This volume examines the location of memories and histories of popular music and its multiple pasts, exploring the different 'places' in which popular music can be situated, including the local physical site, the museum storeroom and exhibition space, and the digitized archive and display space made possible by the internet. Contributors from a broad range of disciplines such as archive studies, popular music studies, media and cultural studies,

leisure and tourism, sociology, museum studies, communication studies, cultural geography, and social anthropology visit the specialized locus of popular music histories and heritage, offering diverse set of approaches. Popular music studies has increasingly engaged with popular music histories, exploring memory processes and considering identity, collective and cultural memory, and notions of popular culture 's heritage values, yet few accounts have spatially located such trends to focus on the spaces and places where we encounter and engender our relationship with popular music 's history and legacies. This book offers a timely re-evaluation of such sites, reinserting them into the narratives of popular music and offering new perspectives on their function and significance within the production of popular music heritage. Bringing together recent research based on extensive fieldwork from scholars of popular music studies, cultural sociology, and museum studies, alongside the new insights of practice-based

---

considerations of current practitioners within the field of popular music heritage, this is the first collection to address the interdisciplinary interest in situating popular music histories, heritages, and pasts. The book will therefore appeal to a wide and growing academic readership focused on issues of heritage, cultural memory, and popular music, and provide a timely intervention in a field of study that is engaging scholars from across a broad spectrum of disciplinary backgrounds and theoretical perspectives.

Can the euro challenge the supremacy of the U.S. dollar as a global currency? From the time Europe's joint money was born, many have predicted that it would soon achieve parity with the dollar or possibly even surpass it. In reality, however, the euro has remained firmly planted in the dollar's shadow. The essays collected in this volume explain why. Because of America's external deficits and

looming foreign debt, the dollar can never be as dominant as it once was. But Europe's money is unable to mount an effective challenge. The euro suffers from a number of critical structural deficiencies, including an anti-growth bias that is built into the institutions of the monetary union and an ambiguous governance structure that sows doubts among prospective users. As recent events have demonstrated, members of the euro zone remain vulnerable to financial crisis. Moreover, lacking a single voice, the bloc continues to punch below its weight in monetary diplomacy. The world seems headed toward a leaderless monetary order, with several currencies in contention but none clearly dominant. This collection distills the views of one of the world's leading scholars in global currency, and will be of considerable interest to students and scholars of international finance and international political economy.

"Darkly hilarious...an unexpected bundle of joy." -O, The Oprah Magazine Alice Cohen was happy for the first time in years. After a difficult divorce, she had a new love in her life, she was raising a beloved adopted daughter, and her career was blossoming. Then she started experiencing mysterious symptoms. After months of tests, x-rays, and inconclusive diagnoses, Alice underwent a CAT scan that revealed the truth: she was six months pregnant. At age forty-four, with no prenatal care and no insurance coverage for a high-risk pregnancy, Alice was besieged by opinions from doctors and friends about what was ethical, what was loving, what was right. With the intimacy of a diary and the suspense of a thriller, *What I Thought I Knew* is a

ruefully funny, wickedly candid tale; a story of hope and renewal that turns all of the "knowns" upside down.

Acting Power McGraw-Hill Education

Robert Cohen draws on fifty years of acting, directing and teaching experience in order to illustrate how the world's great theatre artists combine collaboration with leadership at all levels, from a production's conception to its final performance. This book challenges the notion that creating brilliant theatrical productions requires tyrannical directors or temperamental designers. Viewing the theatrical production process from the perspectives of the producer, director, playwright, actor, designer, stage manager, dramaturg and crew person, Cohen provides the techniques, exercises and language that promote successful collaborative skills in the theatre. Collaboration is vital to successful theatre making and *Working Together in Theatre* is the first book to show how leadership and collaboration can be combined to make every theatrical production far greater than the sum of its many parts.

The new, fifth edition of Robert Cohen's *Acting One*, the text used to teach acting on more campuses than any other, has now been combined for the first time with his *Acting Two*, (the second edition of his previously-titled *Advanced Acting*). Together, *Acting One/Acting Two* provides a comprehensive and fully integrated system of all acting, from the most realistic to the most stylized. Part One (*Acting One*) covers basic skills such as talking, listening, tactical interplay, physicalizing, building scenes, and making powerful acting choices. Part Two (*Acting Two*) provides a series of exercises that encourage the student actor's self-extension into radically different styles (historical, literary, fantastical) and characterizations; then coaches the student through scenework in a variety of historical periods (Greek, Commedia, Elizabethan, Molière, Restoration, Belle Epoque), as well as modern hyper-realistic theatrical forms such as the theatres of alienation and the absurd, and exemplary recent dramas by Tony Kushner, Margaret Edson, August Wilson and Doug Wright.
