The Alumni Way Taylor & Francis
My wife and I love our sons unconditionally and equally. Talking with one of them about his atheism has brought me to a new dimension in my relationship with him, to a review of my own christian beliefs, to a more critical examination of the church, and to a different understanding of ministry in today's world. As personal as I make this all sound, my family represents a thousand families, a hundred thousand and more, who have sat in painful silence because religious differences have taken away their voice. They tire of confrontation, angry discussions, verse hurling

and jabbing one another with theories over every conceivable divisive issue. It is a powerful idea that those who do not share our faith should know that we do, not so much in our argument as in our love. It is time to listen.

Good News for Moderns iUniverse

This book was not planned, but grew out of the troubles of the time. When, on one occasion or another, I was invited to lecture, I did not find, with Milton's Satan, that the mind is its own place; I could speak only of what I was thinking of, and my mind was fixed on the War. I am unacquainted with military science, so my treatment of the War was limited to an estimate of the characters of the antagonists. The character of Germany and the Germans is a riddle. I have seen no convincing solution of it by any Englishman, and hardly any confident attempt at a solution which did not speak the uncontrolled language of passion. There is the same difficulty with the lower animals; our description of them tends to be a description of nothing but our own loves and hates. Who has ever fathomed the mind of a rhinoceros; or has remembered, while he faces the beast, that a good rhinoceros is a pleasant member of the community in which his life is passed? We see only the folded hide, the horn, and the angry little eye. We know that he is strong and cunning, and that his desires and instincts are inconsistent with our welfare. Yet a rhinoceros is a simpler creature than a German, and does not trouble our thought by conforming, on occasion, to civilized standards and humane conditions.

Winner, Holt Medallion Award, Best Historical Romance, Virginia Romance Writers All About Romance, Desert Island Keeper RONE (Reward of Novel Excellence) Nominee, Historical Romance Spencer Burnett, Viscount Stiles, once swore he 'd left England for good. Yet after five years of self-imposed exile in West Africa, he 's no longer the same spoiled, selfish boy who ran away from a domineering father, a disappointed grandmother, and a decidedly unwanted wife. Proving himself to the family he abandoned will be no easy task, but he hardly expects his formerly docile wife will be the hardest to convince. When Philadelphia refuses to accept his apologies—or to allow him back into her bed—Spencer finds himself tempting her into a bargain he cannot afford to lose. Philadelphia Burnett 's desires were once as vast as the sky. But now, after suffering one devastating loss after another, the only thing she allows herself to want is a home. So when her estranged rake of a husband returns from a five-years ' absence to claim the estate promised to her, Delphie resolves to fight him every step of the way. Beechcombe Park will be a sanctuary for her, and for the wayward Audley cousins she 'd promised her sister she 'd always protect. She cannot, will not, suffer even one more loss. Especially not the loss of her heart...

"Lie back and think of England ... England, 1904. Two years ago, Captain Archie Curtis lost his friends, fingers, and future to a terrible military accident. Alone, purposeless, and angry, Curtis is determined to discover if he and his comrades were the victims of fate, or of sabotage. Curtis's search takes him to an isolated, ultra-modern country house, where he meets and instantly

clashes with fellow guest Daniel da Silva. Effete, decadent, foreign and all too obviously queer, the sophisticated poet is everything the straightforward British officer fears and distrusts. As events unfold, Curtis realizes that Daniel has his own secret intentions. And there's something else they share-- a mounting sexual tension that leaves Curtis reeling. And as the house party's elegant facade cracks to reveal treachery, blackmail, and murder, Curtis finds himself needing clever, dark-eyed Daniel as he has never needed a man before." --Page 4 of cover.

The overwhelming victory of Henry V's English army at Agincourt in October 1415 has passed into myth as one of the defining events of the Hundred Years War against France, as a feat of arms outshining the previous famous English victories at Crecy and Poitiers, and as a milestone in English medieval history. This epic story of how an exhausted, outnumbered army, commanded by an inspirational leader, crushed a huge French force on French soil has given rise to legends and misconceptions that make it difficult for us to reach a clear understanding of what really happened on the battlefield 600 years ago. But that is what Stephen Cooper attempts in this thoroughgoing, perceptive and fascinating reconstruction and reassessment of the battle and its history. In graphic detail he describes the battle itself and the military expedition that led to it. He examines the causes of the conflict and the controversies associated with it, and traces how the story of the battle has been told over the centuries, by eyewitnesses and chroniclers and by the historians of the present day. As featured in the Yorkshire Post, The Star (Sheffield) and Rotherham Advertiser.

This is a story about a boy who was raised in the Pacific Northwest who had a childhood that was filled with experiences that could best be characterized as extraordinary. It tells of the childhood memories of a boy who was raised on the waters of Puget Sound, on Wollochet Bay, and whose parents were professional ice skaters.

