Karen A. Foss, John G.
Oetzel. The Eleventh
Edition is organized around:
(1) elements of the basic
communication
model—communicator,

message, medium, and
“beyond” human
communication; and (2)
communication
contexts—relationship, group,
organization, health, culture,
and society. A new chapter
discusses four frameworks
by which theories can be
organized; students can see
how theories contribute to
and are impacted by larger
issues about the nature of
inquiry.
