciousness constitute a new kind of protagonist: a distinctively Jewish scapegrace whom Udel denominates the *polit* or refugee. Cousin to the Golden Age Spanish *pícaro*, the *polit* is a socially marginal figure who narrates his own story in discrete episodes, as if stringing beads on a narrative necklace. A deeply unsettled figure, the *polit* is allergic to sentimentality and even routine domesticity. His sequential misadventures point the way toward the heart of the picaresque, which Jewish authors refashion as a vehicle for modernism—not only in Yiddish, but also in German, Russian, English and Hebrew. Udel draws out the contours of the new Jewish picaresque by contrasting it against the nineteenth-century genre of progress epitomized by the Bildungsroman. While this book is grounded in modern Jewish literature, its implications stretch toward genre studies in connection with modernist fiction more generally. Udel lays out for a diverse readership concepts in the history and theory of the novel while also explicating the relevant particularities of Jewish literary culture. In addressing the literary stylistics of a "minor" modernism, this study illuminates how the adoption of a picaresque sensibility allowed minority authors to write simultaneously within and against the literary traditions of Europe.

The United States, as well as both developed and underdeveloped countries around the world, grapple with escalating healthcare costs. The number of healthcare consumers is increasing worldwide, and while most of such an increase tilts the demographic curve toward younger age groups, older age cohorts are also increasing. These older age cohorts are particularly noticeable in developed countries where useful scientific progress has evolved substantial and extensive healthcare technologies. Access to such expensive technologies has both been widely sought and become available to healthcare consumers. This book offers prescient insights upon various ways to diminish healthcare expenses.

Eilenberg's subject is the relationship between tropes of literary property and signification in the writings and literary politics of Wordsworth and Coleridge. She argues that a complex of ideas about property, propriety, and possession informs the images of literary authority, textual identity, and poetic figuration found in the two writers' major work. During the period of their closest collaboration as well as at points later in their careers, Wordsworth and Coleridge took as their primary material the images of property and propriety upon which definitions of meaning and figuration have traditionally depended, grounding these images in writings about landed and spiritual property, material and intellectual theft, dispossession by banks and possession by demons. The writings and the politics generated by the literalization of such images can be read as allegorical of the structures and processes of signification. Each such gesture addresses in some way the fundamental question - who owns language, or who controls meaning?; Eilenberg's approach brings to bear a combination of deconstructive, psychoanalytic, and both new and literary historical methods to provide a deeper understanding of the relationship between two of the major figures of English Romanticism as well as fresh insight into what is at stake in the analogy between the verbal and the material or the literary and the economic.

'In this highly readable book about a personal way of dealing with potentially life-threatening illness, we follow author, broadcaster and acclaimed poet Myra Schneider through her journey from diagnosis to recovery from breast cancer. One of the book's special gifts is to make us feel we are engaged in an absorbing conversation with a friend, a friend who is full of courage, sensitivity and hope, but manages at the same time to be completely honest about the terror, anger and times of darkness that such a diagnosis brings.' - Caduceus 'Although, as its title suggests, this book concentrates on writing for cancer sufferers, its advice is equally valid for people suffering from other problems, whether physical, emotional or practical. It shows the empowering effect of writing; how it can help to make sense when the world chaotic; how it can keep you focused when your life is falling apart. This is an inspiring read, made so by the author's frankness, warmth and honesty, which breathe through the pages.' - Writing Magazine 'Reading someone else's journal is so engaging; When that person is a poet and has experienced a life threatening illness, the reading becomes inspiring. Myra Schneider is not only a poet and author but also a teacher. Her guide lines for therapeutic writing are clear and had me reaching for a pen. It would be a very valuable book for most clients who have been, or are going through, illness or any difficult experience, to try the visualisations and writing ideas. These, and the whole book, would be extremely useful for therapists working in any setting. Buy it!' - HCPJ 'Myra, an established poet and author of a handbook on writing for personal development, clearly found her writing enormously supportive throughout the cancer experience. She clearly and simply offers exercises and routes to self-expression and exploration.' - The British Journal of General Practice 'In this moving account [Myra Schneider] tackles with endearing honesty her personal experience of breast cancer. Myra takes us from diagnosis through the long painful route to recovery by developing the journal she decided to keep through her experiences. By sharing her journal with us, Myra has provided a window onto an experience which many people, finding themselves in a similar situation, will take comfort and inspiration from.' - Lapidus Magazine 'While this book provides an intimate portrayal of the author's experience of breast cancer, the writing is often humorous and ultimately uplifting. It will be of interest to people with breast cancer and to those supporting them, and to health professionals for the psychological insights offered.' - Breast Cancer Care News Diagnosed with breast cancer in February 2000, poet and author Myra Schneider turned to her writing to help her come to terms with the experience. In this thoughtful and readable book, she illustrates how writing helped her through diagnosis, treatment and recovery as well as the change in self-image following her mastectomy. In her frank expression of intense fear, anger and doubt, Myra Schneider includes notes and finished poems written during her period of recovery. She also offers practical support in the form of therapeutic writing suggestions for cancer sufferers, whether they are experienced authors or have never written before. Bringing together an unsparing but ultimately uplifting first-hand account of life with cancer and advice about writing as therapy, this engaging and positive book shows the benefits of expressing the self through writing. It will provide inspiration and support to anyone affected by cancer and useful insight for professionals involved in the care of cancer patients.
