And the Kid had been deputized to stop them. Riding out on his lonesome, he intended to bring justice to this lawless land. But another gang was also at work in the Texas hills, and they had snatched the granddaughter of Ole Devil Hardin, the Ysabel Kid's old buckaroo and trail boss, from the local stagecoach. A different breed of peace officer is needed, and rancher Bentram Mosehan has accepted the responsibility of organizing a new Arizona State Police force. He's looking for men who are brave, honest, and lightning fast with a six-gun--talents that a drifter named Waco and his amigo, Doc Leroy, possess in abundance. But the two young Texans remember all too well their run-ins with the Lone Star law, and the last thing Waco and Doc want is to wear a badge. But Mosehan knows these are men you need at your side when all hell breaks loose. And Waco'll be facing one tough choice once the bullets start flying in earnest: serve ... or die.

Tulagi was the capital of the British Solomon Islands Protectorate between 1897 and 1942. The British withdrawal from the island during the Pacific War, its capture by the Japanese and the American reconquest left the island ' s facilities damaged beyond repair. After the war, Britain moved the capital to the American military base on Guadalcanal, which became Honiara. The Tulagi settlement was an enclave of several small islands, the permanent population of which was never more than 600: 300 foreigners—one-third of European origin and most of the remainder Chinese—and an equivalent number of Solomon Islanders. Thousands of Solomon Islander males also passed through on their way to work on plantations and as boat crews, hospital patients and prisoners. The history of the Tulagi enclave provides an understanding of the origins of modern Solomon Islands. Tulagi was also a significant outpost of the British

"A startling expos é of the invisible human workforce that powers the web--and how to bring it out of the shadows. Hidden beneath the surface of the internet, a new, stark reality is looming--one that cuts to the very heart of our endless debates about the impact of AI. Anthropologist Mary L. Gray and computer scientist Siddharth Suri unveil how the services we use from companies like Amazon, Google, Microsoft, and Uber can only function smoothly thanks to the judgment and experience of a vast human labor force that is kept deliberately concealed. The people who do 'ghost work' make the internet seem smart. They perform high-tech, on-demand piecework: flagging X-rated content, proofreading, transcribing audio, confirming identities, captioning video, and much more. The shameful truth is that no labor laws protect them or even acknowledge their existence. They often earn less than legal minimums for traditional work, they have no health benefits, and they can be fired at any time for any reason, or for no reason at all. An estimated 8 percent of Americans have worked in this 'ghost economy,' and that number is growing every day. In this unprecedented investigation, Gray and Suri make the case that robots will never completely eliminate 'ghost work' and the unchecked quest for artificial intelligence could spark catastrophic work conditions if not stopped in its tracks. Ultimately, they show how this essential type of work can create opportunity--rather than misery--for those who do it."--Dust jacket.

Gary Gordon was a Master Sergeant in the U.S. Army while his brother-in-arms, Randy Shughart, was a Sergeant First class. Both men were non-commissioned officers in the United States Army's elite special operations unit, the 1st Special Forces Operational Detachment Delta which is more commonly known as "Delta Force." After witnessing one of the Black Hawk helicopters shot down by Somali rebels, both soldiers volunteered to insert themselves on the ground to rescue any remaining survivors. Facing a growing angry mob armed with gunfire, Gordon and Shughart valiantly battled to save their fellow soldiers. Both men were awarded the Medal of Honor posthumously for their actions during the Battle of Mogadishu in October of 1993. Their acts of courage were later made into a movie called "Black Hawk Down."
