The Book of Five Rings is a text on kenjutsu and the martial arts in general, written by the Japanese swordsman Miyamoto Musashi around 1643. Written over three centuries ago by a Samurai warrior, the book has been hailed as a limitless source of psychological insight for businessmen-or anyone who relies on strategy and tactics for outwitting the competition.

But it is necessary, in order
to accomplish the design of
the ministry, to preach not
only the truth, but the
whole truth. I do not mean
that we are required, under
ordinary circum stances, to
crowd all the doctrines of
Chris tianity into a single
discourse; for the effect of
that must inevitably be, to
leave, in most cases, but a
general and ill-defined
impression. Nor do I mean
that every part of the Bible
is literally to form the
theme of a minister's public
instructions; for if every
portion of Scripture history
and Scripture prophecy,
and. All the judicial and
ritual details of the Jewish
economy, were to be
distinctly considered, it
would require a ministry of
ante-diluvian length, to
accomplish it. All that I

intend to say is, that the
system of divine truth
revealed in the Bible must
be preached in its integrity,
provided the period of
active labour be long enough
to admit of it. All the
doctrines and precepts, all
the promises and
threatenings, and an outline
at least of history and
prophecy, come fairly
within the range of a
minister's commission; and
nothing short of this comes
up to the idea of preaching
the whole truth. About the

Excerpt from Bible Atlas: A Manual of Biblical Geography and History Especially Prepared for the Use of Teachers and Students of the Bible, and for Sunday School Instruction; Containing Maps, Plans, Review Charts, Colored Diagrams

ON this side of the sea we sit down with a big book in our hands. It is an old book. Nearly two thousand years have passed since the last word of it was written, and no one can tell how many thousands of years ago the records were made or the words uttered, out of which its first writer prepared his wonderful statements. This

old book is a singular book as to the variety of its contents, - ranging from dry chronological state ment to highest ight of royal poetry. Many pages of it are simply historical, with lists of kings, and names of family lines through many generations. Geographical allusions descending to minutest detail are strewn thickly through its pages. There is no department of natural science which does not find some of its data recognized in the chapters of this venerable volume. Stones and stars, plants and reptiles, colossal monsters of sea and land, eel horse, bird of swift ight, lofty cedar and lowly lily, these all find their existence recognized and recorded in that book of various

theme. As it is a long time since these records were made, so are the lands far away in which the events recorded are said to have occurred. We measure the years by millenaries, and by the thousand miles we measure the distance. The greatest contrast exists between the age and land in which we live and the age and lands in which this book found its beginning, its material and its ending. Excerpt from *Revival Sketches and Manual: In Two Parts* IT is now more than thirty years since it struck me that a concise

history of revivals from about the beginning of the nineteenth century might be acceptable to the churches, as a sort of Christian manual to help the cause of pure and undefiled religion in the present and in the generations following. Having come upon the stage just at the commencement of that memorable epoch, and witnessed many revivals, I was moved to inquire whether the duty of attempting to gather and arrange the materials for such a history to the praise of sovereign redeeming mercy devolved upon me. I consulted Dr. Griffin on the subject, than Whom few men had larger experience in revivals. He encouraged me to go on, and I made some collection of the narratives, which were within my reach. But I soon became convinced that to do any thing like justice to the glorious theme, Within reasonable limits, was a task beyond my powers, and for which I then could not command the time. As professional and public duties soon became more exacting and arduous, I dismissed the subject, and there the matter rested for more than twenty years. About the Publisher

Excerpt from Service Manual The fixed Order of Worship has been departed from in this manual, but merely in form. The spirit of the traditional service has been sacredly preserved. Its devotional sentiment has been brought nearer to the modern mind by the use of a number of the most approved liturgical aids. The gems of Biblical, Apocryphal, and Rabbinical literature have been freely introduced in the form of Responsive Readings and Choral Chants, and have been incorporated in the Meditations and Exhortations. To each Sabbath a distinctive purpose has been given by assigning to it a special significance, which is made the theme of that day's service. The purport of each Festival is likewise made the central thought, which is elaborated in all the parts of

the Festival service. To quicken the fervor of the worship per, to ensure his participation in the service, and especially to awaken the interest of each individual, the Responsive Readings, Congregational Singing, and the various themes of each separate week have been provided. Educational Technology Excerpt from Dock and Lock Machinery: A Technical Manual But these good old days are gone, and now Conventionalism holds sway over the minds of students and of men, and frowns on any

attempt to make technical treatises readable whatever the subjects of these treatises may be. How then is it possible to render a manual on a theme so prosaic and one confined within limits so strait as that of Dock and Lock Machinery interesting so far as to make it readable to make it such that it may be perused if not with pleasure, at least without aversion This seems to pass the wit of man at any rate, the wit of the man who has made the effort which is comprised in the following chapters; and who feels that the best things which can be claimed for this small work are (1) that sincere endeavour has been made in it to ensure that the materials on which it is based should be obtained from original sources, and that in this way accuracy of description as well as of historical statement should be attained, and (2) that where opinions have been expressed in its pages the opinions have been broad based, not only on precedent, but on lengthened personal experience, for which reasons they may perhaps be accepted tentatively by those who, in some measure of toil and travail, are acquiring experience for themselves.
