Understanding Things Fall Apart Scholastic Inc. Chinua Achebe is Africa's most prominent writer, the author of *Things Fall Apart*, the best known--and best selling--novel ever to come out of Africa. His fiction and poetry burn with a passionate commitment to political justice, bringing to life not only Africa's troubled encounters with Europe but also the dark side of contemporary African political life. Now, in *Home and Exile*, Achebe reveals the man behind his powerful work. Here is an extended exploration of the European impact on African culture, viewed through the most vivid experience available to the author--his own life. It is an extended snapshot of a major writer's childhood, illuminating his roots as an artist. Achebe discusses his English education and the relationship between colonial writers and the European literary tradition. He argues that if colonial writers try to imitate and, indeed, go one better than the Empire, they run the danger of undervaluing their homeland and their own people. Achebe contends that to redress the inequities of global oppression, writers must focus on where they come from, insisting that their value systems are as legitimate as any other. Stories are a real source of power in the world, he

concludes, and to imitate the literature of another culture is to give that power away. *Home and Exile* is a moving account of an exceptional life. Achebe reveals the inner workings of the human conscience through the predicament of Africa and his own intellectual life. It is a story of the triumph of mind, told in the words of one of this century's most gifted writers.

Since its publication in 1958, Chinua Achebe's *Things Fall Apart* has won global critical and popular acclaim. Offering a hitherto unlimned picture of a traditional culture, it is both a moving story of the coming of colonialism and a powerful and complex political statement on the nature of cross-cultural encounter. The novel has been immensely influential work as the progenitor of a whole movement in fiction, drama, and poetry focusing on the re-evaluation of traditional cultures and postcolonial tensions. It enjoys a pre-eminent position as a foundational text of postcolonial studies. This collection, originating in a conference held in London to celebrate the fiftieth anniversary of the novel's first publication, opens with a fascinating, insightful, and wide-ranging interview with Achebe. The essays that following explore contemporary critical responses and the novel's historical and cultural contexts. Achebe's influence on the latest generation of Nigerian writers is discussed in essays devoted to Chimamanda Ngozi Adichie. Another essay examines the radical feminist response to the novel in the work of the francophone Algerian writer Assia Djebar, another the illustrations accompanying early editions. Teaching strategies and reader responses to the novel cover Texas, Scotland, and Australia. One measure of the phenomenal worldwide success of *Things Fall Apart* is the fact that it has been rendered into some forty-five languages; accordingly, further contributions offer sharp analyses of the German and Polish translations of the novel. Since the first edition of *On Being a Scientist* was published in 1989, more than 200,000 copies have been distributed to graduate and undergraduate science students. Now this well-received booklet has been updated to incorporate the important developments in science ethics of the past 6 years and includes updated examples and material from the landmark volume *Responsible Science* (National Academy Press, 1992). The revision reflects feedback from readers of the original version. In response to graduate students' requests, it offers several case studies in science ethics that pose provocative and realistic scenarios of ethical dilemmas and issues. *On Being a Scientist* presents penetrating discussions of the social and historical context of science, the allocation of credit for discovery, the scientist's role in society, the issues revolving around publication, and many other aspects of scientific work. The booklet explores the inevitable conflicts that arise when the black and white areas of science meet the gray areas of human values and biases. Written in a conversational style, this booklet will be of great interest to students entering scientific research, their instructors and mentors, and anyone interested in the role of scientific discovery in society.

The Sultan secretly commissions a great book: a celebration of his life and the Ottoman Empire, to be illuminated by the best artists of the day - in the European manner. In Istanbul at a time of violent fundamentalism, however, this is a dangerous proposition. Even the illustrious circle of artists are not

allowed to know for whom they are working. But when one of the miniaturists is murdered, their Master has to seek outside help. Did the dead painter fall victim to professional rivalry, romantic jealousy or religious terror? With the Sultan demanding an answer within three days, perhaps the clue lies somewhere in the half-finished pictures . . . From Turkey's winner of the Nobel Prize and author of *Istanbul* and *The Museum of Innocence*, this novel is a thrilling murder mystery set amid the splendour of Istanbul and the Ottoman Empire. Part fantasy and part philosophical puzzle, *My Name is Red* is also a stunning meditation on love, artistic devotion and the tensions between East and West.

The five sequences of *Lift Your Right Arm* are minimalist novels of sorts—thought-provoking, mostly deadpan prose that is often darkly humorous. From the stark relationship studies of "Bagatelles" and "Dirty Windows" to the wry observations of "Mr. Deadman" and "A Certain Clarence," the stars of these pieces are Peter Cherches' unique takes on Everyman and Everywoman—dead or alive—navigating a world in which very little is what it seems.