He spent many winters on the summit of Snoqualmie Pass at an incredible place known as Alpentail. It tells of his childhood, and of coming of age. Todd tells of his early encounters with God and his coming to faith. A Boy From Wollochet is a powerful memoir of what can happen when a boy encounters the Living God. Through each and every encounter that is penned in these pages, the reader will follow the author, as God pursued him, through the great triumphs and the deep tragedies of his early life. This book is about a love affair between a boy and his God, and what happened when he experienced the miraculous. It is a testimony of a boy who fell in love with the man named Jesus of Nazareth, after his experiences of being saved from certain death. In these pages, be prepared to read about a relationship between father and son, the tragedy of terminal illness, and the power of faith, hope and reconciliation.

The Crimes of England is a series of essays written during the Great War that highlight, in Chesterton's learned and generally witty opinion, the failings of his country. The collection opens with a letter to Professor Whirlwind, a German whose name 'is too much for me', and who has been writing articles attacking England in the newspapers of the day. Chesterton savagely and cleverly whittles the Professor down to a very small nub indeed, and then he goes on to highlight his own problems with England. His criticism of the German soul and the English failings in (then) recent times are juxtaposed to great effect. Chesterton ends his essays with a plea to his fellow Englishmen not to avoid criticising their nation but to embrace it. He writes, " I have passed the great part of my life in criticising and condemning the existing rulers and institutions of my country: I think it is infinitely the most patriotic thing that a man can do. Making Another World Possible identifies the British contribution to the genealogy of modern green and anti-capitalist thinking by examining left libertarian ideologies in the late 19th and early 20th century Britain and highlighting their influence on present day radical thought. As capitalism heralded the triumph of technology, greater production, and a new urban industrial society, some imagined alternatives to this notion of progress based on endless economic growth. The book examines the development of ideas from these dissidents who included communists, class warriors, free thinkers, secularists, and Christian communitarians. All shared the same beliefs that the benefits of industrialism could only be realized through equality and that urban culture depended on a healthy agriculture and harmony with the natural world - concerns that are still of great importance today. This distinctive history of anarchist ideas reappraises the work of thinkers and revises the historical picture of the radical milieu in 19th and 20th century Britain. It will be an essential resource to anyone researching the history of ideas and studying anarchism.

"The English are often confused about who they are. They say 'British' when they mean 'English', and 'English' when they should say 'British.' But when England, more than the rest of the UK, voted to leave the EU, polls showed national identity was a big concern. So it's time the English sorted out in their minds what it means to be English. A nation's character is moulded by its history. And in 'Who Do the English Think They

Are?' historian and journalist, Derek J. Taylor travels the length and breadth of the country to find answers. He discovers that the first English came from Germany, and then in the later Middle Ages almost became French. He tracks down the origins of English respect for the rule of law, tolerance and a love of political stability. And, when he reaches Victorian times, he investigates the arrogance and snobbishness that have sometimes blighted English behaviour. Finally, Taylor looks ahead. He asks - faced with uncharted waters post-Brexit, what is it in their national character that will help guide the English people now?" --Publisher description.

Two cataclysmic events occur on February 9, 1964. The Beatles appear on "The Ed Sullivan Show" and later that night, nine-year-old Jane MacLeod's life changes forever. It has been said that children are good observers but poor interpreters. Jane's interpretation of the events of that evening shapes her life in ways she doesn't recognize. "Think of England" follows Jane from an intense love affair in the ex-pat scene in punk-era London to working motherhood in New York to a family reunion in the country -- and a reckoning with the ghost that has stood between her and her dream of a happy family.

For many, Rupert Brooke is the embodiment of a generation that was all but wiped out between 1914 and 1918. His fame was largely brought about by the words of one of his sonnets, If I should die, think only this of me/There is some corner of a foreign field that is forever England. This thought was a focal point for his generation. Brooke died in 1915, on his way to fight in Gallipoli. In this book the author explores Brooke's life from his days at Rugby, to his time in North America and the South Seas. The inspiration and influences behind many of his poems are explored through the examination of his circle of friends, politics, love life, and his nervous breakdown.

