The rabbis of late antiquity produced a score of exegesis of the Hebrew Scriptures of Ancient Israel («the Old Testament»), in which they took various approaches to the study and interpretation of what they called «the written Torah». These exegesis, called collectively «Midrash», form an important part of «the oral Torah», that is, the tradition of Sinai formulated and transmitted for memorization and ultimately written down by the ancient sages in the first six centuries A.D. These three volumes present large selections of the Midrash-documents of ancient Judaism, in the translation of Jacob Neusner, who has now translated into English nearly all of the Rabbinic literature of late antiquity. The selections are organized by type, so that readers see the various ways in which, in form and in intellectual program, the documents of Midrash-compilation were formulated and set forth. In this way, the vast body of biblical exegesis put forth by Judaism in its formative age is made available to the contemporary reader.

Structure and Style, first published in 1962 and expanded in 1979, fills the need for new ways of analysis that put 20th-century music in perspective. It spans forms in use before 1600 through forms and techniques in use today. Anthology of Musical Forms provides musical examples of forms treated in Structure and Style. Some examples are analyzed throughout. Most are left for the student to analyze. These books reflect Leon Stein's impressive background as student, musician, and composer. Stein studied composition

with Leo Sowerby, Frederick Stock (conductor of the Chicago Symphony) and orchestration with Eric DeLamarter, his assistant. He earned M. Mus and Ph.D degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works, including compositions for orchestra, chamber combinations, two operas, and a violin concerto.

Understanding the way music unfolds to the listener is a major key for unlocking the secrets of the composer's art. Musical Form and Analysis, highly regarded and widely used for two decades, provides a balanced theoretical and philosophical approach that helps upper-level undergraduate music majors understand the structures and constructions of major musical forms. Spring and Hutcheson present all of the standard topics expected in such a text, but their approach offers a unique conceptual thrust that takes readers beyond mere analytical terminology and facts. Evocative rather than encyclopedic, the text is organized around three elements at work at all levels of music: time, pattern, and proportion. Well-chosen examples and direct, well-crafted assignments reinforce techniques. A 140-page anthology of music for in-depth analysis provides a wide range of carefully selected works.

Seit einigen Jahren hat sich die Auffassung durchgesetzt, dass das Zwölfprophetenbuch eine planvoll gestaltete literarische Großeinheit ist. Eine den kanonischen Endtext ernst nehmende Exegese macht sich zur Aufgabe, diese Einheit in Aufbau und theologischem Anliegen zu verstehen. Die versammelten Beiträge gehen signifikanten, die Einzelschriften übergreifenden Strukturen nach. Besonderes Gewicht wird auf die Rekonstruktion thematischer Fäden gelegt, die dadurch entstehen, dass die einzelnen Propheten Themen ihrer Vorgänger (z.B. Tag Jahwes, Umkehr, Rolle der Völker) aufgreifen und neu zuspitzen. Die Beiträge entstanden 1999-2002 im Rahmen der Arbeitsgruppe The Formation of the Book of the Twelve der Society of Biblical Literature.

Medieval Damascus Alfred Music

The written text was a pervasive feature of cultural practices in the medieval Middle East. At the heart of book circulation stood libraries that experienced a rapid expansion from the twelfth century onwards. While the existence of these libraries is well known our knowledge of their content and structure has been very limited as hardly any medieval Arabic catalogues have been preserved. This book discusses the largest and earliest medieval library of the Middle East for which we have documentation - the Ashrafiya library in the very centre of Damascus - and edits its catalogue. This catalogue shows that even book collections attached to Sunni religious institutions could hold rather unexpected titles, such as stories from the 1001 Nights, manuals for traders, medical handbooks, Shiite prayers, love poetry and texts extolling wine consumption. At the same time this library catalogue decisively expands our knowledge of how the books were spatially organised on the bookshelves of such a large medieval library. With over 2,000 entries this catalogue is essential reading for anybody interested in the cultural and intellectual history of Arabic societies. Setting the Ashrafiya catalogue into a comparative perspective with contemporaneous libraries on the British Isles this book opens new perspectives for the study of medieval libraries.

African literature, like the continent itself is enormous and diverse. East Africa's literature is different from West Africa's which is quite different from South Africa's which has different influences on it than North Africa's. Africa's literature is based on a widespread heritage of oral literature, some of which has now been recorded. Arabic influence can be detected as well as European, especially French and English. Legends, myths, proverbs, riddles and folktales form the mother load of the oral literature. This book presents an overview of African literature as well as a comprehensive bibliography, primarily of English language sources. Accessed by subject, author and title indexes.
