In 1940, the threat of war in the Pacific forced the United States to expand its fleet quickly. This effort included reconditioning and recommissioning “four stackers” from the navy’s reserve fleet. Built in 1918 to fight German submarines, the USS Ward earned at Pearl Harbor the distinction of firing the first shot in America’s war against Japan. In the three years that followed, it was bombed, shelled, strafed, and finally sunk (on December 7, 1944), yet none of her crew of 125 men ever lost a life in combat. Information is drawn from naval records as well as from interviews with surviving crewmen. Appendices provide Ward technical data, a chronology of major events,

listings of citations earned in World War II and of amphibious landings, and a roster of personnel.

The Indian sepoys of the Native Infantry Regiment, in BarrISBN:pore, were appalled when they heard that the cartridges they bit into before loading their guns were going to be greased with cow and pig fat. It was an insult to their religious sentiments. The murmurings of dissent rose as the news spread but the British were insensitive to the reasons behind it. And then Mangal Pandey, a sepoy from the Native Infantry, fired the shot that triggered off the First War of Indian Independence.

For good reason, the second and third days of the Battle of Gettysburg have received the lion's share of attention from historians. With this book, however, the critical first day's fighting finally receives its due. After

sketching the background of the Gettysburg campaign and recounting the events immediately preceding the battle, Harry Pfanz offers a detailed tactical description of events of the first day. He describes the engagements in McPherson Woods, at the Railroad Cuts, on Oak Ridge, on Seminary Ridge, and at Blocher's Knoll, as well as the retreat of Union forces through Gettysburg and the Federal rally on Cemetery Hill. Throughout, he draws on deep research in published and archival sources to challenge many long-held assumptions about the battle.

German Submarine Activities on the Atlantic Coast of the United States and Canada McFarland

This is the story of the Guadalcanal campaign as only a rifleman can tell it. In *Shots Fired in Anger*, Lieutenant Colonel John B. George recounts his brutal

experiences in frontline jungle warfare and examines the weapons, tactics, equipment, and combat mentalities that won and lost the fight. For George, marksmanship was always more than a hobby--it was a preparation for national defense. When he is inducted into the U.S. Army as a second lieutenant, he's shocked to see that the military lacks the same enthusiasm: the troops have not been taught to shoot or to march, and they are commanded by men obsessed with obsolete tactics and eyewash. It is only by desperate negotiating that he is able to secure two days of rifle training for his platoon before they are shipped to the Pacific. On Guadalcanal, George leads from the front with a sniper's calm and a scientist's eye for detail, analyzing what works and what doesn't--from the terrifying but suicidal Japanese Banzai charge to the reliable and effective M1 Garand--in trial by fire. The author interviews his fellow soldiers, questions prisoners, disassembles captured and borrowed weapons, and uses, commands, and faces these strategies and implements of war on the battlefield. All of this comes together in a fascinating combination of personal memoir and

combat dossier. Few other writers have ever been able to rival George's combination of field experience and excellent storytelling. Laced with informative illustrations and lightened by stories of hunting, drinking, and military jokes played in the face of death, *Shots Fired in Anger* is one of the most important and entertaining firsthand accounts to arise from WWII.

For the better part of the last half century, the United States has been the World's Police, claiming to defend ideologies, allies, and our national security through brute force. But is military action always the most appropriate response? Drawing on his vast experience, from combat in Vietnam to peacekeeping in Somalia, to war games in Washington, DC and negotiations with former rebels in the Philippines, retired four-star General Tony Zinni argues that we have a lot of work to do to make the process of going to war—or not—more clear-eyed and ultimately successful. He examines the relationship between the executive and the military (including the difference between passive and engaged presidents); the failures of the Joint Chief of Staff; the challenges of working with the UN, coalition forces, and NATO; the difference between young, on the ground officers and less savvy senior leaders; the role of special forces and drone warfare; and the difficult choices that need to be made to create tomorrow's military. Among his provocative points: * Virtually

every recent American military operation follows a disconnected series of actions that lead to outcomes we never foresaw or intended. * We need to assign accountability for the political decisions that can make or break a mission. * Words and ideas are as important to victory in today's conflicts as bullets. * The cyber "war" is ongoing. Either you must build better tech than the other guy, or you must steal it. * Our foreign aid budget is pitiful, our State Department, USAID, and the other government agencies that we critically need to be on a par with our military are underfunded, undermanned, and poorly structured for their current objectives. From the Oval Office to the battlefield, *Before the First Shots Are Fired* is a hard-hitting analysis of the history of America's use of military action and a spirited call for change.

Who Fired the First Shot at the Battle of Gettysburg?

From the #1 New York Times bestselling author of the Joe Pickett series comes a thrilling collection of suspense stories about the Wyoming he knows so well—and the dark deeds and impulses that can be found there... C. J. Box has been hailed for his brilliant storytelling, with a style rich in character,

suspense, and sense of place. That same brilliance is exemplified in the ten riveting stories—three of them never before published—that make up *Shots Fired*. In “One-Car Bridge,” one of four Joe Pickett stories, Pickett goes up against a just plain mean landowner, with disastrous results. In “Shots Fired,” his investigation into a radio call nearly ends up being the last thing he ever does. “Pirates of Yellowstone,” features two Eastern European tough guys who find out what it means to be strangers in a strange land, and in “Le Sauvage Noble,” the stranger is a Lakota in Paris who enjoys playing the noble savage for the French women—until he meets Sophie. Then he discovers what savage really means.... *Shots Fired* is proof once again why “Box is a force to be reckoned with” (The Providence Journal-Bulletin).
