Theology of Jürgen Moltmann SCM Press

Offers a rich discussion of belief in life after death.

The title expresses the book's intention: not to go on distinguishing between God and the world, so as then to surrender the world, as godless, to its scientific 'disenchantment' and its technical exploitation by human beings, but instead to discover God in all the beings he has created and to find his life-giving Spirit in the community of creation that they share. This view which has also been called panentheistic (in contrast to pantheistic) requires us to bring reverence for the life of every living thing into the adoration of God. And this means expanding the worship and service of God to include service for God's creation.

God for a Secular Society SCM Press

Famous theologian Jürgen Moltmann returns here to the theme that he so powerfully addressed in his groundbreaking work, *Theology of Hope*. In the twenty-first century, he tells us, hope is challenged by ideologies and global trends that would deny hope and even life itself. Terrorist violence, social and economic inequality, and most especially the looming crisis of climate change all contribute to a cultural moment of profound despair. Moltmann reminds us that Christian faith has much to say in response to a despairing world. In the eternal yes of the living God, we affirm the goodness and ongoing purpose of our fragile humanity. Likewise, God's love empowers us to love life and resist a culture of death. The book's two sections equally promote these affirmations, yet in different ways. The first section looks at the challenges to hope in our current world, most especially the environmental crisis. It argues that Christian faith and indeed all the world's religions must orient themselves toward the wholeness of the human family and the physical environment necessary to that wholeness. The second section draws on resources from the early church, the Reformation, and the contemporary theological conversation to undergird efforts to address the deficit of hope he describes in the first section.

Modern humanity has accepted a truncated, impoverished definition of life. Focusing solely on material realities, we

have forgotten that joy, purpose, and meaning come from a life that is both immersed in the temporal and alive to the transcendent. We have, in other words, ceased to live in God. In this book, renowned theologian Jürgen Moltmann shows us what that life of joy and purpose looks like. Describing how we came to live in a world devoid of the ultimate, he charts a way back to an intimate connection with the biblical God. He counsels that we adopt a "theology of life," an orientation that sees God at work in both the mundane and the extraordinary and that pushes us to work for a world that fully reflects the life of its Creator. Moltmann offers a telling critique of the shallow values of consumerist society and provides a compelling rationale for why spiritual sensibilities and encounter with God must lie at the heart of any life that seeks to be authentically human.

Jürgen Moltmann's Ethics of Hope Augsburg Fortress Publishing
Jürgen Moltmann is now regarded as one of the most influential theologians since Karl Barth. However, evangelical engagement with Moltmann has been hesitant and deficient. This book fills the gap. Ten respected evangelical theologians engage with Moltmann's theology in a mature, dynamic, and critical manner, seeking to appropriate from it in a discerning manner. The contributors include Sung Wook Chung, Kurt Anders Richardson, Veli-Matti Karkainen, Stephen N. Williams, and Timothy Bradshaw. This book is an excellent demonstration of intellectual confidence and respectability of robust evangelical theology.

Theology and Joy Fortress Press

The most popular source of theological hope for modern Christians is that of Jürgen Moltmann. Preachers, teachers, and lay people reflect Moltmann's influence, with their hope in a this-worldly eschatology and suffering God. However, an exclusive reliance on that hope deprives the church of crucial resources in the face of global economic, environmental, and military crises. *Our Only Hope* explores Moltmannian hope and considers its costs before looking elsewhere for additional contributions, from Thomas Aquinas' theological virtue of hope to nihilism and beyond, in order to encourage the church to sustain and practise hope in Jesus Christ, our only hope.

Experiences in Theology Fortress Press

For a time of peril, world-renowned theologian Jürgen Moltmann offers an ethical framework for the future. Moltmann has shown how hope in the future decisively reconfigures the present and shapes our understanding of central Christian convictions, from creation to New Creation.

Theology as Hope Bloomsbury Publishing

The following efforts bear the title *Theology of Hope*, not because they set out once again to present eschatology as a separate doctrine and to compete with the well known textbooks. Rather, their aim is to show how theology can set out from hope and begin to consider its theme in an eschatological light. For this reason they inquire into the ground of the hope of Christian faith and into the responsible exercise of this hope in thought and action in the world today. The various critical discussions should not be understood as rejections and condemnations. They are necessary conversations on a common

subject which is so rich that it demands continual new approaches.

The Future of Theology SCM Press

Over the past three decades- as fads in theology have come and gone - the work of Jurgen Moltmann has assumed a position of enduring vitality. 'Theology of Hope', 'The Church in the Power of the Spirit,' and 'The Crucified God' and rest of Moltmann's core corpus have formed a watershed which supplies one of the very few viable theologies still relevant to the practice of Christians in the world. The fourteen essays in this book have lasting value in that they portray the development of the author's thought in relation to our ever-changing historical and social situation. Theology, ethics, philosophy of religion, and politics coalesce as the author raises the basic issue of our time. To scan the table of contents and see such titles as *The Crucified God and the Apathetic Man*, *Racism and the Right to Resist*, *Bringing Peace to a Divided World*, and *Introduction to the 'Theology of Hope'* is to be placed in the midst of exciting and enduring Christian thought.

Theology of Hope HarperCollins

'In my end is my beginning', wrote T. S. Eliot at the close of his poem *East Coker*, and that line gave me the title for this book. With it I should like to express the power of the Christian hope, for Christian hope is the power of resurrection from life's failures and defeats. It is the power of the rebirth of life out of the shadows of death. It is the power for the new beginning at the place where guilt has made life impossible. From the Introduction by Jurgen Moltmann In this short doctrine of hope, Jurgen Moltmann examines the personal experiences in life, in which the future is awaited, times when we search for new beginnings and find them. In three parts that correspond to the three beginnings in life: birth, rebirth and resurrection, Moltmann extols the true value of Christian hope that powers new beginnings. Jurgen Moltmann is Emeritus Professor of Systematic Theology at the University of Tübingen, Germany. He is the author of a number of books published by SCM Press, including *Theology of Hope*, *The Crucified God* and *The Church in the Power of the Spirit*.