Pluralism in Management Learning Matters Analytic philosophy has come to dominate organizational theory and management education, despite criticism from several notable scholars. The European continental philosophical tradition, on the other hand, is seen by some as a counterpoint to US- and UK-dominated functionalistic organizational theories. These two very different schools of thought are now largely practiced in isolation from one another. Late nineteenth and early twentieth century philosopher Ernst Cassirer served as a mediating force and facilitated a fruitful dialogue between the two schools until he was forced to leave Germany when the Nazi party came to power. In Pluralism in Management, author Eirik J. Irgens utilizes Ernst Cassirer's pluralistic philosophy in order to investigate how different but connected forms of knowing, including art, myth, religion, science, and history may help us become better organizational scholars and management educators. With a special emphasis on the complementary qualities of art and science, Irgens builds on Cassirer to discuss how art and science represent two different but complementary channels to reality, in contrast with each other but not in conflict or contradiction, and the challenge of developing "two-eyed" managers. Revitalizing Cassirer's almost forgotten philosophy, the book illustrates the value of philosophical application to organizational study, and the need for bringing together the best of the humanities and the science based management traditions in order to improve management education.

War Brides - 101 Amazing Facts You Didn't Know Pen and Sword

Thoughts worth living for I am a visionary seeing the picture in my mind way in advance. I summon my imagination and all of its wonderful contents. My faith never wanes, even though wishes can take a while to materialize. Negativity

seeks a way into my mind, using deceit, but I refute such thoughts. My dreams never fade. I always keep them in the back of my mind. I know a change will come because I'm stubborn and persistent. Never am I discouraged by the time it takes for me to rendezvous with destiny. I am still for the Lord, waiting patiently for a rainbow to appear when I least expect it. Nothing stands in my way because I will circumvent any obstacle until I reach my utopia. I'll wait with patience and contentment for my innermost desires. I won't become a skeptic or doubtful of what is sure to come. I want my thoughts and all I am thinking to manifest into the physical world. You see, these thoughts are so magnificent that they alone are worth living for. Extracted from Food for Thought by Duane Ashley Poole

Christian Environmentalism and Human Responsibility in the 21st Century comprises original scholarly essays and creative works exploring the implications of Christian environmentalism through literary and cultural criticism and creative reflection. The volume draws on a flourishing recent body of Christian ecocriticism and environmental activity, incorporating both practical ethics and environmental spirituality, but with particular emphasis on the notion of human responsibility. It discusses responsibility in its dual sense, as both the recognized cause of environmental destruction and the ethical imperative of accountability to the nonhuman environment. The book crosses boundaries between traditional scholarly and creative reflection through a global range of topics: African oral tradition, Ohio artists off the grid, immigrant self-metaphors of land and sea, iconic writers from Milton to O' Connor to Atwood, and Indigenous Canadian models for listening to the nonhuman Mother of us all. In its incorporation of academic and creative pieces from scholars and creative artists across North America, this volume shows how environmental work of its nature and

necessity crosses traditional academic and community boundaries. In both form and orientation, this collection speaks to the most urgent intellectual, physical, social, and spiritual needs of the present day. This book will appeal to scholars, researchers, and upper-level students interested in the relationship between religion and environment, ethics, animal welfare, poetry, memoir, and post-secularism.

England and the War Helena Halme

Book Excerpt: I volunteering is valueless in war if you think so; or even if you don't think so. By all means say that Germany is unconquerable and that we cannot really kill you. But if you say that we do not really want to kill you, you do us an injustice. You do indeed. I need not consider the yet crazier things that some of you have said; as that the English intend to keep Calais and fight France as well as Germany for the privilege of purchasing a frontier and the need to keep a conscript army. That, also, is out of books, and pretty mouldy old books at that. It was said, I suppose, to gain sympathy among the French, and is therefore not my immediate business, as they are eminently capable of looking after themselves. I merely drop one word in passing, lest you waste your powerful intellect on such projects. The English may some day forgive you; the French never will. You Teutons are too light and fickle to understand the Latin seriousness. My only concern is to point out that about England, at least, you are iRead More

In reconstructing the birth and development of the notion of 'unconscious', historians of ideas have heavily relied on the Freudian concept of Unbewussten, retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany. Archaeology of the Unconscious aims to challenge this perspective by adopting an unusual and thought-provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI, when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a 'psychoanalytic novel'. Italy's vibrant

culture of the long nineteenth century, characterised by the sedimentation, circulation, intersection, and synergy of different cultural, philosophical, and literary traditions, proves itself to be a privileged object of inquiry for an archaeological study of the unconscious; a study whose object is not the alleged 'origin' of a pre-made theoretical construct, but rather the stratifications by which that specific construct was assembled. In line with Michel Foucault's *Archéologie du savoir* (1969), this volume will analyze the formation and the circulation, across different authors and texts, of a network of ideas and discourses on interconnected themes, including dreams, memory, recollection, desire, imagination, fantasy, madness, creativity, inspiration, magnetism, and somnambulism. Alongside questioning pre-given narratives of the 'history of the unconscious', this book will employ the Italian 'difference' as a powerful perspective from whence to address the undeveloped potentialities of the pre-Freudian unconscious, beyond uniquely psychoanalytical viewpoints.