In this volume, the final in his series of systematic "contributions" to theology, Moltmann looks ahead from the landmarks of his own theological journey. He searches out the intersections of his own life with contemporary events that have kindled and impelled his theological thinking. The perspective of hope is explained freshly, while other basic theological themes and concepts are developed and interrelated.

This book develops a thorough account of the sphere of human moral action in sustained dialogue with Jürgen Moltmann. By examining God's role as promise-giver, particularly in the Christian understanding of resurrection, this work describes the occupancy of both history and space in moral terms. This leads to an understanding of Jesus' description of 'the kingdom of God' to feature prominently in describing both the possibility and content of human moral action. By offering an account of each of the main doctrines found in Moltmann's corpus - the role of the future, the Trinity, the Holy Spirit, and anthropology - this book locates how each contributes to the understanding of ethics from a Christian perspective and subsequently applies these findings to the contemporary issue of poverty and global economics.

Experiences of God Gifford Lectures

Causing a considerable stir when it was first published in Germany in 1965, "Theology of Hope" represents a comprehensive statement of the importance for theology of eschatology - and of an eschatological theology which emphasizes the revolutionary effect of Christian hope

upon the thought, institutions and conditions of life in the here and now. Jürgen Moltmann understands Christian faith essentially as hope for the future of humankind and creation as this has been promised by the God of the exodus and the resurrection of the crucified Jesus. God's promise is the compulsory force of history, awakening hope which keeps human beings unreconciled to present experience, sets them in contradistinction to prevailing natural and social powers, and makes the church the source of continual new impulses towards, in Moltmann's own words, "the realization of righteousness, freedom and humanity in the light of the promised future that is to come". This new expanded edition of a theological classic includes his 2020 Charles Gore lecture 'A Theology of Hope for the 21st Century', in which he offers a powerful reflection on the nature of hope in our current times.

The Future of Hope Bloomsbury Publishing

This is a print on demand book and is therefore non-returnable. Perhaps no other theologian of the second half of this century has shaped theology so profoundly as has Jürgen Moltmann. He appeared on the world theological scene with his *Theology of Hope* (1964) and took most of its capitals by storm. His subsequent works have kept him at the forefront of the modern theological enterprise, and the power of his vision and the originality of his method have inspired a host of new theologians. In terms of fecundity, Moltmann's opus remains unmatched among his generation of theologians. More than 130 dissertations written so far on his thought -- most of them in the past decade -- testify eloquently to its continued attractiveness. In honor of Moltmann's 70th birthday, twenty-six of the world's leading theologians -- his friends, colleagues, interlocutors, and former students -- have contributed to this volume on the future of theology. Moltmann himself has always sought to be both contemporary and future-oriented: his theology can be viewed as an exercise not only from the perspective of God's future but also toward a new human future. Thus, a book on the future of theology takes up an aspect of "his" theme and "his" concern. Yet this volume also makes a significant contribution to theology in its own right, seeking as it does to address the present crisis of theology. As Miroslav Volf writes in his introduction, "On the threshold of the third millennium, the presumed queen of sciences has grown old and feeble, unable to see that what she thinks is her throne is just an ordinary chair, uncertain about what her territories are, and confused about how to rule in the realms she thinks are hers, seeking advice from a quarrelsome chorus of counselors each of whom thinks himself the king, and ending up with a divided, even schizophrenic, mind." The essays in this volume attempt to revitalize theology as it confronts a difficult future. Despite the formidable obstacles that threaten the very survival of theology in the next century -- religious and cultural plurality; the marginalization of theology in public discourse; increasing abstraction in the practice of theology; pressing issues of gender, race, poverty, and ecology; the seemingly archaic voice of theology in post-Christian societies -- the contributors to this volume all believe in the future of theology as a vibrant discipline. *The Future of Theology* is

organized in three parts. "Challenges" deals with the external or internal problems that theology is facing. "Perspectives" offers proposals on how to meet the challenges. "Themes" concentrates on various issues that need special attention today. Together, these essays succeed in setting the theological agenda for the future of theology, and thereby serve as a fitting tribute to this volume's esteemed honoree.

The Experiment Hope Burns & Oates

In this deeply personal and daring meditation, eminent theologian Jürgen Moltmann challenges many closely held beliefs about the experience of dying, the nature of death, and the hope of eternal life. Moving deftly between biblical, theological, and existential domains, Moltmann argues that while we know intimately the experience of dying--both our loved ones' dying and, ultimately, our own--death itself is a mystery. Are those who have died in fact dead? If the dead are alive, how or in what respect? When the dead awaken to eternal life, who wakes? Moltmann's interrogations yield surprising and beautiful fruits. The living soul that awakens to eternal life is not a ghost in a machine, but the *Lebensgestalt*, the shape and story of a life, its human and divine contexts, its whole. Drawing on themes from his oeuvre's entire arc, *Resurrected to Eternal Life* testifies to the inner unity of Moltmann's theology: the cross, the Spirit, the kingdom, the end, and the hope that makes the end present here and now. Seasoned readers of Moltmann will find in these pages a capstone of a lifetime of theological exploration, while those new to his complex thought will find a concise and elegant entry point into his voluminous work.
